# DRY PETITION STILL LACKS 5000 NAMES

Woman's Temperance Union and Prohibition Party Urge Supporters to Action.

### ONLY THREE DAYS ARE LEFT

Interest in Stopping Importation of Liquor Is Lax, While Movement to Permit Breweries to Run Declared to Be Gaining.

With three days remaining in which to circulate petitions, the Prohibition-ists lack still 5000 names of having sufficient to put on the ballot their proposed measure to prevent shipment

of any liquor into the state.

This was the announcement made by E. A. Baker, of the Anti-Saloon League, and J. Sanger Fox, secretary of the Oregon Prohibition State Committee, at a mass meeting called at the Library yesterday to stir up interest in a rapid circulation of petitions in Multnomah

County to make up the names that are still lacking.
Sixty-seven persons attended the mass meeting, which was called under the joint auspices of the Women's Christian Temperance Union and the Prohibition party. Prohibition party.
Mr. Fox had 100 blank petitions

Mr. Fox had to the man passed among those present, urging that they take them and pledge to get them filled within the next two days. These petitions filled would represent 2000 of the desired 5000 names.

Some Decline to Take Petition. About 40 petitions out of the 100 were taken, but a large number of those in the audience declined to take

them.
Several men pledged themselves, however, to visit the car barns this morning with petitions and to endeavor to secure as many signatures as possible from the street railway employes. Mr. Fox sals that the 5000 deficit represented the count on petitions up to Saturday night, and expressed the opinion that enough names to put the measure on the ballot may yet be received from other cities in the state outside of Pertland.

Multipopal County has furnished

outside of Portland.

Multnomah County has furnished only 3500 of the names out of the 17,000 that have been secured, according to Mr. Fox.

"The brewers shave at this moment more than 30,000 signatures on their petition which would permit the manufacture and sale in original packages of a per cent beers, within the state of Oregon," said Mr. Baker, "while the Prohibitionists are 5000 names short, in round numbers.

"It means that you people have gone to sleep. We have yet July 3, 4 and 5

to sleep. We have yet July 3, 4 and 5 in which to get those signatures, and it is up to us to wake up and get them if we expect to get onto the ballot."

"There is a good prospect of the brewers' measure carrying," said J. C. Newell, chairman of the Prohibition party. "It is surprising how many good men of the state men of the best character, are supporting it. I verily helieve that if it were put to a vote today, without further argument, it would pass. It is up to us to get the neople of Oregon awakened and fighting if we hope to offset it."

Other speakers were G. N. Taylor and Mrs. Jennie Kemp, state president of the Women's Christian Temperance Union. Mrs. M. L. T. Hidden presided over the meeting.

A petition proposes that the large ferryboats make an hourly service, charging 50 cents for automobile and driver or team and driver, and 10 cents for additional passengers, and not to exceed \$1 for any one load.

It is understood that by operating the hourly service, between the hours of 7 A. M. and 7 P. M. that only two men would be needed, thus saving the expense of operating the service now maintained by the launches or sailboats.

Willamette Rise Passes Forecaster's Estimate.

Drop Is Reported on Upper Columbia and Snake-Effect Here May Not Be Felt Before Lapse of Several Days.

The Willamette River at Portland continued its steady rise yesterday, reaching 23.6 feet at 6 o'clock last night, according to the standard Government gauge at Morrison-street This is by far the bighest stage reached by the river this year. The rise recorded during the 24hour period ending at 6 o'clock last night was approximately .3 foot. The rise yesterday was somewhat less than that recorded on Saturday, when the water came up .5 foot in the 24-hour period.

District Foreenster Beals had fixed 23.5 as the height the river would reach at Portland by Monday. However, the rain of Saturday and yesterday is said to have had considerable influence in making the rise greater than was es-timated.

Information given out from the loca Weather Bureau office last night was that from all indications the flood had almost reached its crest, and there is little likelihood of any considerable further rise in the height at Portland.

Reports coming from the Snake River, the Upper Columbia and the Upper Willamette were that the water had begun to go down. It may be several days before this drop is felt to any considerable extent in Portland, however, and it will be some time before conditions are normal along the
waterfront, Flooded basements in the
downtown district will probably require some time to drain.
Following were the river readings yesterday:

# Divide a Dime by Ten-

A QRS Autograph Player Roll will last ten years. They cost on the average about ten cents more than ordinary rolls.

Divide the ten years the QRS Autograph Roll lasts by the ten cents more you pay for it. That's a cent a year!

Is it worth this penny a year to own rolls that infallibly reproduce the actual hand playing of the pianist - to be certain of invariably beautiful arrangements - to be sure of proper tracking and perfect, inspected rolls?

Come in and compare a few QRS Autograph Rolls with other kinds. You'll be under no obligations.
