

GREEKS OUT OF TURKISH RETREAT

Town of Servia Captured, 22 Guns and Many Prisoners Taken.

OTTOMANS IN FULL FLIGHT

Two Battalions of Greeks Rout an Equal Force of Turks at Vladkhohivado — Sultan's Army Is Scattered to All Sides.

ATHENS, Oct. 24, 1:45 A. M.—The Greeks have occupied the town of Servia and have also captured the bridge over the River Allakmon (Indie Karnass), thereby cutting off the retreat of the Turkish army.

The government has dispatched telegrams congratulating the commander and troops.

The Greek victory was complete. The Greeks captured 22 guns and many prisoners, and scattered the Turkish army.

Crown Prince Constantine, telegraphing from headquarters last night, reported:

"Our troops are pursuing the enemy all along the line from Cambunia to the town of Servia and on the Allakmon plain. The Turkish army has been scattered. We have taken 22 field guns, with their ammunition wagons, and a large quantity of ammunition and many transport wagons."

Later General Danglis sent a message saying:

"The Turks have lost heavily. We have made a number of prisoners, including one Lieutenant-Colonel."

Two battalions of Greek prisoners, under Lieutenant-Colonel Constantopoulo, attacked two battalions of Turks near Vladkhohivado, dispersing them.

ALLIES CONTINUE SUCCESSES

Servians Capture Novipazar and Are Master of Kumanova.

LONDON, Oct. 23.—The news from the seat of war tonight tells of the continued successes of the allies. The Servians have captured Novipazar and are the virtual masters of Kumanova. The victories, however, have been won at heavy sacrifices.

The situation in Thrace is becoming clearer. A general offensive is being fought in the direction of Kirk-Kilisseh, where they have captured the town of Servia and are continuing their advance southward.

On the west the Bulgarians, according to official Sofia reports, have reached the Arda River, close to Adrianople, which is being bombarded vigorously. Already the two outer forts have fallen. Some positions north of Adrianople are being taken, after fighting of the severest character.

Of the army in the center, operating in the direction of Kirk-Kilisseh, there was no news today and evidently that fortress is holding out.

It is significant that tonight's Constantinople dispatches which say a decisive result is expected tomorrow, have a less confident tone than previous dispatches from that capital. They admit a heavy struggle is in prospect, in which both sides are showing the utmost bravery.

Information concerning the Montenegrin advance is meager, but the Turkish authorities declare that the Soutari has been reinforced and is safe.

A Saloniki dispatch says the Mallasser tribes are offended because the Montenegrin commanders are proclaiming the sovereignty of King Nicholas in the captured Albanian towns. They demand that King Nicholas give a guarantee that he will evacuate Albanian territory and secure autonomy for Albania. So far they have received no satisfactory reply and it is reported that they are refusing to fight for the Montenegrins, whose advance has been thereby checked.

The next news of the Greek campaign should be an important battle around the town of Servia, whether the Turks have retreated from Ellassona. The Turks have been reinforced from the north.

A Koestendil dispatch to the Daily Telegraph says that 28,000 Servians and 25,000 Bulgarians are operating in the Kumanova district. The Bulgarians are holding a strong position between Karatova and Kumanova. Once that is taken the way is open for the passage of the combined armies to Uziup.

A St. Petersburg dispatch to the Post says it is reported that 20,000 Russian volunteers have enrolled themselves at Moscow to assist the fellow Slav in the bombardment of Taraboch which has been suspended owing to a torrential rain and thick fog, according to a Cetinje dispatch.

RATE IS CANCELED

Grain Schedule Held to Be Unjustly Discriminating.

EXPORT FINDINGS MADE

Differential to Baltimore and Philadelphia on Shipments Abroad May Not Be Increased Over Present Rate.

WASHINGTON, Oct. 23.—Proposed increases by transcontinental railroads of three cents a hundred pounds on barley from California, Nevada, and Utah to Minneapolis and other North western destinations was held today by the Interstate Commerce Commission to be unjustly discriminatory against Minneapolis and unduly favorable to Chicago.

The carriers will be directed to cancel the proposed tariffs, which already had been suspended, and to continue the 55-cent rate to Minneapolis, which is 7 1/2 cents lower than the Chicago rate.

Class Rate Increase Suspended.

The Commission today suspended until April 29 the proposed increase in class freight rates from Chicago, St. Louis and other points to destinations in South Dakota and other Northwestern states.

