Mr. Grout said different cities were arranging special trains to come to the convention. Thomas E. Finegan, City Superintendent of the Kansas City schools, is expected to bring to the convention seven or eight full cars of educators, and I. I. Cammack, treasurer of the National Education Association and deputy commissioner of education of the state of New York, has promised 100 people from New York. As only 25 New Yorkers attended the Oakland convention, it can be seen what the size of Eastern delegations to the Portland convention will be.
