DECENT VOTE URGED OUT

"Rushlight Ring of 10,000 Voters' Always to Be Counted on, Says Councilman. Who Accuses Regime of Extravagance.

"Wipe out the present administration, if it's the last thing you voters do in your life," was the appeal with which Councilman Maguire closed an address before the Woodstock Improvement League, in Woodstock, last night.

Mr. Maguire urged that every effort be made to bring out a heavy vote on election day, declaring that only in this way can the Rushlight forces be defeated.

He charged the Rushlight administration with wastefulness and unwarranted extravagance.

"The new offices that have been created under Rushlight," he said, "have cost, including the added cost of operating the water department, more than \$190,000 to the people of Portland. In the Mayor's office alone the expenses have been \$2500 higher this year than they were the year before. We have footed the bill for maintenance of the Mayor's automobile, his chauffeur's salary, and we have almost doubled up on the salary of his private secretary.

"The records of the water department show a condition of shameful mismanagement. I have over the signature of the City Auditor statements which show that two and two-thirds miles of pipe, more pipe than could be hauled into Portland in the largest train that ever came into the city, representing a value of \$150,000 paid out of the city treasury, has been lost and there is no way of accounting for it. More than 30 tons of other material in the water department has disappeared entirely.