The Commission issued supplemental findings in what is known as the "differential case," reflecting the all rail and the lake and rail freight rates on all shipments to New York, Baltimore and Philadelphia intended for export.

Philadelphia explained that it had no intention to change the differentials on flour or on iron and steel articles for export in the supplementary findings as the Commission amends its previous findings as to prescribe definitely that the differentials to Baltimore and Philadelphia under the New York rates shall not be greater than they now are.

Export Rates Effective January 1.

The carriers are directed to make their adjustments of export rates effective on January 1, 1913.

Supplementing its previous findings as to the rates on west-bound import shipments, the Commission decided that by way of standard lines, the import rates from Boston should be the same as from New York and that by way of the all rail differential routes, via the Boston & Maine and Boston and Albany in connection with the Canadian Pacific and National Despatch and the lake and rail route via the Boston & Maine, Grand Trunk and Canadian Atlantic Transit Company through Depot Harbor, the important rates from Boston might be the same as the domestic rates.

January 1, 1913, was fixed as the effective date of findings.

LOSSES IN BATTLE HEAVY

Turks Said to Have Taken Guns From Bulgarians and Servians.

CONSTANTINOPLE, Oct. 23.—

The situation on the various fronts, as announced tonight, shows heavy fighting northwest of Kirk-Kilisseh and east of the Tanduna Valley; engagements around Kirdchall, and offensive tactics by the Turks in Macedonia in the direction of Koestendil, from Djumhala to Zegr Palanka.

The Montenegrin forces are endeavoring to reach Soutari from the west of the lake, and reinforcements and the town is believed to be out of danger, while on the east of the lake the Montenegrins are inactive. Severe fighting is going on around Pristina.

A dispatch from Uskup reports that a Turkish column operating from Kumanova captured from the Bulgarians four guns and from the Servians six guns and a standard. The Turks also took several prisoners.

The Turkish newspapers report Turkish victories near Kirk-Kilisseh, where they assert the Bulgarians left 3000 dead on the field. At Maras, between the Tundia and Maritza rivers, four miles to the west of Adrianople, where the Bulgarians had 30,000 men engaged, they left thousands of dead.

Several engagements have occurred on the road between Adrianople and Kirk-Kilisseh. The Bulgarians advanced on Adrianople in three columns—from the north along the Tundia River, from the west, along the Maritza, and from the southwest, along the Arda.

BELGRADE, Oct. 23.—The capture of Novipazar by General Jankovitch was preceded by three days' desperate fighting, the Turks holding strongly fortified positions.

General Zeevovitch reports that the Servian losses in the capture of Pristina were extraordinarily large, but that the Turkish losses were still greater.

Some alarm is felt here lest the supply of cartridges run out. The factory at Makrisko is working day and night but only can produce 250,000 daily, insufficient for the troops engaged.

LEADER OF MEXICO'S LATEST SHORT-LIVED REBELLION, WHO IS CAPTURED.

FELIX DIAZ.

WASHINGTON IS ASTOUNDING

Surrender of Diaz Believed to Mark End of Revolution.

WASHINGTON, Oct. 23.—

News of the capture of Vera Cruz by Mexican federal forces and the surrender of General Felix Diaz and his staff with practically no show of resistance was received with astonishment in official circles. It is generally believed this event marks the complete suppression of what had been looked upon as the beginning of a general rebellion involving entirely new elements.

A brief cable message to the State Department from American Consul Canada confirmed the report of the capture of Vera Cruz by General Beltran. There was some fighting on the outskirts of the town, but only enough to justify Captain Hughes, of the cruiser Des Moines, in offering medical assistance for the wounded, which was gratefully accepted.

The sudden collapse of the defense, after such elaborate preparations had been made for a general battle, is taken as evidence that the strength of the revolutionary sentiment in the city of Vera Cruz has been much overrated and was confined closely to the comparatively small garrison that flocked to General Diaz's standard, principally for sentimental motives.

Already officials and Army officers here are speculating as to the fate of Diaz and other officers of the Mexican regular army who were led into this uprising. From the extremely courteous language in which General Beltran, the government commander, couched his demand for the surrender of Vera Cruz, it is surmised that the captives will be treated with leniency, and although under strict military law they

HARVESTER TRUST TERMS ARE SHORT

Directors and Other Officials Hold Places for Only 24 Hours.

HEARING BRINGS OUT FACTS

Connection Only Long Enough for Officers to Aid in Purchase of Independent Companies. Changes Come Quickly.

