Steel Range, originally \$40.00, at \$14.50  
Steel Range, originally \$37.50, at \$19.50

## EACH DAY MEATLESS

Local Man on Vegetarian Diet Thirty Years.

### WILLIAM GALVANI THRIVES

Robust Physical Condition of Grizzly Cited as Result of Leaving Flesh Foods Entirely Off the Menu.

How would it seem to sit down to the New Year's dinner, the Christmas meal, or even the Thanksgiving spread and eat not a single dab of meat? Ask William H. Galvani. He knows. "Nix" on the toothsome turkey, the tasty capon, the succulent goose or the roasted duck. He eats none of these, nor has he for 30 years. Instead, his diet is made up of grains, nuts, roots and berries. Look at the big, strong, grizzly bear, he says, and note his rugged health. How powerful he is, and yet he eats no meat. He lives on roots, nuts, grains and berries. Then Mr. Galvani slaps his own chest and avers that the diet of the grizzly makes a man strong and rugged, too, and that in this respect the grizzly is worthy of imitation. Here is about what Mr. Galvani ate yesterday, and this is a sample of a holiday menu: Breakfast—Oranges, baked apple, oatmeal, with cream or butter or fruit syrup. Toast, tea, coffee or cocoa. Dinner—Grapefruit, cream of potato soup, omelet with fine herbs. Lima beans, baked sweet potatoes, mushrooms on toast, artichokes, celery, lettuce with oil and lemon dressing, pineapple ice. Plum pudding, without suet, or mince pie without meat. Fermented or unfermented juice of the grape, in accordance with local conditions; black coffee. Tea—Whole wheat blaguit, French bread. Italian chestnuts baked in cream, fruit cake. Apple sauce, preserved pineapple, honey, fresh and dried fruits, tea, hot lemonade or cocoa. "Of course," said Mr. Galvani, "this is to give an idea of what can be done in such matters, and I am no expert at arrangements of this kind. No Limit to Variety. "The average housewife is fully informed in these mysteries and there is no end to the wonderful things she might many 'a fading life provide' to use an emic expression. "I could give you a vegetarian menu for every day in the year, including extras for special occasions, and with a variety in eatables and drinkables to satisfy epicures whose senses of sight, smell and taste are not hankering for the fleshpots." Mr. Galvani has been a strict vegetarian for 30 years and even at this time of the year, when most everyone thinks a dinner incomplete without turkey or other dainties of the holiday time, he adheres to a non-meat diet. During most of the last 30 years Mr. Galvani was connected with railway engineering work in the Northwest. In fact, he joined the engineering staffs of the big railroads when their present lines were scarcely in existence, and that meant plenty of hard work, camping and tramping in the mountains, sagebrush and sand drifts, and enduring toil and fatigue with the sturdiest of the flesh eaters. Cook Co-operates Cheerfully. "All I had to do," he said, "was to initiate the cook in the mysteries of a meatless diet and I had no further trouble, excepting occasionally when supplies were short. But even then my difficulties were not hard to bear, for where there is a will there is a way. Then, too, the greater part of the human race is vegetarian anyway, though not all of it is such from choice. The result, however, is the same. Except those who turn to such a diet as a last resort, when all else has failed to prop up their shattered frames, vegetarians are generally in the best health, free from many diseases contracted from the use of flesh of diseased animals, and enjoy the choicest things of the world for their eatables and drinkables." And when it comes to Hoovering, Mr. Galvani's programme is ahead of all others.

## CHARIVARI NOT LIKED

Attorney G. H. Durham, 73, Would Have Marriage Kept Quiet.

### OREGON CITY, Or., Jan. 1.—(Special.)

"I live in one of those counties where the boys still charivari," said Attorney George H. Durham, aged 73, of Grants Pass, as he applied for a marriage license before County Clerk Harrington Monday. "Consequently I desire nothing said about it in the papers." Mr. Durham, many years ago was District Attorney for the Fifth Judicial District, of which Clackamas County was formerly a part. For many years he has been practicing in Grants Pass. He was granted a license to wed Mrs. Gertrude K. Maxmeyer, of Milwaukee, whose age was given as 45.

