"I have little doubt that the disaster was just as terrible as has been described, and my anxiety for the fate of my sis-ter and other relatives is great. There have been several erupitons of Mount Pe-lee, but never such a terrible catastrophe as that which is being described in the papers. That is why I think the reports have not been exaggerated. Undoubtedly, when ashes began to fall days ago, people thought it would be unsafe to remain out of doors, and when the fatal eruption came were caught in their bouses, victims of the faise security engendered by pre-vious comparatively harmless disturb-ances." Delaware, Lackawanna & Western mines in the Lackawanna Valley. The Delaware & Hudson paid off Thursday, and others of the big companies will disburse many thousands of dollars to their employes within the next half week, so with what the mineworkers have been laying aside in preparation for this struggle with the operators, feeling that a strike was imminent, they are not so poorly provided for has been reported.

There is a strong sentiment among the places in this district that President miners in this destruct that President Mitchell is opposed to a strike, and that no matter how the operators may view it, the Mineworkers' Union can afford to refuse to engage in the conflict which

On the Saturday preceding the Monday on which the 1800 striks took place, the mine-bosses worked among their personal friends in the ranks of the miners to urge them against obeying the strike or-der Today, the bosses are religiously Today, the bosses are religiously holding aloof from their men. There is absolutely no effort on the part of the operators, so far as is apparent here, to discourage a strike. This, coupled with the fact that the rank and file are firmly convinced that President Mitchell is against a strike, will have a strong in-fluence toward an anti-strike vote at the meetings to be held Monday afternoon. President Mitchell and committeemen of the three districts held a meeting this peratons, so far as is apparent here, to

morning, but nothing was made public as to their deliberations. The committeemen left for their homes this afternoon. President Mitchell is still here attending to his correspondence. He will have for Hasieton Tucsday afternoon. The works have laid off nearly all their coal crews and efforts will be made to run the wash-ers to supply coal for locomotives.

Shamokin Men Will Strike.

SHAMOKIN, Pa., May 10 .- When bulletins were posted here announcing the action of the Scranton convention in ordering a cersation of work until the min could decide for themselves whether not to strike, local members of the ion, with few exceptions, said they would remain away from the mines. They are satisfied that President Mitchell did all in his power to obtain concessions for all in his power to obtain concessions for them. From present indications, every colliery and washery here will be tied up next week. A few miners did not go to the operations today. Business men are discouraged. They think a strike is in-evitable, and that the tie-up will be of such duration that many of them will be avited.

Vote for Permanent Strike.

PITTSTON, Pa., May 10.-It is em-phatically stated by union leaders that the entire 15,000 mineworkers of this section will support the organization. At the col-lleries the superintendents were busy di-recting the removal of mules. Very little coal was mined, the work being confined principally to clearing the chambers and preparing for the struggle which now appears certain. It is authoritatively stated

here today that the delegates to the Hazleton convention from this district 10.-The Italian steamer Pedemonte, which sted to vote for a contin uance of the suspension. This was de-cided late last night at secret meetings of the local unions.
