## LEPROSY DECLARED TO BE INCREASING

Dr. Blue Urges Federal Supervision to Prevent Further Spread of Disease.

CHILDREN SHOW DEFECTS

School Medical Inspector Says Eye Strain, Bad Teeth, Flat Chests and Mentral Retardation Are Commonly Encountered.

MINNEAPOLIS. June 10.-Leprosy is steadily increasing in the United States, according to Dr. Rupert Blue, Surgeon-General of the United States Public Health Service. Dr. Blue's address before the American Medical Association today told of the continued propagation and spread of the disease. The doctor discussed the present state and Federal laws relative to the disease, and urged the advisability of Government supervision. Measures for the control of the disease and the care of those afflicted were absolutely accounted. ere absolutely necessary, declared Dr.

Medical inspection in the schools has nevealed many defects in the older chil-dren, declared Dr. Walter S. Cornell, of Philadelphia, The following are some of the defects shown, according to Dr.

Frequency of eye strain, carlous teeth, poor nutrition, flat chest and mental retardation among children.

Textbooks Declared Deficient. Present textbooks do not emphasize the results of eye strain, nasal obstruction, poor heredity, the causes of squint, myopia, defective hearing, discharging ears, diphtheria, scarlet fe-

rer, nervous disorders, feeble-mindedness and decay of teeth.

Future general medical practice
should include the subjects just mentioned and consider home hygiene,
school hygiene and personal hygiene
(ventilation, house cleanliness, sleep,
exercise, sex hygiene, diet, tobacco and exercise, sex hygiene, diet, tobacco and

exercise, sex hygiene, diet, tobacco and alcohol).

4. Remedy: The socialization of medicine and inclusion of eye, nose and throat into the field of general practice; also our positive recorded approval of the retention of the family physician as general consultant in health matters.

Blame Put on Doctors.

Charges that the medical profession is to blame for poor results against tuberculosis caused an argument in the section on preventive medicine and public health at the convention this affection.

section on preventive medicine and public health at the convention this afternoon.

Dr. Mary E. Lapham, of Highland, N. C., said people were dying, not from tuberculosis, but from blunders, mistakes and ignorance, and that the medical profession was indifferent to the education which the public needs.

"Tuberculosis is a problem which demands education," said Dr. Lapham. "The people must be taught not to be afraid to go to a doctor, but to be afraid not to. Too many physicians make no early diagnosis. They wait for physical signs which would indicate to any fool that the patient had tuberculosis. The problem demands the raising of the standard of the medical profession. Tuberculosis is not all caused by transmission. It is a universal infection."

Dr. S. Adolphus Knopf, of New York

Dr. S. Adolphus Knopf, of New York City, defended the medical profession and said he did not like Dr. Lapham's pessimistic view.

with paims of hands and rub gently until dry, when it seems part of the skin.

No need to spend money at the hair-dresser's if you use canthrox shampoo, which is simple, effective and inexpensive. You only need dissolve a teaspoonful of canthrox in a cup of hot water and use in the usual way. It creates an abundant thick, cleansing lather which exhibitantes the scalp and, after a thorough rinsing, the hair dries quickly and evenly, the scalp is clean and pliant, while the roots are stimulated to healthy action, which results in rich, glossy, soft, fluffy hair, easy to care for and a joy to its possessor.—Adv.
