

THREE IN TEN DAYS

A SCHOOL CLERK'S SUICIDE NEAR PENDLETON.

He was Being Arrested for Embezzling \$50 of the Funds of the School District.

PENDLETON, Or., Jan. 5.—Reports were brought to town this afternoon that W. O. Warren, living six miles from Pendleton, shot himself with officers arresting him for embezzlement. Warren was the clerk of the school district at Warren station, and was shot 50. He had been sued to recover the money, and then criminal action was instituted. The shooting on his own books left no hope for acquittal. He was a wheat-buyer, a wealthy farmer, and was a delegate to the last state republican convention. This is the third suicide here in the last 19 days.

Edwin L. Mims, deputy of internal revenue under Collector Blackman, assaulted William Ainslie in the Hotel Pendleton here. Ainslie was entering the bar-room. As he came from behind a screen, Mims struck him in the face with a heavy cane, and after a severe beating, left his victim bleeding. Ainslie was going to the Idaho legislature at Boise from Bonner's Ferry. Ainslie, two years ago, was prosecuting attorney in Idaho when Mims was arrested for election frauds. He was not warned in the present instance that he was to be attacked, and did not know Mims was in town. He lives here, and says he beat Ainslie to get even. Ainslie did not have time to retaliate, on account of the train leaving soon after. He will cause the arrest later.

COUNTERFEITER CAUGHT.

William, Alias "Doc" Davenport, Arrested at Lebanon.

LEBANON, Jan. 5.—Last night Deputy United States Marshal George Humphrey, assisted by Joseph Smith and D. D. Shaw, arrested at Lebanon, the counterfeiter, alias "Doc" Davenport, at his residence, eight miles from here, on the charge of counterfeiting \$1 silver coins. The prisoner has served a term in the Oregon penitentiary for the same offense. Several plaster-of-paris moulds were found on the premises, and considerable money of his manufacture is now in the possession of the officers. He will be taken to Portland for examination and to await the action of the United States grand jury. N. R. Harris, of the secret-service division of the treasury department at San Francisco, laid the plans that led to the capture of the defendant, and secured the evidence which is regarded as sufficient to convict him.

(Several weeks ago N. R. Harris, of the United States secret service, came to Portland and consulted with United States Marshal Grady and United States District Attorney Murphy concerning a band of counterfeiters, who were manufacturing both gold and silver at Lebanon and shipping them all over the Union. Ten-dollar pieces were made out of solid silver and then plated with gold. This gave the coin a perfect ring and made it difficult of detection. It is reported that some of the banks here in Portland were caught. There are four men in the gang, and when Harris had fully worked up the case, Deputy United States Marshal George H. Humphrey was dispatched to Lebanon. This was on last Thursday. Marshal Humphrey was armed with alias warrants for John Doe and Richard Roe, as the names of the counterfeiters were not known. Friday Humphrey succeeded in making the arrests, and yesterday morning sent a telegram to Assistant United States Attorney Schnabel, conveying the intelligence of his success, and requesting Mr. Schnabel to come at once to Lebanon, as the men taken into custody had demanded an immediate examination on the spot. While there is no United States commissioner at Lebanon, it would have been possible for the accused to have a preliminary hearing there. Where there is no commissioner, a justice of the peace may act as ex-officio United States commissioner. The four men arrested, however, changed their minds as to an examination at Lebanon, and a little time after the receipt of the telegram Mr. Schnabel received word that the men had agreed to come to Portland and have their hearing before United States Commissioner J. A. Sladen, who issued the warrants, and yesterday morning Humphrey will arrive with his prisoners. The names of "Doc" Davenport's confederates have not yet been ascertained. United States Marshal Grady materially assisted Mr. Harris in working up the case.)

ROBERTY AT ELLENSBURG.

The Safe of the Good Templars Hows Open and Ripped.

ELLENSBURG, Wash., Jan. 5.—The most daring robbery since the Roslyn affair took place here last night between 7:30 and 8:30 o'clock. The office of Henry McDonald, secretary of the Good Templars for this state, was entered. The safe blown open and \$25 taken. It was all lodge-money but \$20. He returned to his office at 9:30 and found the safe open and ripped. The combination having been blown off. The suspicion is that nitro-glycerine was pumped into the safe and exploded. The doctor of S. W. Barnes' office, adjoining McDonald's, here "jimmied" marks, but an entrance was not effected. The officers at once went to work on the case, but no clue thus far has been found.

