AN INVESTMENT THAT IS SAFE AND

PROFITABLE WITH MANY ADVANTAGES.
We are an Oregon-owned and man-
aged manufacturer. The business has
been established for about 15 years,
being a modern-equipped factory,
with three-acre site at Kenton. It is
the third largest plant of its kind in
the United States. It is well or-
ganized and managed. It has a large
and well-established permanent trade.
Its future prospects even look brighter
than its past. Has ample capital for
present requirements. We want to
sell \$50,000 worth of its preferred
stock with guaranteed interest of
7 1/2%, payable January and July of
each year, with the privilege of
making it possible to earn 9%. Its
assets more than three times this
preferred stock. It has earned ex-
ceptionally good profits every year
since the factory was started. This
additional capital to be used to take
care of additional new business that
looks very profitable. Approved by
the state corporation commission.
Very best of local bank references.
Can satisfy the most critical investor.
If you want an A-1 investment, we
want to sell you about three years and
longer, come to our plant at Kenton
and look it over, or phone Woodlawn
371, and John S. Beall, chairman,
will call and see you. Would sell a
limited amount of common stock.

ONLY DOORMAT STOLEN

Thief Reads Sign of Welcome and
Accepts Invitation.
It was just an old, worn doormat,
and across the top was the printed
legend: "Welcome." The doormat was
of W. T. Slater, ex-associate justice
of the supreme court, at 150 Miramar
place in Astoria. The doormat was
stolen from Slater's home, and the
mat. He read the motto "Wel-
come," and forthwith proceeded to
accept the invitation. He huddled the
doormat up in his arms and dis-
appeared.

IN A REPORT OF THE HOUSE BURGLARY

to police headquarters yesterday, Mr.
Slater said that the doormat was the
only thing missing, in spite of the
fact that the burglar had "jimmied"
open a downstairs window. The in-
truder made good his escape.

trouble is that such thieves usually
run them into the ditch somewhere
causing much damage. During the
last two weeks more than 25 machines
have been stolen and smashed.

We congratulate the newspaper men
particularly on the great victory already
won for the general principle of publi-
city, and we point out that this great
principle can become vital and effective
solely through the positive and abundant
freedom of the press.

We urge the newspaper men upon whom
this responsibility devolves to use all
honorable means to keep the channels
of communication between the
people whom they represent and the
conference. We assure them of the fullest
public support to this end.

After a search of the house had

FRANCIS J. LATORA
Overseas Veteran Gassed and Totally Disabled.
Restored by
DR. GEORGE S. BREITLING'S
CHIROPRACTIC ADJUSTMENTS

Francis J. Latora, whose picture appears above, has been saved
from a life of pain, misery and helplessness to the sunshine of health
and happiness through the ministrations of Dr. Geo. S. Breitling,
the well-known Spinalogist, with offices 609-614 Broadway building.
Mr. Latora answered his country's call during the world war
and, being a skilled chef, directed the work of 40 cooks who fed daily
thousands of officers and men at the Lemora artillery school in
France.
While on board the transport Susquehanna in Nazaire Harbor,
France, a carboy of ammonia exploded. Mr. Latora was over-
come by the fumes of the gas and fell down the hatchway, suffering
the most severe injuries, wrenching his spine and pelvis and par-
alyzing his right side and right leg. On May 21st, 1920, unable to
walk, talk or dress himself, he was brought to my office, assisted by
his brother and sister. After one week's adjustments Mr. Latora
was able to come to the office unassisted and has made rapid pro-
gress towards complete recovery.
In my practice I use no vibrators, electricity or any other device,
just my hands guided by a thorough knowledge of my profession.
This is only one of many hundreds of almost hopeless people who
are now able to enjoy life through adjustments made by hands sci-
entifically and gently applied.

SO WEAK SO NERVOUS
How Miserable This Woman Was
Until She Took Lydia E. Pink-

Toombsboro, Ga.—"I suffered ter-
ribly with backache and headache all
the time, was so
weak and nervous
I didn't know
what to do, and
could not do my
work. My trouble
was deficient and
irregular periods.
I read in the

cided to give it a

use these facts as a
testimony."—Mrs. C. F. Phillips,
Toombsboro, Ga.
Weak, nervous women make un-
happy homes, their condition irritates
both husband and children. It has
been said that nine-tenths of the
nervous prostration, nervous de-
pendency, "the blues," irritability
and backache arise from some dis-
placement or derangement of a wo-
man's system. Mrs. Phillips' letter
proves that no other remedy is so suc-
cessful as Lydia E. Pinkham's Veget-
able Compound.