## CURB ON EXPLOSIVES

Law Relating to Use of War Requirements Explained.

### PERMITS MUST BE GAINED

Issue of Powder Required in Various Industrial Pursuits Permitted, but Care Must Be Taken Against Misuse.

In order that the public may be fully informed as to the provisions and requirements of the new Federal act regulating the manufacture, storage and use of explosives, the following statement has been prepared by E. C. Byford, commissioner of explosives for this district: "To assist in the work made necessary by an act of Congress entitled 'An act to prohibit the manufacture, distribution, storage, use and possession in time of war of explosives, providing regulations for the safe manufacture, distribution, storage, use and possession of the same and for other purposes,' which law became effective November 15, 1917, the Bureau of Explosives was drafted by the Bureau of Mines for the purpose, appointing the Bureau Inspectors United States Explosive Commissioners. The primary purpose of this act is to prevent the wrongful use or possession of explosives. Following are some of the requirements of the act: 1. No person shall have in his possession, or purchase, accept, receive, sell or dispose of or procure explosives or ingredients, except as provided in the act. 2. The superintendent, foreman or other duly authorized employe at a mine, quarry or other work, when licensed, may sell or issue to any workman under him such amount of explosives or ingredients as may be required by that workman in the performance of his duties, and it is legal for the workman to accept and use the explosives thereby issued, but such superintendent, must see that any amount of explosives or ingredients not used in the performance of such work is returned, and that no explosives or ingredients are taken by the workman to any point not necessary to the carrying on of his duties. Section 9 of the act provides for the keeping of an itemized and accurate record showing to whom explosives are sold, given or bartered, or to whom or how otherwise disposed of, the quality and kind of explosives, the date of sale, gift, barter or other disposition, and this record shall be sworn to and furnished to the director of the bureau of mines whenever requested. Section 10 of the law requires that every user of explosives must have a license, and this is designated either as a purchaser's, vendor's or foreman's license. A purchaser's license is necessary for the purchase of explosives and for the possession of the same and in connection with the work of construction and railroad employes, so it is necessary that every precautionary measure be taken to prevent explosives being stolen or being used for improper purposes. "Information as to applications for licenses should be requested of the nearest licensing officer. The Bureau of Mines has appointed a large number of County Clerks as licensing officers and in the event of there being no appointee named in any district the assistant to the Director, Bureau of Mines, Department of the Interior, Washington, D. C., should be communicated with. As in the past the Bureau of Explosives Commissioners will continue to inspect explosive factories, storage-houses and look after the transportation of same in accordance with the Interstate Commerce Commission regulations."

## FARM DATA ARE SOUGHT

State Labor Commissioner Would Obtain Agricultural Statistics.

### SALEM, Or., Jan. 1.—(Special.)

State Labor Commissioner Hoff has inaugurated the campaign for obtaining exact data on farm help and crop conditions for 1918 throughout the state, by sending out letters to all Granges and Farmers' Unions in Oregon outlining the plan to be adopted. He also designated the first week in February as the period for concentrated effort to get information from the farmers to be sent to the Labor Department for compilation. The information is to be obtained through "County Councils" composed of delegates from the Granges, Farmers' Unions and other agricultural and civic bodies with the County Agricultural Agents working as ex-officio heads. STREET CLEANING IS LIMIT North Bend Police Chief, Disgusted, Throws Up Job. MARSHFIELD, Or., Jan. 1.—The position of Chief of Police in the city of North Bend is no sinecure, since that officer's duties include cleaning the streets, a job hardly in keeping with the dignity of the office. Chief of Police Peter Anderson, after a year's service, took that stand and submitted a request for a raise of \$10 per month and accompanied the demand by his resignation if the increase were not granted. Chief Anderson had been receiving \$90 per month, which, he said, in war time was not sufficient. The City Council rejected his request for more pay and accepted his resignation.

