TALK OF AMERICAN CARDINAL. Ireland Will Not Get the Red Hat in

the Immediate Future. ROME, Aug. 20.-The reports relative to

the creation of another American cardinal are unfounded, or at least premature. For 15 years efforts have been made to secure another American member of the sacred college, but it was found that the American episcopacy, was not sufficiently fa-vorable. Di Cesnola came to Rome to ad-vocate that Archbishop Ireland and the

late Archbishop Corrigan both be promoted, to avoid their rivair, but new Yark's geographical position was regarded at the Vatican as being too near Baltimore to permit of Archbishop Corrigan's appoint-ment. With the passing away of Corrigan the situation was much altered, and it is considered that a satisfactory solu-tion of the Philippine question might bring recompense to Archbishop Ireland for his services in the affair. At the Vatican it is said that newspaper

talk will only delay Archbishop Ireland's chances, as the pope is always irritated at the idea of anything being imposed upon him by the press.

His car-riage was banked with flowers when he rose to speak. After requesting that the members of the Grand Army who were in the assembly he allowed to occupy the front line, the President said: "I want to thank you for what

have done and for the very kind and graceful way in which you have greeted me this morning (applause), and I cannot think of anything that argues better for the country than in just such a typical old American town as this to have the school children drawn up before a monu-ment like that (pointing to the soldiers' monument), in the birthplace of Salmon P.