NEW YORK, Oct. 23.—When the International Harvester Company, the so-called harvester trust, was formed in 1902, its organization was made up of directors some of whom held office not longer than 24 hours, according to several witnesses who testified today when hearings were begun here in the Government suit to dissolve the company. Their connection, however, was long enough, the testimony ran, for them to aid in the purchase of independent companies.

One of those directors was R. E. M. Cravath, who resigned after one day's directorship. He testified that his financial assistance to the "trust" was the purchase of the Minnie Harvester Company for nearly \$1,000,000, this company later passing into the control of the "trust."

Abram M. Hyatt, vice-president of the Lincoln Trust Company, testified he was a director for a day only, while Mr. Miller said he was sure he held office as president longer than 24 hours. He had never expected, he declared, to have permanent connection with the company.

Mr. Cravath, a Wall-street banker, said that when elected a director he expected to continue as a member of the board, but the next day he was asked to resign. In purchasing the Minnie Harvester Company, he said, he did not act independently, but at the bidding of others, and that he thought he borrowed \$245,000 from the Bankers' Trust Company, with which to buy the stock.

Joseph P. Cotten, Jr., a Wall-street lawyer, who said he attended to matters of detail in the incorporation of the company, testified that at a meeting of the board in August, 1902, he held shares and voted them under instructions from the voting trustees, who, he said, were George W. Perkins, Cyrus H. McCormick and Charles Deering.

MEXICO CITY NOT ELATED

Quick Suppression of Rebel Movement Causes Surprise.

MEXICO CITY, Oct. 23.—The taking of Vera Cruz by the federal forces is confirmed from all quarters. President Madero has sent the following dispatch to the Governors of all the states:

"Vera Cruz is in the hands of the loyal troops. Diaz has been taken prisoner."

There is much suppressed excitement here over the federal victory, but little enthusiasm. The movement was suppressed so quickly has caused much surprise. The general opinion is that the government success will operate greatly to strengthen the administration.

JEWISH BUREAU IS PLAN

Systematic Method of Aiding Hebrew Immigrants Is Purposed.

SPOKANE, Wash., Oct. 23.—(Special.)—A convention of Jewish people of the West is to be held in San Francisco in November or early in December for the purpose of establishing a bureau of information to visit the local agents who come to the Western ports of entry may be properly distributed to the sections of the country where they can prosper best.

This is the statement of Rabbi J. Nieto, grand president of the B'nai B'rith for the Pacific Coast states, who is Spokane to visit the local agents. He will address the Jewish people to-night at 8 o'clock in Temple Emmanuel.

"I am personally arranging for the Spokane convention," said Rabbi Nieto this morning, "and I hope to have Spokane lodge send one or two delegates."

The principal work of the order is to ameliorate the condition of Jews the world over, and to receive immigrants coming to the country and to afford them an opportunity of becoming producers, and to teach them a true appreciation of American citizenship.

"In anticipation of a great influx of immigration direct from Europe to the Pacific Coast upon the opening of the Panama Canal, we are planning the information bureau in San Francisco. We plan to establish branches in all cities of the Northwest."

MACHINE SHOPS MODERN

Northern Pacific Plant at Parkwater Almost Done.

SPOKANE, Wash., Oct. 23.—(Special.)—Within the next 60 days the fine new shops and roundhouse of the Northern Pacific at Parkwater, three miles east of Spokane, will be ready for operation. The big machine shop, one of the largest buildings of the group of nearly 20, is now being roofed, according to M. Shippy, superintendent of the work.

Two of the attractive features of the new 21-stall roundhouse are the enormous turntable and a huge hot well. The turntable, 85 feet in length and weighing 60 tons, is balanced so accurately that, in the words of Mr. Shippy, "a baby can operate it."

It is of sufficient size to handle the largest engines used in this section of the country. By the use of the hot well, an underground reservoir of great capacity, the roundhouse employees will be able to "steam up" a cold engine and have it ready for service on the road within six minutes. Boiling water from the hot well will be pumped into the engine boilers instead of using cold water in the latter and heating it up. Without the use of the hot well it requires on an average about seven hours to get one of the big freight or passenger engines ready for the road.

Washougal to Vote on Saloon.

WASHINGTON, Wash., Oct. 23.—(Special.)—This town is to vote on saloon or no-saloon for November 5. The town has been dry for four years, and the wets claim it would help business to have a saloon, while the dries claim a prosperous, well-regulated town without a drinking resort. However, the battle is on, and both sides are working hard.