## CONSTIPATION IS A PENALTY OF AGE

Nothing is so essential to health in advancing age as freedom and normal activity of the bowels. It makes one feel younger and fresher, and forestalls colds, piles, fevers, and other dependent ills. Cathartics and purgatives are violent and drastic in action and should be avoided. A mild, effective laxative, recommended by physicians and thousands who have used it, is far preferable. This is the combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin. It costs only fifty cents a bottle; a trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Illinois.

## Mud Slide Blocks Traffic.

LEWISTON, Idaho, Jan. 1.—(Special.)—The heavy rains the past week caused a mud slide on the Clearwater branch of the Camas Prairie last Saturday, blocking traffic until just before the regular Sunday passenger reached the point of the trouble. The mud was more than five feet deep on the railroad, extending for a distance of about 100 feet, at a point three miles above Myrtle.

**MORRIS BROTHERS, INC.**  
Established 25 Years.  
Railway Exchange Building,  
Portland, Oregon.

**OREGON MUNICIPAL BONDS**  
YIELDING FROM 5% TO 6%.

**For Use in France or Belgium**  
We Issue  
NEW FIVE-FRANC NOTES OF THE BANK OF FRANCE

\$1 PER NOTE  
An excellent method of sending small remittances to friends overseas.

**The Canadian Bank of Commerce.**  
PORTLAND BRANCH, CORNER FOURTH AND STARK STREETS  
F. C. MALPAS, Manager.

**The Cuban-American Sugar Company**  
First Lien 6 Per Cent Serial Gold Notes  
Authorized \$6,000,000. To Be Presently Issued, \$6,000,000  
Due Serially, \$2,000,000 January 1, 1919 to 1921, Inclusive.  
Dated January 1, 1918. Interest Payable Semi-Annually, January 1 and July 1.  
Principal and Interest Payable in United States Gold Coin. Redeemable as a Whole or in Blocks of Not Less Than \$500,000 at 101 and Accrued Interest. Coupon Notes in Denomination of \$1000 May Be Registered as to Principal Only.  
From information submitted by the company we select the following points as demonstrating the unusual strength of this issue:  
The value of the property upon which these notes will have a first lien, through collateral, is estimated by the company's officials to be over three times the amount of the note issue.  
Properties embrace about 469,000 acres of land, six modern sugar factories and plantations, two sugar refineries, 384 miles of railway, 52 locomotives, 2695 cars, over 600 miles of telephone lines and 2500 buildings.  
Fair value of cane lands alone, exclusive of factories and buildings, stated to be 50% greater than face value of notes.  
The company will agree not to permit any prior liens to be created and at all times to maintain net current assets equal to at least 150% of the outstanding notes of this issue. Net current assets September 30, 1917, nearly \$12,000,000.  
Net income for the year ending September 30, 1917, after reserving \$2,500,000 for income and excess profits taxes, over twenty times interest charges on this issue.  
Company states that properties have been so improved and organized that it will be able to make substantial profits at normal prices for sugar.  
The equity behind these notes, as evidenced by the present market prices of its preferred and common stocks, is valued at over \$20,000,000.  
The company will agree to pay the 2% normal Federal income tax now deductible at the source and to assume any further amount thereof, which may hereafter be deductible at the source, up to a total of 4%.  
A large portion of this issue has been privately sold. Subject to prior sale we offer the balance when, as and if issued and received by us at the following prices:  
One Year Notes, 99.17 and Interest, to Yield 6 7/8%  
Two " " 97.93 " " " " 7 1/2%  
Three " " 96.35 " " " " 7 3/8%  
In payment for these notes at the above prices we will accept the Cuban-American ten-year 6% collateral trust bonds due April 1, 1918, at 100 1/2 and interest accruing to date of payment upon new notes. Permanent notes will, it is expected, be ready for delivery within two weeks.  
Complete Circular May Be Had Upon Request.
