ANOTHER GRAIN CARRIER

BRITISH SHIP LEYLAND BROTHERS EN ROUTE FROM PEUCO.

She Sailed August 3 and Is the 59th Wheat Vessel Now Headed for Portland.

Word was received yesterday that the British ship Leyland Brothers, Guthrie master, has been ordered here from Peuco to load Fall wheat. She sailed from that port August 3, and is the 58th in the list of grain vessels now headed for Portland. The tonnage of this fleet now aggregates 98,800 more than twice that of the ships sailing for Puget Sound.

It is not known whether or not the Leyland Brothers is yet under charter. She is an iron ship, built in 1886, at South-ampton, by Oswaid, Mordaunt & Co., for the Sailing Ship Leyland Bros. Company, Lid. Her dimensions are: Lenth, 284 feet; breedth, 40 feet; depth, 24.2 feet. The Leyland Company is reported to have re-cently entered a big oceanic community of interest scheme in which J. P. Morgan is a prominent figure. This is not the first Portland voyage of their vessel, as she loaded flour here for the Portland air. ring Mills about 18 months ago, Peuce, the port of departure, is a small cheat-shipping village on Talcahuano say, in the extreme southern part of hile. These waters are better known as

PILOT BOAT RUN DOWN.

Concepcion Bay.

Three Pilots and the Cook of James Gordon Bennett No. 7 Drowned. NEW YORK, Aug. 17.-The German steamer Alene, now running in the Atlas branch of the Hamburg-American line. ran down and sank the pilot-boat James Gordon Bennett, No. 7, this afternoon, and drowned three pilots and the cook of the Bennett. The names of those who

lost their lives are: Pilot Henry Mix, of Stapleton, S. L. Pilor John Godber, of Brooklyn, Pilot John Leonard, of Brooklyn, Cook John Crube, of Stapleton, S. I.

The hodies of Mix and Godber were re-covered. The accident occurred near the lightship while the pilot-boat was lying hove to on Sandy Hook Bar, about 10 miles east of Sandy Hook. When the Alene struck the pilot-boat the weather was clear. The survivors say the Ger-man steamer came bearing down upon their vessel and they were totally unable to avoid her. The whole thing happened so quickly and unexpectedly that they were floating in the water before they realized what had happened. The big steamer struck the other abaft the rigging on the starboard side, going through like knife, and cutting her completely in

LAUNCHING OF C. B. SPENCER. New River Towboat Successfully

Given to the Waves. new and very stanch river tow-C. R. Spencer was successfully started in the marine world from Pac-et's yard on Saturday afternoon. The ch went off smoothly and easily, without a hitch of any kind to mar the proceedings. It was a conspicuous as well as auspicious event, and nearly all those Interested were there to see, from vet-eren river men and builders to the least of the "kids."

of the "kids."

The new craft is both graceful and strongly built, her lines and machinery giving promise of greet power and pienty of speed. Her construction and modeling were much admired by the crowd that waited patiently for the final blocks to be knocked away. This was done at last, the boal started, and then smoked down the ways, plowing well into the river before lycought up by the anchor. Meanwhile her flag was raised and congratuations exchanged on the complete success of the day's work. of the day's work.

eer will be put in commissi as possible, and will soon ge to work at general towing on the lower

FROM CHICAGO TO NEW YORK. Novel Cruise of the Steam Sch Yacht Rapidan.

Cormick, of Chicago, has arrived here on Havre, Aug. 17.—Arrived—La Norman-board his yacht Rapidan, after a month's die, from New York, Sailed—L'Aquitaine, cruise through the Great Lakes, the St.
Lawrence River and the Atlantic Ocean.
Yachting men say that the cruise of the Rapidan is the first voyage by the Lake route which has ever been made by a private Chicago-built yacht.

Mr. McCormick left Chicago with his

private Chicago-built yacht.