A BIG SNOW SLIDE

OREGON EXPRESS NO. 15 HAS BEEN CANCELLED.

Throughout California Heavy Rains Have Fallen and Much Damage Has Been Done by High Water.

SISONS, Cal., Jan. 5.—Today's north-bound Oregon express, No. 15, has been cancelled on this division on account of a big snow slide near the eighteenth crossing, seven miles south of Sisons. The rotary snowplow is hemmed in between this place and Dunsmuir. One hundred and fifteen sheep were sent to the scene of the slide from here this afternoon. Today's southbound train is reported 10 hours late out of Ashland. It has commenced to snow heavily again this evening.

RAILROAD PROPERTY DAMAGED.

Tracks Washed Out in Many Places by Swollen Streams.

WOODLAND, Cal., Jan. 5.—The storm, that commenced on account of a big snow slide near the eighteenth crossing, seven miles south of Sisons. The rotary snowplow is hemmed in between this place and Dunsmuir. One hundred and fifteen sheep were sent to the scene of the slide from here this afternoon. Today's southbound train is reported 10 hours late out of Ashland. It has commenced to snow heavily again this evening.

WHERE FLOODS ARE FEARED.

There is Danger of an Overflow in the City of Stockton.

STOCKTON, Cal., Jan. 5.—The rain of the past two days has again created fear of a possible flood. There is a break of considerable extent in the embankment of Mormon channel, near the Bellota road, and the water is coming down through Linden into the city. Thus far the channels have been able to take care of it, though the water is 8 to 10 inches higher than at the last high water. The streets on Lindsay point are flooded and a foot more will flood the lower side of Levee street. The water reported falling at Linden, but is still coming down the channel through the city. Mormon channel is at the top of its banks, and the water is expected to go over them tonight. Some cellars are already flooded. It will take three feet or more for the water to reach the streets in the business portion. All of the additions to the city are flooded.

Orchards Flooded.

OAKLAND, Cal., Jan. 5.—The banks of the San Lorenzo creek broke yesterday night about a mile north of Hayward. Vast quantities of water were turned into the orchards. The water laid the roots of thousands of trees, and the overflow carried away numerous fences and bridges. Near San Lorenzo it carried away a portion of the railroad track. The road from San Lorenzo to Moraga, Eden has been under water for 24 hours. All travel west of San Lorenzo was stopped last night, and land was not in sight for half a mile in some places.

Lowlands Submerged.

HEALDSBURG, Cal., Jan. 5.—The recent storm was one of the worst this place has ever experienced. The creeks are almost full, and the lowlands are submerged. Several houses and cows were seen floating down the creek, and fences and haystacks were being carried away. In some instances houses were surrounded and the families imprisoned. The electric light and power-house and the gas works were both under water for 24 hours. The Kaweah river broke over its banks this morning about 5 o'clock, and spread two miles to the north. Serious apprehension was felt for the city for awhile, but the levee on the river held, and the water did not come into Visalia. Since 9 A. M. it has been falling, and no danger is now anticipated.

In San Diego, Too.

SAN DIEGO, Cal., Jan. 5.—Eighty-two hundredths of an inch of rain fell in the 24 hours ending at 5 P. M. today, bringing the total for the season to date to 3.08 inches. It is still raining, and the local forecast is favorable for its continuance another day.

Damage Repaired.

SAN RAFAEL, Cal., Jan. 5.—The damage by rains to the San Francisco and North Pacific coast road has been repaired, and trains are running.

Three Feet of Snow at the Dalles.

THE DALLES, Or., Jan. 5.—A severe snow storm has beset this section for the past two days, and over three feet of snow was on the ground yesterday. The storm has been more severe than any since the winter of 1891-2. The country roads are blocked. More snow fell in a shorter period of time than in any previous time within the memory of the oldest inhabitants. Ice is running freely in the river, but there is no imminent danger of a blockade. The steamer Regulator was compelled to tie up 12 miles below here, on account of the ice. The lumber rafts, however, the steamer reached here yesterday morning, and expects to make several more trips. All the trains were blocked, and railroad traffic was suspended. The passenger trains laid here the greater part of yesterday, and the hotels were crowded with passengers.

