

# WILSON BACK, BUT SILENT ON MEXICO

### President Unwilling to Offer Any Commot Until After Conference.

### TRIP SOUTH ENJOYABLE

### Diversion Offered by Culpeper, Va. Where One Lone Citizen, Who Always Meets Trains, Is Only Man to Turn Out.

WASHINGTON, Oct. 28.—President Wilson returned to the capital tonight at 10:30 o'clock from Mobile, Ala., and motored immediately to the White House. He had nothing to say about Mexico.

On account of the many phases of the situation that had arisen in his absence, the President was unwilling to say what would be the next step by the United States until he had conferred with other Administration officials. When he was asked if the United States would announce a new course of action to bring peace in Mexico or allow the previous repudiation of last Sunday's election to stand as his fixed policy, he said: "I am not discussing Mexico at present with anybody or commenting on the situation there."

### Trip Wearisome to Heads.

The President told his friends that he rarely had enjoyed a trip so much as he did his journey to and from Mobile. He received such a spontaneous welcome everywhere en route that he had a pair of weary hands tonight, which had been pressed by thousands during the day as his train sped through North Carolina and Virginia. Once the President got off, stretched his legs and mounted the engine to see Engineer Hunter, who proudly exhibited his locomotive, with a gilded American eagle on the headlight. "Climb down backwards," admonished Engineer Hunter, "I hate to back out of anything," laughed the President, as he descended.

### Village Crowds Turn Out.

The President had given orders not to have the train make any unnecessary stops, but it ran slowly through scores of villages, where big crowds cheered as they caught a glimpse of the President. There was one exception to the rule. The President requested a stop at Culpeper, Va., the home of Dr. Cary T. Grayson, U. S. N., the President's physician and constant companion. Dr. Grayson said a through train had not stopped there in five years.

### Faithful "Conney" Meets Train.

"Do you know anyone in the crowd?" asked the President, solemnly. "Oh, yes," replied the doctor, somewhat crestfallen, "that's Conney, the burglar—but he meets all trains anyhow."

He insisted there surely would have been a crowd if it was known the train would stop. At Charlottesville, Va., a big crowd of University of Virginia students gave the President a college salute, and invited him to attend their football game next Saturday. At Evinston, Va., the President gave the feminine contingent at the station a basket of flowers. The woman to whom he gave them was so delighted that she danced for joy. Governor Craig of North Carolina, and his staff paid their respects at Charlotte, N. C.

### BARRETT DENIES REPORT Not Even Slightest Foundation Exist for Rumor of Engagement.

OREGONIAN NEWS BUREAU, Washington, Oct. 28.—The Washington Times today telegraphed John Barrett, who is in Alabama asking him to affirm the rumor that he engaged to marry Mrs. Thomas F. Walsh. The Times published the following reply from Mr. Barrett:

"If any publicity has been given to the rumor about which you inquire, please, in justice to a most estimable lady, say that there is not even the slightest foundation for such a report and I cannot imagine how it started. I am too busy even to think of matrimony."

### AMERICA EXPECTED TO ACT

Initiative is certain, and the situation presented makes it imperative that this Government submit a plan. The United States requested the powers to await a proposal, several days ago, and since that time the note has been in preparation. Huerta Must Be Eliminated. There is much speculation as to what is to be proposed, but it is declared to be certain that whatever the plan is it will demand the elimination of Huerta and the government which arose after the revolt against Madero, and provide for constitutional election in Mexico which can be recognized by the United States.

With Great Britain, Germany and France joining the United States in a demand for Huerta's resignation, and the holding of a free and fair election, it has been asserted confidentially by officials high in authority here that Huerta would yield and that a new government would be established without intervention. This would necessitate a cessation of all hostilities and co-operation on the part of Mexican revolutionists. An evidence of the sincerity of France in the proposed co-operative Mexican policy came today in a request by that government that the United States send a warship to protect her citizens in San Ignacio, Sinaloa, on the Pacific Coast of Mexico. The State Department tonight was making plans to accede to it.

