Foot" into a big horn of wood. Sam Barton, who looks like an animated snook, looks in rags and tatters, and carelessly onto the stage and proceeds to make merry with a bicycle which has a surprising habit of falling apart. Sam keeps the audience hanging onto its seat with fun at his ludicrous pantomime.

From Fritz Scheff to a simian comedy act is a far cry, but this week's bill promises both. And the monkeys set the house in an uproar with their lively scrimmages. Three big fellows have a bowling match and a dozen littler ones strew wreckage all over the stage.

Tudor Cameron, as a "boob" who is a newly hired stagehand, and Johnny O'Connor, as a regular actor, mix on the stage and indulge in repartee. Cameron's entrance chasing a cake of slippery soap over the floor makes a riot. He is "hired" to go into an "act," and does it, with dancing additions that get over in great shape.

Armstrong and Ford as an American "copy" who jokers at an English Johnny, who misses their points or misconstrues them, have a fun-making offering.

Opening the bill are the two Tabors, athletic and artistic club manipulators, in an unusually bright and attractive tossing and twisting of prismatic-hued clubs.

CLASS B HEADS CONFER

RULES OF LEAGUE TO BE PUT IN "APPLE PIE" ORDER.

Home Team to Be Charged With Passes at Rate of Regular Tickets—Two Deals for Players Announced.

SEATTLE, Wash., March 2.—(Special.)—Directors of the Northwestern Baseball League held a protracted special meeting here last night. Adjournment was taken until the week after the close of the western season, when action will be taken on changes in bylaws.

President Fielder Jones presided. All clubs were represented except Portland. Bylaws and constitution were discussed.

Some of the club owners thought it would be a good idea to pick up the various resolutions scattered through the minutes relating to the constitution and bylaws and put them in apple-pie order. President Jones was empowered to employ an attorney to do the work.

In the past the settlement in the box office on passes issued has been on a basis of their value to the number of tickets sold. A resolution was adopted doing away with the old plan and substituting one whereby the home team is charged with every pass the same price as if it were a regular ticket.

The only deal in players was that in which resident Wattleat, of Victoria, purchased from President Parr, of Spokane, the release of Outfielder Dashedbach, last year with Missoula, in the Union Association, and before that a member of the Connecticut League. No price was given out.

Joe McGinnity, president of Tacoma, announced the sale of Second Base to Keller to Montreal. The amount involved is secret.

CHARGES TO BE PROBED

GOVERNOR LISTER TO INVESTIGATE COMMISSIONER SPINNING.

Official Complaint From Rochester City. License Not Received Yet—Executive Favors Prohibition.

TACOMA, Wash., March 2.—(Special.) Charges were made by Rochester, Wash., residents, through the East Rochester Improvement Club, that Public Service Commissioner Spinning, of Sumner, has been guilty of collusion in an alleged real estate scheme, will be investigated by Governor Lister, who was in Tacoma today.

The Rochester club accuses Commissioner Spinning of collusion with L. Hunter, a Rochester merchant, and others in an alleged attempt to obtain abandonment of the present Northern Pacific depot at Rochester and creation of a new union depot at the junction of the Northern Pacific and Milwaukee railroads.

Governor Lister evidently is watching with keen interest the scramble among Democrats of the state for the nomination of their party for United States Senator and Congressional Representative. He had nothing to say as to the various candidates today, but asked many questions concerning the political situation here and elsewhere.

On only one matter verging on politics did the Governor state his views, and that was in favor of prohibition, although he would take no band in the matter.

"In going to the polls in November," he said, "and vote just as my conscience says, and if anyone else will do the same, as they all ought to, we will have the right opinion of what the majority of the state wants. It is not a party issue, but a moral and economic issue."

"WHITE HAT" MCCARTY SAYS AKOZ QUICKLY RID HIM OF AILMENTS

Owner of Famous Racers Tries Mineral With Great Success

"White Hat" McCarty, who claims to have owned famous racers and runners in any other man in the world, is busy telling his friends around the court of the Palace Hotel, San Francisco, where he has been almost a fixture since the early days of the old Palace, is showing the praises of Akoz, the new radio-active medicinal mineral discovered by John D. Mackenzie, because of the prompt relief it gave him in treating rheumatism, neuralgia and stiff neck.

When "White Hat" isn't telling about having owned C. H. Todd, the winner of the American derby in 1887; Sorrento, who finished second in the same classic in 1888; and Dexter Prince, for whom he refused \$50,000, he is talking about the marvelous work done by Akoz.

"Akoz is surely the goods," said he, "it cured me of rheumatism, neuralgia and a stiff neck. The matter with me I am sure Akoz would have cured that. My neuralgia was so bad that I was nearly wild and could hardly speak. Akoz took all the pain out in a day. Rheumatism in my foot was also knocked out in a hurry. A stiff neck responded over night to an application of the Akoz compound. I believe Akoz will cure almost anything."
