Market Is in Better Shape and Buying Is Freer.

FARMERS SELL AT ADVANCE

Demand From the Orient for Both Flour and Wheat Shows Improvement-Japanese Millers and Shanghai Dealers on Market.

There is continued improvement in the undertone of the wheat market, and as a consequence buyers are more disposed to take hold. There has been quite a free movement in the past two days, farmers showing a willingness to sell in view of the better prices offered. Values are about a cent higher all through as compared with the opening of the week. Club was bought restorday at 73 and 70 cents, and 82 and 80 cents was paid for bluestam.

Many farmers who did not embrace the opportunity to sell when these prices were current several weeks ago, evidently waited for them to be repeated, and it is this class of sellers largely who are letting go. The offerings on the market, however, cannot be called large.

There is also more expert flour business passing, and at full prices. The Oriental situation generally has improved. The fallure of the rice crop in Japan has stimulated the demand there. Shanghai millers have ground most of the wheat in the section tributary to that market, the northern crop having been light, and are now looking to this market for flour. Inspared buyers are seek-

POTATO SITUATION IS NO BETT Heavy Offerings of California Rivers K Coast Markets Low.

Conditions in the potato market conticonditions in the potato market continue unsatisfactory. Potatoes in California, are selling at 40 to 45 cents f. o. b, and are being landed in Texas at \$1.75 a hundred. Southwestern buyers are securing surpplies in Idaho and Colorado at the same prices. In California Rivers are being dug and forced on the market, which keeps things weak there. After the turn of the year, when these Rivers are out of the market, there may be some improvement in the Coast.

First Shipment.

A car of Hallowee dates arrived yesterday by the Suen and Hongkong route. These dates ware put on sale at 7th cents, which is a cent cheaper than the first shipment of ferred at.

Hannans are cleaning up well and will be scarce for the next ten days. Oranges are in active demand. The cheaper grades of apples are also selling well.

Very little good celery was on the market yesterday. A car of celery and a car of sever polatoes arrived on the delayed train lest hight. A car of lettuce is due today.

Distribution Exceeds That of Previous Seasons.

COMMERCIAL LINES LIVELY

Iron and Steel Plants Booked for First Half of Next Year and Longer-Jobbing Orders for Future Delivery Extensive.

NEW YORK, Dec. 6.—Bradstreet's tomor. row will say:

Trade still displays considerable vigor, irregularity or stackness in this or that quarter. being offset by increased or sustained activity in many lines. Orders for future delivery continue on an extensive scale, while holiday distribution probably exceeds that of any previous season.

In the drygoods line, scarcity of various makes of goods is very noteworthy and while demand, taking the country as a whole, shows no appreciable let-up, there is a tendency to discourage buyers from rushing in and bidding up a market that is clearly short of supplies.

In the Iron and steel lines, pig iron is less active and buying of sicel has abated somewhat, but that industry is so well filled up with orders, some plants being booked for the first half of next year and others for a longer period, that a hill is not unexpected.

Collections are good and even the Southern reports are more cheerful, save at comparatively few points, those that have been adversely affected by a short cotton crop. Business failures in the United States for the week ending December 5 were 28 against 27 last week, 267 in the like week of 1911, 267 in 1910, 209 in 1909 and 208 in 1908.

COTTON GOODS MARKET IS STRONG

Jobbers Report a Fair Trade for the Time of Year.

NEW YORK, Dec. 6.—R. G. Dun & Co.'s weekly review of trade tomorrow will say: The cotton goods markets continue strong, but there is a growing conservatism because of high prices and buying at first hands is less active. Jobbers, however, report a fair trade for the season and there is a good demand for many domestic stables, convertibles and goods used in the converting trades. China bought standard drills for shipment in March and April.

In woolens and wersteds spet demand for dress fabrics is seasonably quiet at first hands, but there are many goods to be delivered on all orders.

Printed silks are coming forward in a strong way for Spring and Summer, and

There were evidences of forced liquidation yesterday, where today's market appeared to be more larger bear salling.

The market was helped by a sobering down of the fluctuations among the minor as sectalities, which broke so violently yesterday, presumably because of discrimination of lending institutions against these securities as collateral. While the banks affilm an intained this attitude, the result was not as noticeable, since yesterday's movement disposed of large holdings of these less state ble securities.