Mr. McCormick left Chicago with his family July 8 for Buffalo, by way of Lakes Michigan, Huron and Erle. At Buffalo Mr. McCormick visited the Panamerican Exposition. Then, proceeding by way of the Erle Canal and Lake Ontario, the party spent countile. Houseline Salled Aug. 14.—Ship Louisians, for Melbourne. by way of the Eric Canal and Lake Ontario, the party spent considerable time among the Thousand Islanda. The yacht reached the Atlantic Ocean by the St. Lawrence River and Canadian canals. Leaving the mouth of the St. Lawrence, the Rapidan made good time along the Atlantic seaboard to Boston, and through Long Island Sound to this city.

The Rapidan is a screw schopper, racht.

The Rapidan is a screw schopper, racht. The Rapidan is a screw schooner-racht

and was launched in 1863, as the Catherine C. The name was changed to the Rapi-

SUICIDES AT SEA. Two Scamen Leaped Overboard and

Were Browned. PORT TOWNSEND, Aug. 17.-Schooner PORT TOWNSEND, Aug. II.—Schooner E. K. Wood arrived today, 48 days from Halphong, China. Captain Hansen reports that on his way from Puget Sound to the Orient two of his men jumped overhoard and were lost. Wood salled from here March 8, and when outside of Flattery and just before the rug let loose. Seaman John Wells leaped overboard and was drowned. On the night of April 2, Frank Hodges, who was at the wheel, gave an unearthly yell which started the watch on deck and awoke the entire crew, leaped overboard, and, before the wessel could put about, he sank beneath the waves. The loss of two men made the waves. The loss of two men made the vessel short handed and during the balance of the voyage Captain Hansen gove orders to keep close lookout on the rest of his crew, as he did not want to lose any more of them,

OLD-TIMERS RENEMBER HER. The Bark Sussex Came to Astoria

About 25 Years Ago. ASTORIA, Aug. 17.—The British bark Sussex, which arrived in yesterday from Hong Kong, is well remembered by old residents of Astoria. Twenty-five years ago she was here, and anchored in the stream opposite the city for some time. She was then considered one of the largest and finest salling vessels affoat, and was visited by a great many people. One evening a grand ball was given on board of her that was attended by all the prom-inent residents of the city, and the affair was considered the principal social feat.

FAILED TO FIND ABRUZZI. Unsuccessful Return of the Norse

Relief Expedition. CHRISTIANIA, Aug. 17 .- The expedition commanded by Stockken, the father of the missing Norwegian machinist of that name, sent in search of young Stock-ken and other lost members of the Abruzel expedition, arrived at Sandefjord this morning, after having explored the south coast of Franzjosefland. No trace of the missing men was found. The members of the expedition erected at Cape Flora the memorial stone sent by the Duke of

To Study American Canals. WASHINGTON, Aug. 17.—Seven members of a subcommittee of the French 57%.

Chamber of Deputies are in this city. They have come to this country for the purpose of studying the canals of the United States in the interest of the Maritime Canal des Deux Mers, the construction of which from the Atlantic Ocean to the Mediterranean via the Valley of the Garonne is contemplated by the French Government. The members of the sub-committee are M. Gerville Reache, Depute de la Guadeloupe; M. Honore Leygue, Depute de la Haute-Garonne; M. Armez, Depute des Cotes-Du-Nord; M. Lemnigne, Depute de la Manches; M. Michael, Depute des Bouches du Rhone; M. Emile Cere, Depute du Jara, and M. Saumando, Depute de la Dordone.

New Atlantic Steamer Line. LONDON, Aug. 17.-Although little is known in Ireland with regard to the proosed new line of steamers to America, the project is regarded in that country as of the utmost importance. In addition to giving employment to an army of men on the works at Berehaven, the Irish people say it is quite within the bounds of probability that the comple-tion of these works will lead to important railway developments. Certainly a harbor at Berehaven would be of no use to the Atlantic liners without an express rallway service to Dublin or some other port on the east coast of Ireland from where passengers could make their way

Knight Commander Sinks Barge. LONDON, Aug. 17.-The British steame Knight Commander, which sailed from here for Baltimore, collided off Dover with and sank the barge Norman Little. The the law and a fear among the criminal crew of the barge were saved.

