NINE MEN DROPPED

Police Commissioners Cut Down the Force.

RETRENCHMENT WAS NECESSARY

Statement Issued Giving Reasons for Curtailing the Force-Those Who Were Let Out.

The Police Commissioners reduced the police force last evening by dismissing nine pairolimen, and the humane officer, and accepting the resignations of one clerk and the license officer. The dismissals are as follows: J. L. Wells, humane officer; Patrolimen Fred Mallet, W. O. Stitt, C. Venable, H. A. Parker, P. Murray, C. L. DuBois, M. Waller, J. M. Harkleroad, and E. W. Cole. These take effect on June 20. The resignations accepted to go in effect also on June 20, are those of J. Roberns, clerk, and B. C. Beach, Hospiso officer. All the Commissioners were present, excepting James E. Hunt, and the commission adjourned until Tuesday evening, July 2, when the until Tuesday evening, July 2, when the further reduction of the force may be considered, although it is stated that these are all the charges that will be made for the present. The cause of the action is found in the state of the police fund. At the present state of the force, with running expenses \$550 a month, the commission would have faced on January 1, 1901, a deficit of ut least \$13,500 for the

Statement of Commissioners.

The commission submit as an explana-tion of their action, and in justice to the men dismissed, the following official state-

"In making there reductions in the po-lice force, the Commissioners express their regret that circumscances should have demanded them. The officers relieved are, without exception, able, efficient and honorable men; there is no choice in this respect between those removed and those who remain; that some go and some stay is but the natural chance of the situa-tion. That situation is briefly as fol-

Economical Policy Followed.

"The expenses of the police force under the present commission have averaged floor \$5500 per month, as against upward of \$890 some few years back. There have been employed by the proving commission 49 patrolinen against 55 in 1898 61 in 1896, 86 in 1894, and 75 in 1892. The number of patrolmen which Portland should have to partonness which fortune smooth have to based the average, to proportion to popula-tion, which is common to at the cities of the Union is 100. The inclusived expenses of the department flive been reduced by the present commission from about \$800 per month to about \$350. The department was therefore keeping within the 15 mills. ons therefore keeping within the 1% mills allowed by the present charter, and giving the city as good service as it has ever had. Effect of Reduced Assessment.

'Mr. Greenfeat, the Assessor, however has seen fit to reduce the assessment about \$12,000,000, making a difference to the known of the police department of nearly \$20,000. To properly meet this cut, ne police department would have to be so adically reduced that, considering our rea of 25,500 acres, and our 100,000 population, it would simply be a farce, a by-word and a represent among our sister cities. It would leave our city with eight to ben officers on a shift to cover from the Cornell road to Mount Tabor, and from Sellwood to University Park, on both sides

Force Cut to Verge of Safety.

commissioners believe the sufet of life and property too serious to be triffied with, and would rather face the people with a deficit than to sacrifice the welfare and reputation of the city. They have, however, deerned the to cut to the very verge of safety, and that is the reason for the present reductions and the discourge of good and able offi-

The cut was generally expected among police officers, but it was generally antici-pated that the reduction would be more

WON BY MULTNOMAH.

Interesting Game of Cricket Yesterday-Vancouver Wants a Match.

A very interesting cricket match we played yesteriay afternoon between a picked team consisting of several good players of the "Lennox," Captain Ast-bury and Gibson, from Astoria, and the balance made up from the best players in Portland, against the picked II of the M. A. A. C. Some very good play was shown by Van Hoekeren with 20 runs and Dr. Ereaut for the combined team, while Bar-foot, Scott, Lewrence, Lumgair, Gliman and Pattubo busted in fine form for M. A. A. C. Lawrence, Lumgair and Barfoot got the wickets for Multnomah, Gliman helding when this way. ielding spiendidly and bagging three fine

combined team, Mackenzie, Ast-For the combined team, Mackenzie, Ast-bury, Van Heekeren, Erceint and Barr stared the wickets between them. Futch-er kept wickets very well for Multino-mah, only allowing two byes to pass. Dr. Ersaut did some smart work at "cov-er," and saved many runs. The fielding all round was above the average, few misses being made.

