

PLAINS COMPLETE FOR GARAGE

Great Saving Is Anticipated in Purchase and Storage of All Supplies.

HORSE-SHOER TO BE HIRED

Cars Will Be Kept in Good Condition, Adding to Length of Life, and May Be Standardized for Economical Reasons.

That the new municipal garage, repair plant and shops to be established in the Brown building at East Water and East Madison streets will bring about a greater saving of money and time for the city than any other of the numerous economic plans being put into effect by the City Commission is the assertion of City Commissioner Daily.

On the lower floor will be an automobile garage for the housing of all the city automobiles, trucks and motorcycles and a plant for their repair and maintenance.

Care Will Be Given Cars. A great saving in the cost of repair on machines will be brought about, it is said. A system will be adopted whereby each machine will be checked daily on a card index system.

At present the city pays all the way from \$5 to \$18 a month for the storage of each car. In time it is proposed to standardize the cars, so that one line of supplies can be purchased in large amounts.

Force Will Be Installed. A portable force for the shoeing of all the city's horses will be operated on all the city's horses, just when each should be shod and just when repairs to fire apparatus should be made.

OLD CITY SUT SERVED

WAKEFIELD CLAIMS COMPROMISED FOR \$135,000. When Commissioners Meet to Arrange for Appeal Plaintiffs Make Acceptable Offer.

On the eve of the consummation of an appeal of the case of Robert Wakefield against the city, involving a claim of \$148,000 for extras in the construction of the Mount Taber reservoirs 5 and 6, the City Commission yesterday agreed on a settlement of the case.

The city admitted owing the Wakefield interests \$115,000 for extras on the reservoirs, but refused to pay the balance in installments, which had been adjudicated by the Supreme Court. The city has money enough in the treasury fund and other funds to pay the claim.