PORT TOWNSEND, Aug. 17.—United States Fish Commission steamship Albatross, Captain J. F. Moser, arrived at Diamond Point Quarantine Station from Sitks this morning with one case of small. pox on board. While cruising in Alaska waters, one of the crew of the Albatross was stricken with the disease and was put ashore near Sitka in an improvised pesthouse and the vessel fumigated, but later one of her firemen was taken down and the vessel salled South for Diamond Point, where she will be detained until all germs of the disease have been eradicated.

Record Passage to Nagasaki.

Oriental advices state that the French bark Nantes, Captain Ricordet, which arrived at Nagasaki on June 23, from Cardiff, made a record trip of 105 days from port to port. Her performance attracted considerable attention over there and translations of here log were published in some of the Oriental papers. The Nantes is a ship of 2029 tons and is listed to come here from the Orient and load Fall grain. She is consigned to Taylor, Young

Will Save Freighter Evelyn. NEW YORK, Aug. II.-A. H. Bull & Co., New York agents of the stranded steamer Evelyn, bave received advices from their agents at Pensacola saying that the steamer will be got off without much difficulty. Both vessel and cargo are fully insured. The Evelyn, which is a freighter, sailed from New York August 5 for Pensacola, and was the first steamer of the new line between New

PARDON

GOVERNOR HUNT TELLS WHY HE VOTED FOR IT.

Not Right to Punish Only One of Many Rioters-Politics Played No Part.

BOISE, Idaho, Aug. 17.-Governor Hunt today gave out the following as his reasons for voting for the pardon of Paul Corcoran

This is the first case acted upon by the Board of Pardons where its decision has not been unanimous. That the board failed to reach a united decision in this case is due to honest differences upon the merits of the question. Politics has at no time entered into the deliberations of the board, and never will, with my consent. Corcoran is the only man who was con-victed out of a thousand who joined in the acts of destruction and violence in the Coeur d'Alenes in 1899. Every ringleader in that mob should have received equal punishment. In my opinion, the punish-ment he has had is sufficient to satisfy the demands of justice, and to convince those who advocate violence and arson that the law will not tolerate such practice, and I believe his further confinement would only continue to embitter the feeling existing in the Coeur d'Alenes,

class, but its most beneficial exercise is to make a better man of the person suffer-ing such punishment. The board is fully convinced in the belief that Corcoran will rather aid in enforcing and assisting the law hereafter than in defying it. Nearly 6000 citizens in various parts of the state petitioned for Corcoran's pardon, which had some weight with the board. Another reason that influenced me in this case was the man's family. A woman dying slowly of grief is an appeal that I cannot look upon without sympathy, but my principal reason for voting to pardon this man is that it will bring peace and a bet-ter feeling to prevail in a section of the state that has been torn by disorder and murder. Many of the men who have been responsible for this condition have removed from the state. Organized labor in that section of the state is now as firmly committed to peaceful methods as any class of people in the state, and although the violence perpetrated in its name in 1899 will always be a stain that cannot be wiped out, yet I believe the time has come to extend the elemency in this case that the law contemplates when sufficient reason exists."

NEWPORT SUMMER SCHOOL.

Term for This Year Is Practically

Closed-A Great Success. NEWPORT, Aug. 17 .- The Newport Sum. mer school for 1901 is practically closed. While some of the departments will continue two weeks longer, several classes quit work with the date set. About 160 students were enrolled in the class, and no less than 1800 people attended the popular course of lectures more or less of the time. The unanimous verdict is that never in the history of Oregon has there been placed before the public a stronger lecture course than the one just closed. The normal department, under Professor Rigler, of Portland, has made it clear that there is a demand for a Summer normal school at an accessible popular resort, so that all teachers can be present at a sea-son when culture and recreation can be combined. Professor Condon's great science classes of eight to 10 hackloads of citizens along the beach have been with-out parallel. The class work in amateur photography has awakened a taste for higher and better attainments with the camera. Never has there been so much classical music in Newport at any one time. Stenography, art and science work have been well patronized. Professor Krohn was called home, so his classes did not meet, but the department of elocution successfully took up this line of culture At a business meeting held yesterday

Aug. 17.—Arrived—Tauric, adopted, and every visiting teacher volunteered to do missionary work for Newport Liverpool, Aug. 17.—Arrived—Tauric, from New York. Salled—Etruria, for as a Summer educational resort.

