Anticipatory Social Flutter Faintly Perceptible-Prospective Weddings-The Week,

mebody who evidently overlooked my limitations asked me the other day who | constituted smart society in Portland, and what entitled one to admission thereto, Plase pass the question on. If anybody has definite knowledge to impart on this perplexing and complex subject, let him onswer. I frankly and cheerfully confess my inability to do so, and 1 would not if I could. Such clever and distinguished people as Mr. Arnold White and Mr. Massingham, who have been criticising smart society, on account of its "natural inefficiency," are emphatically told by the ectator that they neither of them know what they are talking about, although the Spectator Itself, which is very good authority on some things, reluctantly admits that it is not able to define what smart society is. It is a sort of social nebular hypothesis, I imagine. There is a faintly perceptible flutter of anticipation, a promise in the air of galeties to be. So many things are due to happen immediately after Easter. The charity ball begins to loom large and important in the lessening distance, and the various committees are busy with preparations for what, it is expected, will be the grand culminating event of the season The reception at the Patton Home on Wednesday afternoon, from 2 to 5, was largely attended, and was, as it always a most happy and successful affair, with the rooms were tastefully decorated, and Or. the dear old ladles who find a refuge from the vicissitudes of life in this beautiful place enjoyed the occasion quite as much as any one. Mrs. Adolph Dekum, who is president of the Patton Home Association, received, together with Mrs. P. Knox, Mrs. W. O. Forbes, Mrs. Hester Cook and Mrs. W. S. Cutler. Mrs. C. H. Hamila and Mrs. L. M.