Delayed Railroad Work.

ABERDEEN, Wash., Jan. 5.—The snow has practically disappeared from the lower harbor, but the northern portion of the country reports two feet of snow on the level. The work of building on the railroad on the north side of the Chehalis river has been sadly interfered with, and the date when the road will be ready for operation is put back at least a week. The train for ballasting will arrive Monday morning, and the weather permitting, the road will be finished by January 20.

Rising Waters.

OREGON CITY, Jan. 5.—The river is 20 feet above low water. It has been falling tonight, and above the falls it marks 11.5 feet. The water is still rising, though not so rapidly as yesterday. The locks were closed to navigation today noon. Pudding river reported as being at flood stage, while the Molalla has but little more than began to rise, which would indicate that water has begun to come from the mountain region. Rain has fallen intermittently all day, and the clouds still seem well supplied with moisture.

Defaulted Interest.

LINCOLN, Neb., Jan. 5.—Defaulting payment of \$12,000 interest caused the appointment of F. A. Little as receiver of the Lincoln Street Railway Company today.

ON MORAL GROUNDS

JUDGE BUCHWALTER REFUSES TO DELIVER OVER HAMPTON.

He Was Afraid the Colored Preacher Would Be Lynched if Sent Back to Kentucky.

CINCINNATI, Jan. 5.—Judge Buchwalter today delivered an opinion in the case of the extradition of Rev. Hampton, colored, demanded by Kentucky for wounding Mr. Dunham. When Hampton was first brought before the court, the court refused to deliver him, unless he had assurance from the governor of Kentucky and the judge of the trial court that Hampton would be protected from violence and be given a fair trial. The court said no such assurance had been received. He found both the indictment and the requisition defective in form, but under the broader ground of securing the rights of prisoners, the court held that he was justified in refusing to surrender Hampton. The prosecution offered to waive the requisition defective in form, but the court would not be rebuffed by proof of any kind. The court cited statistics of ten lynchings in Kentucky within a comparatively short time, and recalled the fact that one of the victims had been surrendered by this court. The court felt the obligation to perform a moral duty in this case, which could not be enforced by mandamus or other proceeding. He was willing to remand the prisoner upon proper indorsements and requisition, if the governor or other authority had provided for force to protect him from violence and insure an impartial trial. He had not been done, and the court felt bound to discharge the prisoner. So much interest was taken in the case, that other judges left their benches to listen to the delivery of the court's decision.

IT WAS IGNORED.

The Charge Made Against Governor Hughes, of Arizona.

PHOENIX, Ariz., Jan. 5.—The federal grand jury investigation of Governor Hughes, charged by two federal officials here with unlawfully retaining interpreters or translators' fees, came to an end today. The charge was ignored, and, as well, another brought under the same section of the United States statute against his late private secretary, John Armstrong, now of the St. Louis Globe-Democrat, by whom it was alleged the interpreters' fees had been turned over to the governor. The prosecution originally charged embezzlement against the governor under the various statutes, but finally receded from this to the charge of violating the statute named. The attempt to indict Armstrong was because, without his indictment, there could be no indictment of the governor, against whom he had been brought here to testify, but whose testimony refuted every allegation made against the governor.

FRESNO'S SHERIFF ARRESTED.

He Is Charged With Allowing Prisoners to Escape.

LOS ANGELES, Cal., Jan. 5.—Sheriff Jay Scott, of Fresno county, walked into United States Marshal Covarrubia's office this morning, about 10 o'clock, and, after a pleasant good morning, said: "Have you a bench warrant for me?" Upon being answered in the affirmative he was placed under arrest. Bail was soon given in the sum of \$500. The indictment charges Scott with having allowed Basil Muldren and Martin Cooney to escape September 3, last. They had been convicted June 15, last, of contempt in the United States circuit court before Judge Ross. In an interview Scott said that he could disprove the charge and show that the administration of the county's affairs had been conscientious.