ENDED HER OWN LIFE.

Woman Found Dead by the Road Took an Overdose of Oil of Tansy.

PENDLETON, Or., Aug. 17.-Mrs. Sarie J. Engdahi, who was found dead beside the road three miles south of Pendleton last night, caused her own death by tak-ing on overdose of oil of tansy. This, in substance, was the verdict returned by the Coroner's jury. Mrs. Engdahl was a book canvasser. She had been riding in a road cart, bound towards McKay Creek, having just left the home of H. H. Hoopes, where she had dined, The body was found by J. S. Holmes.

Mrs. Engdahl had lived here for some time. She had recently obtained a di-vorce from her husband, Frank. The testimony of several witnesses before the Coroner's jury was that she frequently uttered complaints about hard work of a book convasser, and the poor results of her labors. She had said she would be better off dead, saying she had spent her money making the home which her husband got when she secured a divorce from him. The testimony showed that she took a large dose of strychnine a few months ago, being saved by the prompt administering of an antidote by a woman living in the same house. She had often complained of pains in her head. The vial of oil of tansy found on her person showed that she had taken many times the usual dose, which is one drop.

HUNTER ACCIDENTALLY SHOT.

Out With Another Man, Who Did Not Know He Was Near Him.

PENDLETON, Or. Aug. 17.—Samuel R. Thompson, of this place, was accidentally shot yesterday by William Keller in McClelland's Meadow, Union County, 40 miles southeast of here. Both men were members of a hunting party which left here Thursday evening. It seems Keller shot at a covey of grouse, not knowing Thompson was near. The greater por tion of a charge of No. 7 shot struck Thompson in the face. The party at once started for Pendleton, and came in tonight. Thompson is quite weak from the loss of blood, but stood the trip well.

YAMHILL COUNTY HOP CROP.

It Will Be 40 Per Cent Less Than It Was Last Year.

M'MINNVILLE, Aug. 17 .- The hop crop of Yambill County this year will be about 55,000 bales, as against 90,000 bales last sea-The recent warm weather has been highly beneficial to the crop, destroying mold, lice and other insects. The quality of the hops will be first class. Buyers are offering 9 to 10 cents per pound in ad-vance for picking purposes. Few growers, however, are signing contracts, as they have or can secure money for picking without pledging their crops.

AGRICULTURE IN ALASKA.

Value of the Twelve Farms in the Territory Is \$15,686.

WASHINGTON, Aug. 17 .- The Census Bureau today issued a report on the agricultural statistics for Alaska. It shows that Alaska's total farm wealth June 1, 1900, was \$15,686, of which \$2196 was in-1900, was \$15,686, of which \$2196 was invested in livestock, \$690 in implements and machinery, and \$12,800 represented the value of buildings and other improvements. Buildings have been erected on nine of the 12 farms in the territory. Preparing the soil for cultivation has been the chief item of expense in opening farms, being in some instances \$120 per acre. The 12 farms have a total acreage of 159, and vegetables are the principal product. Five of the farms are only small market gardens of less than three acres. The total value of domestic animals and poultry was \$2196. Potatoes and turnips furnished the principal income from vegetables. Next to vegetables, grass cut for hay is the most important agricultural product. From the standpoint of income upon capital invested, poultry-raising in 1899 was relatively the most profitable branch of Alaskan agriage of 159, and vegetables are the princimost profitable branch of Alaskan agri-

SERIOUS FOREST FIRE.

