IGE PROPOSED Gaynor Wants Outside Officials; McClellan Opposes Sunday Liquor Law. 'GRAFT" IS NOW INVITED Present Mayor Tells of Department Heads Who Went Out of Office Rich, and Says Practice Is Thing of Past.

• NEW YORK, Feb. 26.—Three commit-tees—one appointed by the State Legis-lature, one by the board of aldermen and one an organization of citizens— joined today in an effort to reform the New York police force. The result of their labors probably will be legisla-tive fills providing for sweeping changes. hanges,

Mayor Gaynor was the principal wit-Mayor Gaynor was the principal wit-ness before the legislative committee, while two of his office predecessors, ex-Mayors McClellan and Low, gave their views to the committee of alder-men. At the same time the citizens' committee, appointed immediately after the murder of the gambler, Herman Rosenthal, laid before the legislative committee detailed recommendations.

Radical Measure Proposed.

Radical Measure Proposed. Radical reforms suggested was the appointment of a new commis-sion to be called the Board of Social welfare, which should take from the present police force the duty of regu-liquor traffic. This plan was presented by the citizens' committee. Ex-Mayor McClellan united with the itizens' committee in the belief that it is impossible to suppress the Sunday sale of liquor in New York and that the present law invites the levying of po-lice tribute on saloonkeepera. It was recommended both by the Mayor and the committee that in New York Citiy sunday liquor selling be permitted within restricted hours.

Gaynor Wants New Officers.

Mayor Gaynor declared that among the 10,000 New York policemen, not more than 50 were grafters. His prede-cessor, Mayor McClellan, said that while the rank and file of the force were the finest in the world, their officials were the worst. he worst.

the worst. Mayor Gaynor suggested an infusion of new blood into the force by permit-ting the appointment of inspectors from outside. By this he hoped to bring into the force army officers and other trained men not under the domination of the "gystem." of the "system." In explaining his views the Mayor

out now a rich man? Saloon Graff Cut Down. "Why, when I became Mayor the po-lice were getting about \$3,000,000 a year in graft from saloonkeepers. There isn't a penny of it paid today—except, perhaps here and there by some scamp or scoundrel. The police of New York have other things to do than to see if a man takes a glass of beer on Sunday. "I hope there will be no delusion at Albany. I do not believe the police of New York City are falling in their duty or corrupt; it is not so. And don't get the notion that the newspapers aren't in this graft; they've been in it up to their armpits for 25 years."
