LADY SACKVILLE IN TEARS ON STAND

Dramatic Scene Marks Trial of Suit Over Millions of Dead Baronet.

MIMICRY BRINGS LAUGHTER :

Rich Gifts Detailed, but Woman Declares Friendship Was Purely Platonic and Was Based on Mutual Love of Art.

LONDON, July 3.—London society was well represented today in the Probate, Divorce and Admiralty Court when Lady Sackville resumed her tes-timony in support of her claim to \$5,000,000 of the estate of the late John

Murray Scott, Bart, which the Baronet left her in his will.

There were dramatic scenes to re-ward the fashionable company that thronged the courtroom. Lady Sackwille was questioned particularly about a letter she wrote a friend, in which she had said Scott was making a new will, "leaving everything he had dan-gled before my weary eyes for 10 years away from us

away from us."

She wept bitterly and openly at this. Then her mood suddenly changed to violent rage and she declared it was a most monstrous thing for a so-called friend to give this letter up. She pointed out that further on in the letter she had written, "I am very sorry to lose his friendship, as friends are rare." It was some time before the witness could compose herself. At other times she kept the court in roars of laughter, as when she described Walter Scott's actions in making love to her and in actions in making love to her and in her mimicking of the persons she men. tioned in the course of her evidence.

Love of Art Declared Mutual. She insisted that Scott had left his money for Knole Park and not for her and that the great link between Scott and herself was their knowledge of

She sald these included furs for her daughter which cost \$15,000 and an emerald bracelet for herself which cost \$25,000. bracelet for herself which cost \$25,000. She said she and her family were referred to by the Scotts as "The Locusts," although to her face they were charming. She said Scott threatened to revoke his will on the slightest provocation. Once when she could not lunch with him he said: "Very well, I will go and change my will." Afterward, however, he said: "You little ras.cal, you knew I never would do that." Another extract from Lady Sackville's letter to her friend said: "Vive la Liberte; so there it is, my dear. I never expected he would carry out his fine promises."

When questioned in regard to her income of \$30,000 a year, the witness said it was not enormous for the life she led. Her father, she said, at one time had \$75,000 a year.

Later in her evidence she said that Scott in leaving his money to her did the same for her as Lady Wallace did for him when she had grandchildren "Do you suggest that Lady Wallace left legitimate descendants?" asked Mr. Smith.

Lady Sackville replied:

Eastern Washington and Idaho Report Conditions Never Better and Barley Also Will Add to Farmers' Prosperity.

Wheat crop prospects in the North west have made a great improvement in the past three weeks. Grain men Oregon, Washington and Idaho at from 65,000,000 to 70,000,000 bushels. CORN PRODUCTION GROWING In Eastern Washington the indications are for a yield of 10 to 15 per cent greater than last year, while Idaho will show probably the same gain. It is believed the Oregon yield will be virtually the same as in 1912. Last year the three states produced about 63,000,000 bushels of wheat.

In Umatilla County the outlook is fine and a 5,000,000-bushel yield is expected. Morrow and Gilliam counties have somewhat less acreage than a year ago, but promise a better average yield per acre. These are the only counties showing a probable deficiency, which will be offset by gains elsewhere in the state.