One Rancher Had to Leave His Home -Only Rain Can Check the Blaze.

PINE, Or., Aug. 17.—There is a great timber fire raging on North Pine and Fish Creeks, and the destruction of a vast forest is threatened. The weather is so suitable to fires in the mountains that it will be impossible to stop the con-flagration. It is hoped the threatened thunder storm will bring on the long-hoped-for downpour. Nothing else can check the flames.

The fire is liable to prove destructive to much ranch property. One family was compelled to move out tonight to save themselves from being burned up. The ranchers are putting forth herculean efforts to save their houses and fences. Numbers are congregated at every threatened point.

WILL BE DREDGED OUT.

Tugs Are Unable to Move the Log

Raft at Westport.

ASTORIA, Aug. 17.—It has been finally decided to dredge the Robertson log raft out of the mud at the entrance to Westport slough, as the tugs Tatoosh and Richard Holyoke have been unable to pull it into the deep water of the river channel. Captain Robertson is in Portland trying to secure a dredge, and it will be several days before the work is accomplished.

Hillsboro Brevities.

HILLSBORO, Aug. 17 .- Peter Schmoker, prominent dairyman residing four miles from here, fell from his wagon yesterday while his team was running away, and sustained a broken shoulder.

The regular teachers' examination closed

here yesterday. There were 28 applicants for county papers, and four for state cer-tificates. There were but three male applicants. Sheriff Sewell today turned over to the Treasurer about \$25,000. The next call for

warrants will pay off all warrants up to July 1 of this year. The county is in the best financial condition it has been for

Medical and Dental Examiners.

OLYMPIA, Wash., Aug. 17.—Governor Rogers has made the following appoint-Frantz H. Coe, M. D., of Seattle, ap-cointed a member of the State Board of Medical Examiners for the term ending May 22, 1904, to succeed P. B. M. Miller, M. D., of Seattle, term expired. Dr. R. B. Gentle, of Seattle, appointed a member of the State Board of Dental Examiners for the term ending March 4, 1902, to succeed C. A. Holmes, D. D. S., of Seattle, resigned.

Ment-Packing Plant Burned. OLYMPIA, Wash., Aug. 17.—The meat-packing plant of Walter Chambers, located four miles east of Olympia, burned to the ground this afternoon. The loss is \$10,000, with \$5000 insurance. The plant was erected in 1894 and was complete for its size, but had been used largely as a slaughter house for several years, on account of the scarcity of meat. The fire originated in the boiler room after the workmen had quit for the day, and

cause is unknown, Hops in Washington County. HILLSBORO, Aug. 17 .- Hopgrowers report that the old yards will not yield over two-thirds of a crop this year. All new yards, however, promise full yield. The quality is said to be excellent in both old and new yards. There is little complaint as to lice, the result of early

Another Thresher Explosion. PENDLETON Or., Aug. 17.—Another thresher explosion occurred near here to-day. W. W. Gillett's big outfit was comsurance. The machine was being oper-ated on the farm of H. R. Nell, when it blew up, almost without warning.

Funeral of Frederick Wickman. ASTORIA, Aug. 17.—The funeral of Frederick Wickman was held this morning, and it was necessary to hold the services in the street because of such a large crowd being in attendance. The

funeral cortege extended several blocks and included the members of the Finnish Brotherhood, Finnish Sisterhood, Ancient Order of United Workmen, Knights of Pythias and Eagles, all of which organizations the deceased was closely identified with. The interment was in Greenwood

The fruitdriers around Albany will have

John Covle. A 30-foot steel tower has been ordered for the 400-pound firebell which was pre-sented to the Athena hose company by C.

A. Barrett. Malheur County sheepmen are preparing for Winter by buying large quantities of hay, says the Vale Gazette. They are paying \$4 and \$5 per ton.