# MEXICO CHUCKLES AT DIAZ IN FLIGHT

### General Finds Haven on Flagship Louisiana, Declaring Life Is in Danger.

### FUGITIVE MUCH RELIEVED

### Predicament Especially Awkward Since There Is No Quarter of Republic in Which He Considers Himself Safe.

VERA CRUZ, Oct. 28.—General Felix Diaz, much agitated and declaring his life was in danger, took refuge in the United States Consulate last night, entering by a rear door after a flight over the housetops from his hotel. Consul Canada advised him to board a Navy launch, which he did, and went on board the Wheeling. Later he was transferred by order of Rear-Admiral Fletcher to the flagship, the Louisiana.

Mexico, it was represented by her authorities here, is chuckling over the incident. Diaz is resting contentedly aboard the Louisiana and Admiral Fletcher is wondering just what disposition Washington will make of him to make of his self-invited guest. This was the not situation at the close of General Diaz' first day as a refugee. Ashore the arrest of two or three persons of lesser importance served to sustain interest.

### German Consulate Also Asylum.

It was not generally known that the German Consulate has become an asylum for a fugitive. Alcolca, a brother-in-law of Diaz, alarmed for his own safety, sought refuge with Consul Goertz. The Mexican authorities apparently are ignorant of his presence here.

### Witness Says Land Sales Did Not Pay Office Expenses, Yet Promoter Always Found Way.

LOS ANGELES, Oct. 28.—Many incidents connected with the rise and fall of the defunct Panama Development Company were told today in the Federal Court, where Dr. John Grant Lyman, promoter of Panama lands, was on trial on a charge of having made fraudulent use of the mails in connection with the sales made through the concern.

John Redpath, formerly vice-president of the concern, testified concerning the last days of the company just before Lyman was arrested in San Francisco and his offices here were raided by Government authorities. Lyman told him before he went to San Francisco, Redpath testified, that the Panama Development Company had sold 50,000 acres of land in Panama.

"After Lyman reached San Francisco," said Redpath, "I tried to get him to return. I wrote him that the investors were becoming dissatisfied. He answered that he would not return for two reasons—one was that he could not leave his hotel without paying his bill and that he was unable to pay it. The other reason was that he was trying to negotiate a loan."

Later he wrote me that he had prospects of borrowing \$5000 and that if he succeeded he would send \$2000 here to be used for current expenses. "Before he went to San Francisco the land sales were dwindling. They did not even pay office expenses. At the same time, Lyman frequently obtained large sums of money, but he did not explain how he turned over to me \$1200, another time \$2700 and a third time \$4000. We used the money for running expenses."

### SENATOR SAYS PRESENT TARIFF CANNOT LAST.

### Increase of Imports, Says Senator, Will Throw Tens of Thousands Out of Employment.

TAUNTON, Mass., Oct. 28.—National politics was injected into the state campaign tonight by Senator Gummins of Iowa. Speaking here in behalf of Representative Gardner, Republican candidate for governor, Senator Gummins attacked the Democratic tariff bill and declared that the rank and file of the Republican party would come into its own at the next National election, "on the basis of Republican strength in the several states and not upon the absurd, indefensible plan now in force."

### COURT REFUSES JUDGMENT TO SHOWGIRL WHO QUIT.

### Kitty Gordon's Manager Must Pay Mary Ambrose Back Salary, but Not Transportation.

SAN FRANCISCO, Oct. 28.—(Special.)—Mary Ambrose never again will speak lines in the "Enchantress" company to Kitty Gordon, who quit the \$50,000 back. Neither will Manager Gaites, of the company, have to pay Miss Ambrose's fare back to New York or accept her service again in the part of Princess Diana. The troubles of the songbird, who, until she had a final quarrel with Miss Gordon, on September 14, was a feature of the show at the Cort Theater here, were all settled today by Justice of the Peace Barnett in his judgment in Miss Ambrose's suit to collect \$32 salary and \$250 railroad fare back to Broadway from Manager Gaites.

### Dr. Wilson declared that President Taft waited until the last minute, when he hoped there would be no time for reconsideration of the repeal of the Webb liquor bill, and said that his administration went down to defeat before an avalanche of indignation, such as never been duplicated in the United States.
