EXPORT FLOUR LOW

Wheat Market.

ADVANCE EXPECTED SOON

Continued Strong California De mand for Wheat Is Reported. New Crop Business With Orient Said to Have Been Done.

The California demand is the only feare now of the wheat market. The Southmillers seem willing to pay the high are taking the grain but only for apet but slan for deferred shipment. There are still inquiries from the Orient for whist for prompt shipment, but the buyers on the ther side are complaining of the high rices. There has also been considerable ental fequiry for new crop wheat, and i said some business of this character has en worked, but the details are lacking. In the Oriental flour trade operations are mited. The Japanese have lately secured everal additional parcels, but it is hard to interest them at current quotations. If they are in need of flour they cannot expect to buy at chapper prices during the present season. On the other hand, there is good reason to believe that expect flour quotations will be raised before long. With Patient will be raised before tong the flour working on flour made from chasper wheat and they are willing to sell this to the Japanese at the current rate, but when the limited supply is exhausted the Orientals will probably find it necessary to come up in their ideas. The same conditions would prevail in the patent flour trade if the millers were not liberally stocked with patents.

Local receipts in cars were reported by the Merchante' Exchange as follows:

When the same of the mills are still Hops, Wood and Hides.

HOPS—1912 crop, 124,816 per pound; 1911 contracts, 129 He per pound; 1911 contracts, 129 He per pound, WOOL—Eastern Oregon, 10615c, Valley, WOOL—Eastern Oregon, cent wheat there is nothing in \$4.85 flour for the millers. Some of the mills are still

Moisture Not Sufficient for Eastern Crop.

CHICAGO MARKET RALLIES

Close Is Nervous at Prices Unchanged to Quarter Up-Increase in Amount on Passage. Indian Crop Good.

CHICAGO, May 26.—Wheat railied today, when it was shown that rains in the dry districts were too light. The market closed nervous at prices ranging from unchanged to he up. Corn made a net gain of higher to 1% c. cats finished unchanged to he digher and provisions dearer by 5871% to 35c. General rains had a bearish effect on wheat at the opening. Besides there was a good increase in the amount on ocean passage and crop reports from India were decidedly favorable. Trading was active. The fact that much of Kansas received only scattered showers and that North Dakots sent dry weather complaints led to a raily.

Export clearances of wheat and flour were large, being equal to 1,044,000 bushels. Primary receipts of wheat amounted to 627,000 bushels; a year ago, 588,000 bushels. Wet weather delay to planting induced lively purchasing of corn and tightened the screws on May shorts.

Storm interference with May delivery of onts more than offset crop benefit by the rains.

Provisions went higher all around, chief-

onts more than offset crop benefit by the rains.

Provisions went higher all around, chief24 by wing to hog supplies being lighter than expected. Packers assisted the upturn.

The leading futures ranged as follows:
