Porte Will Not Vouch for Legations' Safety.

### HAVE MARINES LANDED?

Complete Official Reserve Maintained on This Point.

### WASHINGTON IS NOT ALARMED

Bulgaria Has Not Changed Its Attitude in the Least, but Has Promise of Support From Russia in Event of War.

BERLIN, Sept. 5 .- The Turkish government, according to information received from the Foreign Office by the Associated Press, has notified the powers that the Porte cannot guarantee the safety of the legations at Constantinople. This extraordinary statement was communicated, without explanation or without qualifying details, in response to an inquiry as to whether German marines were among those United States Consul Leishman reported as having landed at Constantinople

It is inferred, however, that the conditions at the Turkish capital are not so bad as the Sultan's notification would imply, but that the legations have been warned to look out for their own safety, the Porte disclaiming in advance respon sibility for any disorderly act.

The Foreign Office officials added that the German embassy at Constantinople had not reported whether German marines had been landed nor whether marines of any other power had been landed. Complete official reserve is maintained on this

The Associated Press correspondent learned from sources outside the Foreign Office that the German government regards Turko-Balkan affairs as having entered on an acute phase.

The Porte's inability to take energetic hold of the Macedonian insurrection is the worst feature of the situation.

### United States Not Alarmed. WASHINGTON, Sept. 5.-It is evident

the United States does not share any apprehension that may be felt in some quarters that there is danger for the legations in Constantinople. Mr. Leishman has not asked for ma

rines nor has he given any indication that they will be needed.

While Admiral Cotton has reported his arrival at Belrut he has not sent any communication as to the condition existing there, and the further movement of the squadron depends entirely upon the reports which Minister Leishman and Admiral Cotton make to their respective departments.

### POWERS FORCED TO ACT.

Emperor of Austria Has Made Intervention a Burning Issue.

LONDON, Sept. 5 .- So threatening is are being forced to take action sooner than expected. Emperor Joseph, it is not learned, has brought the powers to stage where a decision is about to be reached regarding the character of the intervention which should be adopted. It is authoritatively denied that inter-Macedonia by Austria and Russia.

All the diplomatic advices available here

agree in the statement that order pre-valls at Constantinople. The few marines landed there from the guardships were merely for the purpose of placing senti-nels at the embassies, as an extra precaution in consequence of the warnings against insurgent plots.
D. G. Metaxas, the Greek Minister to

the court of St. James, today outlined the Greek view of the situation. He said: "The attitude of Greece is entirely misunderstood. What my government desires is the re-establishment of Greece in Macedonia. The large Greek population in that province is subjected to atrocities by the Bulgarian revolutionists. Bulgarlans are worse than the Bashi Basouks. They pose as liberators, but they really aim to Bulgarianize Macedonia Greece seeks the welfare of the whol

### BULGARIA'S ATTITUDE UNCHANGED Government Denies That the Army Is Being Mobilized.

SOFIA, Bulgaria, Sept. 5.-Reports of dings of the Ministerial Counthe proceedings of the Ministerial Coun-cil, at Varna, indicate that there has been no change in the attitude of the government on the Macedonian question. Minister Leishman has received a telegram from United States Consul Raven-dal, at Beirut, saying that the authorities at that place apparently have not yet secured the man who fired at Vice-Consul Magelssen, and adding that the airest among others of a 15-year-old boy seems to indicate that they do not realize the gravity of the situation. Mr. Ravendal also refers to the general

state of insecurity at Beirot, and sug-gests that the assailant of Vice-Consul Magelssen was the same individual who attacked Mr. Magelssen one night about a year ago with the object of robbing him. The man was imprisoned and recently was liberated.

### TURKS WERE CAUGHT NAPPING.

Loss of Neviska and Its Recapture Were Both Bloodless Exploits. LONDON, Sept. 5.—Mail advices from Salonica say that the seizure of Neviska

by the Bulgarians August 25, and its resupation by the Turks August 27, were odless exploits. The Turkish garrison, composed of about 200 men, was surprised, and did not resist. About 80 of the soldiers surrendered and the remainder escaped without their arms, and fell into the hands of another Bulgarian band. The prisoners were not

barmed, but were utilized to carry the narmed, but were utilized to carry the captured arms and ammunition into the mountains. They were then liberated. When the Turks reoccupied Neviska and Kilssura, August 27 and 28 respectively, the fears of the inhabitants of a repetition of the Krushevo excesses were fulfilled. The conduct of the soldiers at

both places was correct. It is said that the official Turkish report saying 200 soldiers out of a garrison of 230 were killed at Neviska was due either to the unwillingness of the authori-ties to admit that such a large garrison was so easily captured or to the belief that the insurgents would certainly kill

#### NO FRENCH MARINES LANDED. Embassy, However, Is in Constant Dread of Fanatics.

PARIS, Sept. 5.-Ambassador Constans latest report from Constantinople says the Embassies there are constantly in danger of being attacked by agitators or fanatics, but it does not mention the landing of marines. The officials here say that if marines were landed they would be from the small guardships maintained at Con stantinople for police purposes, but which do not form part of the regular fleets; that the landing of marines, if it has taken place, would not be considered a awal debarkment in its serious sense, or a preliminary war measure. By agreement with Turkey each of the powers maintains two guardships at Constantinople, France having two small gunboats.

It is said if the United States desires

the gunboat Machias to go to Constanti-nople for guard duty it will be wholly a question between Turkey and the United States, as certainly France and probably the other powers will interpose no objection to the Machias passing the Dardan

The Dnevnik alleges it possesses a copy of the treaty, the terms of which guaran-tee that in case of war between Bulgaria and Turkey the former shall have the co operation of Russia.

The Temps emphasizes the statement. and declares the officials in Bulgaria timed the announcement so as to give Turkey a final warning of the danger of further menacing Bulgaria.

### MACEDONIANS ARE DESPERATE.

Dynamite and the Torch Will Be Used as a Last Resort.

BERLIN, Sept. 5.-The Cologne Gazette publishes the report of an interview with one of the Macedonian leaders, who is quoted as saying that the Macedonian Committee controls an enormous quantity of dynamite, many guns and much ammunition, and a large sum of money, and is firmly resolved that unless its efforts result in a war between Bulgaria and Turkey of in European intervention to destroy the Macedonian cities with dynamite, burn the villages and contaminate the fountains and water system. throughout the country.

Investors Will Do No Building the Coming Year.

MANY CONTRACTS CALLED IN

Railroads Are the Leading Spirits in the Movement Which Is Calculated to Make Labor Market More Firm.

PITTSBURG, Sept. 5 .- The Post tomor-

ow will say: According to well-matured plans, only of the great railroad corporations of the country, but of the larger investors of capital in building operations, there is likely to be a general cessation of building operations during 1904, which will make that year memorable to the trades interested. The statement of one of the connected with railroad construction work is the basis for the assertion that at least \$180,000,000 worth of building operations proposed for 1904 have actually been called for, and plans have been recalled from architects and engineers.

It is also said by the same authority, so far as known, there will be nothing in the shape of new work undertaken the coming year, and when the present contracts are completed a period of waiting will ensue It will be a waiting for the general labor situation to settle down, and the end of the factional wars and strikes that have ilmost destroyed confidence in building.
The same information is that the Penn

sylvania Railroad, which has enough im-provements under way and contemplated at least as much more, or \$50,000,000 during 1904, has decided to withdraw all of these plans and do nothing further with them until there is a more placed condition of

Information given out shows that in New York alone there is at least \$60,000,000 of new building for 1994 involved in the general plan of withdrawal. In Chicago, where the labor troubles have been con-tinued for months, it is said that more than \$70,000,000 of new work has been aban-

In this city, Henry Phipps has declared he would not turn another stone in the city except where operations have already en started. The delay in the extensive improvements contemplated by H. C. ### TROOPS REACH STRIKE SCENE. Coloradans Pitch Camp in the Crip-

ple Creek District. COLORADO SPRINGS, Colo., Sept. 5-The state military forces which were or-dered to the Cripple Creek district yes-terday by Governor J. H. Peabody, under command of Brigadier-General Chase and Adjutant-General Bell, as a result of an investigation made of the labor trouble in the gold camp by a special commis-sion dispatched to the district on Thursday by the Governor, pitched camp about three miles from Victor at daylight this morning, near the Stratton Independence

In the detachment are Companies A, B and K, of the First Regiment; Troops B and C of the First Squadron of Cavalry; the State Signal Corps, the State Hospital Corps, the Chaffee Light Artillery, all of Denver, and Companies D and I, of Colo-rado Springs. In all there are now about 1000 militiamen in camp, and others have been ordered to the scene of the trouble by Brigadier-General Chase, including one troop of cowboy cavalry from Meeker, Colo. By tomorrow morning the military forces will have been increased to upwards of 1200 men. Everything has been quiet in the Crip-

ple Creek district since the arrival of the nilitary forces, and it is thought that the mere presence of the Guard will serve quell the spirit of lawlessness which has prevailed throughout the great mining district since the early part of the week Last night picket posts were stationed all along the line of the Colorado Midland railroad from Divide to Cripple precautionary measure against any attempt that may be made to blow up the trains carrying arms and supplies to the forces, but no trouble was

experienced. Since the start from Denver, Adjutant-General Sherman Bell has perfected plans for the mobilization of the entire state militia, numbering 1800, should be wish to do so. An arsenal will be established and within 24 hours 900,000 rounds of am-munition will be collected in the gold

When asked whether he anticipated any serious trouble, General Bell said: "I do not know what we will meet the dith, but I shall be prepared for any

thing that may turn up,"
Rumors that an attempt would be made to interfere with the progress of the troops toward Cripple Creek caused General Bell to change the route travel from the Short Line road to the Colorado Midland. So secret were the arrangements that but few even of his own personal staff knew of the General's intentions until they were aboard train leaving Colorado Springs.

Prior to the departure of the main body of the troops from Colorado Springs, a special bearing armed militiamen was sent out. Detachments from this com-pany were dropped off at the bridges along the route and left to guard them until the several sections following were safely over. So far the journey of the troops has been without special incident.

### VICTOR DENOUNCES PEABODY. Citizens Are Urged to Treat Soldiers With Due Respect.

VICTOR, Colo., Sept. 5.-A mass meeting ended by several thousand citizens of Victor was held this afternoon. The speakers were strong in their denunciation of Governor Peabody's action in sending the troops to the district, but counseled their hearers to treat the soldiers with onsideration and respect. Resolution were adopted declaring that misrepresen tation was employed in inducing the Gov ernor to send troops to the district, and condemning the Governor's action as "unwarranted by the facts and anarchistic in its inception, spirit and consequences." The resolutions declare that the Cripple Creek district is as peaceable as any in the country, and protest against the in asion by the troops and the threatened establishment of martial law.

### Photographer Threatens Secretary Because Claim Is Unpaid.

NEW YORK, Sept. 5.-Francis Benque, 46 years of age, a photographer was committed to Bellevue Hospital today to be examined as to his sanity. Benque had been arrested for writing a letter to Secretary of State Hay, in which he threatened the Secretary if a claim of

taries of State since the administration of Harrison, none, however, threatening in tone until this letter to Secretary Hay, in which he declared if Mr. Hay did no attend to his claim he (Benque) would attend to Mr. Hay.

Government to have his claim enforced, and the present one would be the last. He said he would take up the matter then himself, and whatever he did would be "in self-defense." The letter, like its precessors, was long and rambling.

#### DID HE THREATEN ROOSEVELT? Hny in Nowise Alarmed, but Officers Fear Man Will Go to Oyster Bay WASHINGTON, Sept. 5 .- The following

"It is understood that the action in the case of Benque, the writer of the threatinstance of the Secretary of State, Mr. Hay receives a good many such letters, and, as a rule, pays no attention to them In this case, the letter came into the hands of efficials of the State Department who thought it showed a disposition which might lead to mischief. Benque's threats were not aimed especially at the Secretary of State, and it was thought probable that he would make a journey to Washington to carry them out, but be-ing so much nearer to Oyster Bay, it was feared his disorder of mind might lead him there. For this reason, it was sug-gested to the proper officers that the mat-

ter should be looked into. It was learned that Benque had written Secretary Hay no less than 100 letters in reference to his alleged claim against Germany, and in this last communication which hastened the determination of the officials of the department to cause his arrest, he notified Mr. Hay that he would allow just three days to pay heed to his demands, at the end of which time he

would make his move. When asked about it tonight Secretary Hay would not say that the writer of the letter also threatened the President, but the fear expressed in the statement about the man's state of mind might take him to Oyster Bay would lead to the belief that he had communicated such a threat. "For about two years I suffered from a very obstinate case of dyspepsia," writes R. H. Secord, Raq., of 13 Eastern Ave., Toronto, Ontario. "I tried a great number of remedies without success. I finally lost faith in them all. I was so far gone that I could not for a long time bear any solid food in my stomach; fell melancholy and depressed. Some four months ago a friend recommended your 'Golden Medical Discovery.' After a week's treatment I had derived so much henefit that I continued the medicine. I have taken three bottles and am convinced it has in my case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspeptics throughout the land."

Dr. N. J. FULTON

NATUROPATH,

## Call and investigate My Methods,

Monday, Sept. 7th At Room 30, Lewis Bld'g. Cor. Park and Morrison sts

Dr. N. J. Fulton, recently of Atlantic. Ia., has decided to open an office for the practice of her profession in Portland, Or. Dr. Fulton practiced in Atlantic, Ia., about 31/2 years. Her success in curing the sick was phenomenal; as is evidenced by the testimony of hundreds of her grateful patients. She uses no drugs, yet the results obtained from her method of treatment are marvelous. She treats men, women and children, and for all kinds of diseases, both acute

and chronic. As an evidence of the esteem in which she is held where she formerly lived and practiced, a few testimonials from prominent citizens are herewith submitted. ATLANTIC, Ia., July II, 1908.—To Whom It May Concern—This is to certify that I am well acquainted with the bearer, Dr. Fulton, whom I have known for several years. She has been very successful in her work here. She is a lady in every respect, and I can cheerfully recommend her to any one needing her services. Respectfully,

J. A. McWAID, Mayor. ATLANTIC, Ia., Aug. 11, 1903 .- To Whom It May Concern-Dr. N. J.

Fulton is about to leave this place for a residence in Portland, Or. I have known Mrs. Fulton personally and as a physician for a number of years, and it affords me great pleasure in testifying to her worthiness as a lady and as a physician. She has had a large and reputable practice here and in this neighborhood, and her success has, in the minds of the laity, been phenomenal. She is painstaking and conscientious in all she does, and this, together with her

ability, has made her determination to remove from here a public calamity.

She is in every way to be trusted implicitly, and in business matters her

word is good as gold. Respectfully, CHARLES F. CHASE, Editor, Cass County Democrat. Office Hours:-9 to 12 A. M.; 1 to 5 P. M.