Following are the average.

Following are the scores;

Combined Elever-actiony bowled Lumgair... larr caught Gilman, bowled Lumgair... singley caught Barfoot, bowled Law-

Captain Lawrence, of the M. A. A. C., has just received a letter from H. Lock-wood, secretary of the Vancouver (R. C.) Cricket Club, stating that they wished trieset tum, stating that they wished to play an all-Oregon team in Portland either in July or August. Each team from British Columbia that has visited Oregon has been beaten, and it is intended that the "ashes" shall remain in Oregon this year. A special meeting will shortly be called to arrange best meens to get together the streether of Oregon. to get together the strength of Oregon to play against the Vancouver team, and fix dates, etc.

The last team from Vancouver arrived here in 1897, and played two matches. They were entertained while here with a ban-quet at the Hotel Portland to wind up with. The grounds were thrown open to the public free of charge, the Pirst Regi-ment band played, and the ladies poured ten Saturday afternoon. Altogether event was the most successful of its kind that ever took place in this city. A very Vancouver players, but there are a great

many more players here now than there were then, and a stronger team can be selected now. The prospects of another such event has caused quite a boom in cricket circles, and hard practice will be dulined in at once.

ASK EMPLOYERS' ASSISTANCE Colonel Everett Requests That Men Go to O. N. G. Encampment.

Colonel Everett, commanding the Third Regiment, Oregon National Guard, yes-terday issued orders for the Fourth of July parade and took occasion to mention the annual state encampment, which will be held at Salem July 7 to 15. He asks that employers of men in the regiment grant them vacations during this period,

as follows:
"It is earnestly requested that every
effort be made to insure the fullest possible attendance in camp, and in this connection the commandant earnestly appeals to merchants and employers gen-erally throughout the city to incilitate the accomplishment of the advantages to be gained by this encampment and

which are of such paramount import- rocks, domes, cascades, waterfalls and half an hour at the summit, in time to rama of the higher Sierra, visible from its lofty view points-the Liberty Cap and the Sentinel Dome-both of which I climbed on a recent trip.

John Muir has described the forests of the Yosquite region, but one needs not to be a forester or mountain lover to thuse over those noblest of the world's conifers, the yellow pine (pinus ponderosa) and the sugar pine (pinus lambertiana), which here attain their highest development in size, height and beauty; the silver fir (ables magnifica and ables grandis), and the cedar (libocedrus decurrens), their companions, and, greatest of all, the sequois gigantes, of the near-by "Company A will proceed from its home smition at Oregon City to Portland on the Fourth of July in time to report to the Adjutant at these headquarters by 7:45 o'clock P. M., armed and equipped in accordance with the requirements as set forth in paragraph 1 of this order.

"The exponse necessary for the trip will be arranged by the commanding orficer of Company A with the Fourth of July Committee of this city.

"The following-named officers having been commissioned by the Commanders." truth-seeker of subsequent ages.

"To Mazamar and their friends who have enjoyed the pleasures and, incl-dentally, the fatigues of the Rainier and Horseshoe Basin tripa, I would say that greater and more beautiful waterfalls than we found on those occasions are to be seen in an afternoon's stroil from the center of Yosemite Park; more unique and curious rock formation wall in the valley than we discovered on those excursions. Especially would I mention the 'Aomes' of granite, two of which I climbed and examined, and while could not fall to interest all mountain lovers, and I must particularize also those most beautiful views from the summits of Glacier Point, Sentinet Dome, Liberty Cap and Eagle Peak, with their panoramus of the valley and the high Sterra.

Should He Seen by All. " 'Tis true that we would miss the isolated individuality, the grandeur and solemn magnificence of the great snowcapped mountains of our Northwest-Rainler, Hood, St. Helens, Adams, Jefferson and Pitt, and here, in California, the chastely beautiful Shastu-but, as mountaineers and lovers of Nature, we all ought to see this wonder-piece, with Its myriad attractions of the great and small beauties and glories of natural scen-ery, all so gathered together that anyone. although not perhaps so rugged as the members of our climbing fraternity, can take them in without undue fatigue, while to those of us who seek the higher alti-tudes, there are the Sierras of the back

region, waiting for our investigating foot-steps, our cameras and our climbing ex-peditions, and which can be vicited, one after another, from the valley.