Jake Smith, who lives near Laycock Creek, in Grant County, recently killed two rattlesnakes, one three and one-half feet and the other three feet long. The Owl and Elephant mines, in the Cable Cove district, have been sold to a Maryland syndicate for \$10,000. The new

owners are going to run a tunnel in 500 feet on the vein. One of the warmest days this month a seagull was found resting at the farm of C. H. Williams, near Moro, Sherman County. It must have been driven inland by an adverse wind, says the Observer.

The hot weather has cooked the prune n many orchards about Jefferson, Marion County, causing nearly all the fruit to fall from the trees. Especially is this the case where the soil has considerable

William Miller, of Douglas County, has a curlosity in the shape of a tooth which he found in a creek near Drain. It is 7½ inches wide, 6 inches deep, 3½ inches broad, and weighs 2½ pounds. It is with-out doubt many hundred years old and formerly belonged to a mastodon,

The new 90-horsepower boiler is in place at the plant of the Athena Fiour-ing Mill Company. It is a huge affair, made entirely of steel, and is composed of two plates, tubes and ends. It is en-cased in brick and will add materially to the value of the plant, which is up-to-date in every respect.

Gimple Bros, nave the oldest threshing machine in Lane County, says the Eugene Journal. This pioneer separator is running today and doing first-class work. It was purchased in 1867, and has done duty every season since. It is an old style Buffalo Pitts, with 36-inch cylinder, jackwheel, and a 10 horsepower.

Threshing is now well under way throughout the Rogue River Valley, and from all the information that can be gathered the product of this year will be somewhere around 90,000 bushels, or about one-half a crop, says the Ashland Tidings. The lightness of the yield this year is at-tributable to the lack of rain early in the season, considerable of the acreage having been cut for grain hay. The wheat is coming into Ashland in a very good condition, and 48 cents per bushel is the present price paid for it.

Correct Diagnosis Followed by Correct Treatment

## Means Success

"Weakness."

There is no such condition as weakness in a man under 50 years of age, other than general debility. In a stomach damaged by an tites or inflammation, symptoms of disordered function arise. Prematureness, loss of vitality and the disorders known as "weakness" are but symptoms of some damage to the reproductive system, caused by a contracted disorder or early dissipation. In looking for the location of this damage we generally find an enlarged, swollen and inflamed prostate gland. As this gland is the very center of the reproductive system, it can readily be understood that inflammation of it must cause disordered function. These cases are promptly benefited by proper treatment, ortherwise the patient goes from bad to worse. The essential point in all of them is the necessity of the cure of the focus of the trouble in the prostate. Many men have unsuccessfully treated for a weakness which never existed, when, if the damaged tract had been repaired a cure would have been the result. In our experience there is no drug in the Pharmacopeia, taken into the stomach, that will even benefit this class of cases. Our plan of treatment is entirely a local one, and prompt results are obtained, as indicated by increased circulation and return of natural vigor.

## Varicocele.

Varicocele is an enlargement of the most vital blood vessels in man. In their normal condition, their function is to carry off waste material, thus enabling the organs to receive fresh nutrition. Owing to the breaking down of the valves, caused by the paralysis of the muscular coat of the veins, they become dilated and local stagnation of the blood follows. The vital organs, being deprived of their proper quality and quantity of notrishment, impaired function is the result. Statistics prove that 25 per cent of the male population are afflicted with varicocele in some stage of the disease. We guarantee to cure varicocele in one week at our office, or four weeks of home treatment, without the use of knife, caustic or ligature. We have cured over 3000 cases without a single failure or unpleasant result. We invite correspondence and the fullest investigation of our methods, and can refer to cured patients if desired.

## Contracted Disorders.

Acute and chronic made a particular specialty.

## HOME TREATMENT.

Most cases can be successfully treated at home. One personal visit is preferred; but if it is impossible or inconvenient for you to call at our office, write us a full and unreserved history of your case, plainly stating your symptoms.

Physicians having stubborn cases to treat are cordially invited to con-

Colored Charts.

The colored chart of the organs, which we send free on application to any one interested in the subject, will be found a great advantage in "Home Diagnosis," as well as a study for all interested in their anatomy.