Last Seen in Canada.

BOSTON, Jan. 5.—A warrant has been issued for the arrest of Harry B. Spalding for the alleged embezzlement of \$15,000 from the funds of Walker, Blodgett & Co. Spalding, who was formerly the confidential bookkeeper of this firm, and had been 29 years in their employ, made his disappearance from Boston in September last. At the time it was believed that the man was an embezzler, but later developments convinced the firm that this was the fact. Spalding always spent money lavishly. Since the police began to work on the case they have learned that Spalding went to Montreal, but there all trace of him was lost.

PROPOSED YACHT RACE.

Comments of the Leading English Authority Upon the Possibility.

LONDON, Jan. 5.—The Field will publish a long leader on the negotiations for the cup race. After commenting on Fuest and Stream's trenchant and logical assault upon the deed of gift, the writer says: "We on this side, like Forest and Stream, concur that the conditions now agreed upon of the prospective race are fair and liberal. Then why on earth do the possible members of the New York club agree to attach these conditions to the cup. They already have altered the deed twice. If they had the right to do that they can alter it twice again. It is true that the obtained permission from the surviving donor, but he had no right whatever to deal with the cup or the conditions. Neither had the New York club. They were made trustees, and not owners, which appears to have been entirely overlooked. Lord Dunraven hopes that the new club will make a definite avowal whether or not the present interpretation of the mutual-agreement clause is legally correct. The general meeting of the Royal Yacht Squadron will be held at noon January 7, while the New Yorkers are in bed. Therefore, there will be no chance of communication with the New York club during the meeting on the subject of interpretation. Hence it is possible that the New York club merely will express an opinion and appoint a committee to confer with the New York club, as in 1888. This, unfortunately, may prevent a race next autumn."

ON THE RACETRACK.

Bay District Course in Poor Condition for Racing.

THE MUSCULAR SYSTEM

of every year, thin or this blooded person does its work with constant difficulty and fatigue. They feel "worn," or tired out, "run-down," or nervous.

People who are dyspeptic find that exercise after a meal is sure to cause lessened power to digest food—because there is so little blood, and what there is, is carried off from the gastric organs to the muscles.

What is needed is plenty of blood, and that of the right kind. Dr. Pierce's Golden Medical Discovery gives pure, rich blood, and to gain in blood is nearly always to gain in wholesome flesh up to the healthy standard.

Every one should have a certain surplus of flesh to meet the emergencies of sickness; to resist the attack of consumption, grip, malaria and fevers. Thin blooded people are always getting sick, and none of the organs of the body can get along without the food they require for work, which is pure blood. To gain and to keep strength and health is the secret of health, usefulness and happiness. With new blood, and refreshed nerves a confident feeling of returning health comes also.

Nervous manifestations, such as sleeplessness, nervous debility and nervous prostration are in nine cases out of ten "the cry of the starved nerves for food." If you feed the nerves on pure rich blood the nervous symptoms will cease. It is bad practice to put the nerves to sleep with so-called celery mixtures, coca compounds or malt extracts; what is needed is a blood maker. The "Discovery" is composed of vegetable ingredients which have an especial effect upon the stomach, liver and blood making glands. For the cure of dyspepsia, indigestion, liver complaint, weakened vitality, and for puny, pale people, Dr. Pierce's Golden Medical Discovery cannot be equaled. Thousands have testified to its merits.

Why waste time and money with doctors when I will send FREE the prescription for a new and positive remedy for a prompt and lasting cure for LOST MANHOOD AND IMPOTENCY. I will send a doctor and his assistant to obtain this wonderful formula while in Paris, France, from the most celebrated specialist in diseases of the genito-urinary organs the world ever knew. It made a new man of me, and it will do the same for you. For removing various ailments and strengthening the system, see WEAVER'S ORGAN, ITS EFFECT IS TRULY MARVELOUS. Such a wonderful change will be made in from 15 to 25 days by its use that you will be astonished. EVERY MAN suffering from NERVOUS DEBILITY, or any other trouble caused by YOUTHFUL ERRORS or excesses of any kind, should at once send for the prescription. Inc. 25 cents in stamps.
