

THE VOYRON LETTERS

FRICITION BETWEEN FRENCH GENERAL AND VON WALTERSBERG

Disputes as to Matters of Policy in the Chinese Campaign—H. H. H. von Walderberg.

PARIS, Nov. 2.—The Matin last Sunday published three letters from General Voyron, who commanded the French troops in China, dated respectively on November 16 and December 18, 1900, respectively.

The first of these letters is in response to a communication in which Count von Walderberg questioned the principle of French protection of the Chinese coast on the ground that such a protectorate departed from the principle of the equality of rights of the allied armies.

The second letter, which was in reply to a note from Count von Walderberg, showing according to the Matin, that the entire region between Pekin and Pao-Ting Fu was occupied by French flags.

The third letter was in reply to one from the commander of the allied forces proposing the scheme of an international council, having for its president a German General, to administer the affairs of Pekin, which also, the Matin remarks, though not in the same way, flags the French troops under the command of Count von Walderberg in peacetime.

NO EXCITEMENT IN GERMANY. Press Comment on the Military Correspondence.

BERLIN, Nov. 2.—The publication in Paris this week of the letters written by General Voyron, and the Field Marshal Count von Walderberg, showing among other things that the relations between the French General and the Field Marshal were strained during the entire course of foreign occupation, caused little excitement here.