"This region, surrounding the Yesemite. but little known to the general public, is filled with most unique and strunge nat-ural wonders, craters, domes and canyons that rival the Yellowstone in everything but size; lakes of purest water, alive with gamiest front, and gems of valleys un-known to the world only by reason of the greater celebrity of the Yosemite. Be-Low-rate excursion to Bonneville, Sunday, June 28. Good music. Specialry programme. Refreshments on grounds, Take train Union depot \$20 A. M. Fitty cents round trip.

The following day, with a party of rine following day, with a party seried and Nevada Falls again to the Little Yosemite Valley, and from there climbed to the top of Liberty Cap, with an altitude of

The summit of Liberty Cap is in liself a most interesting geological study.
On the northeast side, going up, we
found large scales or shells which had
been broken off in the process of cooling from the original igneous condition.
Under one of these (at least six feet
thick) was a cavern in which a dozen
people could have stood, and this shell
was at least 50 feet across and of an irregular contour. In another place was a
piece of granite, of clam-shell shape, at piece of granite, of clam-shell shape, at least 25 feet across, and if placed concave side up, it would have held water enough for a small swimming bath. Disintegration of the cap of the down spit off several large boulders, and the surface was cracked. In places there were holes, about a foot deep, with grantice and bottoms and full of the finest drinking water. Even on this bleak and uninviting summit, a few mountain places had gained a foothold and were sturdly fighting for existence. Lower down from fighting for existence. Lower down from the summit of Liberty Cap the heather was in bloom, and many varieties of plant life gave promise of flowering later. From the top of Liberty Dome the view of the Little Yosemite was most complete and

Inspiration Point. "Not having seen the celebrated views from Artist's Point and Inspiration Point on our way into the valley, our party de-termined to enjoy them going out. We started at 9 o'clock the next morning, to photograph and view Bridal Vell Falls, and thence we went on to Artist's Point, for photographs there. Then we proceeded to Inspiration Point, where we enjoyed our lunch, while contemplating the valley from this most fittingly named outlook. Here we got good photos of the entire valley, with fine cloud effects in the distance, on Cloud's Rest, and, soon afterward, we took the states.

the distance, on Cloud's Rest, and, soon afterward, we took the stage on the way out to Wawona.

"The next day we spent at Wawona, where we visited the Mariposa big trees and I was fully convinced of their great size when I vainly attempted to focus, on a 5x7 plate, the Grizzly King, which is 250 feet high, and 195 feet in circumference—one of many poble trees, all of which -one of many noble trees, all of which impress one with their great size, anti-quity and majesty.

er form of life. May they not be styled the greatest and most interesting wonder of the world?"

After giving information concerning After giving information concerning who to take and wear and how to visit the region, Mr. Parsons concludes his interesting communication by suggesting a Maxama excursion to the Yosemite Valley this Summer, which shall take in Mount Shasta, on the way home to Portland. He advises that the trip to San Francisco en review to the contract of the contr Francisco, en route to the park, be made by water and the return by rail.

LAST OF THE SEASON. Musical Club's Closing Concert by Anna Miller Wood.

The programme for the fourth and last concert to be given this season by the Musical Club is one of much interest, embracing od Scotch, old French and old Italian songs, as well as those by modern composers. Among the latter, special interest will center in the songs by Arthur Foote, since Miss Anna Miler Wood, who gives the recital, is the solo contraits in the Boston church of which Mr. Foote is organist, and hence has Mr. Foote is organist, and hence has been coached in them by the composer himself. Miss Wood calls her voice a "mezzo-contrato." Before she made Bos-ton her home she halled from San Francisco. Only once has she been in Port-land. That was several years ago, at which time she sang at one of the Kling-enburg-Coursen concerts. Following is the programme in full for Thursday events.

Thursday evening: ...14th century Wiegenised Strauss
C'est Mon Ami" Marie Antoinette
Bergerette" Old French air
En Reve" Chritieu
Embarquez Vous" Godard Persian Song
O Swallow Flying South",
