PRINTING FEUD GOES ON

HOPE ABANDONED FOR AGREEMENT ON WAGES AND HOURS.

Secretary Davis Declares His Action Because of Lack of Organization of Employers.

WASHINGTON, D. C., April 29.—Hope for a settlement by national agreement of disputes between printing trade unions and employers over wages and hours was abandoned today by Secretary Davis after a series of conferences.

Union representatives left the city without having been requested to return. Lack of an organization of printing employers authorized to sign any national agreement was given by Secretary Davis as his reason for abandoning his attempt to replace the local agreements which expire May 1.

Settlement of disputes is now in the hands of the various employers and local unions, the secretary said. Some of them have been settled by agreement on the part of the employers to recognize a 44-hour week, which is the main part at issue in most cases.

INDIANAPOLIS, Ind., April 29.—Officials of the International Typographical union declared today that the membership of the organization would stand firmly for the 44-hour work week in all book and job offices throughout the country, starting May 1.

SALISBURY, Or., April 29.—(Special.)—Eaton Typographical union by vote of 35 to 4, tonight went on record favoring the levying of an assessment upon its members to support the 44-hour week.

NEW YORK, April 29.—Thirty-six newspaper publishers from various parts of the United States organized the Association of Open-Shop Publishers of America here today to "establish the principle of the open shop and maintain the freedom of the press."

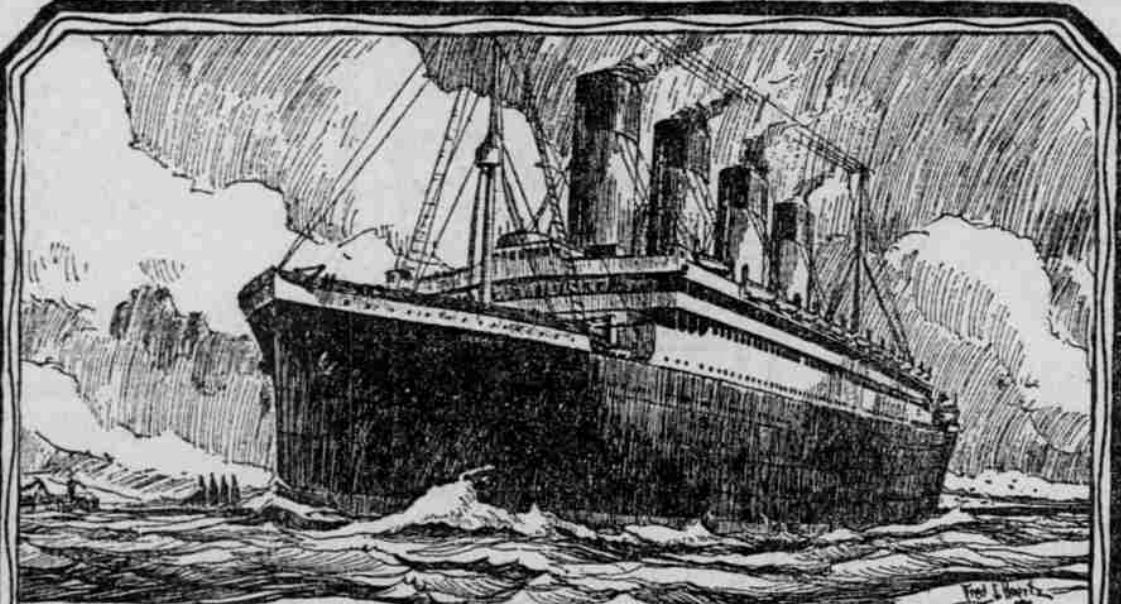

WAGE CONFERENCE FAILS

(Continued From First Page.)

It was called for May 1, as scheduled, it was announced here tonight. It was stated that all trans-Pacific mail steamers would be operated in spite of the strike, although steamship officials said that it probably would be necessary for the federal authorities to call upon the United States naval reserve, under the national emergency act.

In the coastwise service, practically all of the lines will tie up their steamers until the strike is settled, according to announcements made by prominent operators engaged in the coastwise trade. A. J. Frey, president of the Los Angeles Steamship company, declared that sailings of their vessels, Yale and Harvard, between here and Los Angeles, would not be interrupted by the strike.

How's your "follow through?"

By F. H. Crosby, President

In sports it's the "follow through" that distinguishes the good player from the bad. So in business.

You must keep in constant touch with your trade and your salesmen. One order is not enough. A brilliant "send-off" for the salesmen will not answer. Today, when merchants are buying frequently and in small lots, you *must* follow through.

Keep in touch with your trade by long distance 'phone. Encourage them to 'phone in orders, to ask for quotations by telephone.

Be sure to ask for "Northwestern Long Distance" when placing calls. Our lines are independently owned and operated. We handle long distance calls only. We're equipped to give you *Quick Service*.

From any phone, just ask for "Northwestern."
