FIGHTING GOES ON IN MACEDONIA

Britain Leaves the Entire Matter in the Hands of Russia and Austria. and Will Send No Fleet at Present.

LONDON, Sept. 19.—The Associated Press learns that war between Turkey and Bulgaria is not now regarded as im-minent by the Foreign Office or other diplomatic centers in London. It is stated that under no circumstances will the powers permit Turkey to occupy Bulga-rian territory, hence Turkey has nothing

to gain by hostilities. Regarding the renewed rumors that a British fleet is going to Turkish waters the Associated Press is only informed that Balkan matters have not been left in the hands of Russia and Austria, and no action is now contemplated by Great Britain, or, so far as known, by any other power In the meantime the powers are daily exchnaging communications with the view of determining on some possible means of restoring order in European Turkey.

Turkey Takes a Hopeful View, CONSTANTINOPLE, Sept. 19.-Within the last 24 hours a more reassuring feel-ing has prevalled, due to the assurances that Bulgarian mobilization is only applied to a few regiments and is intende for the reinforcements of the frontier posts. The result of the attack upon the town is not yet known, but a telegram from Keicharnivo says that additional Turks are going there, thence to Melnik.

In the Delmir-Hissar district, the leaders, Stayncheff, Asgenreoff, and Kortchavalfy have 2000 men ready to begin operations. Severe fighting is reported to have taken place at Okhrida. A band of revo-lutionists operating near Brijeni surrounded a force of Turkish troops and a fight ensued which lasted through an entire day. In the evening, the insurgents, reinforced by bands under Sarafoff, attacked the Turks on all sides and routed them. The Turks lost 90 killed. It is reported the troops will now move only in bodies

of 3000 to 4000.

At Dobravan, in the District of Leren, a fight has taken place between Turks and issurgents, in which the former lost 70 killed and many wounded. I'The insurgents lost only four killed, but many of them were wounded.

"It is not apparent why so many men resorted to this method of separating from the service, and if the depressing

result could in any way be attributed to American methods, it would certainly justify the deepest solicitude on the part of all concerned in the military adminis-tration of the Army. As a matter of fact, however, the American soldier is so

well provided for in respect to all his material necessities and his personal appearance, and is so carefully safeguarded in respect to all matters of discipline, that a conclusion arises spontaneously in

when they know what bargains they are getting.

It is not an every-day occurrence to get a strictly modern, high-grade plano, perfectly new and unblemished, and a choice of all the various woods and finishes, the regular \$300.00 style for \$172.00. This one bargain alone is enough to fill our store with buyers. But it is only one of the many. There are fine, large orchestral upright planos in fancy buried walnut, mottled mahogany or quarter-sawed oak, easily worth \$460.00, that are going for \$255.00. Lesser priced planos for \$157.00. \$138.00, etc., etc. Planos and prices, in fact, to suit everybody. It is a clean sweep in which nearly everything in our store is involved. Only the Planola, the Acollan Orchestrelle and some exceedingly choice, high-grade planos have escaped the vigorous attacks we have made on prices. There is no sameness about them, the range of choice, both in new and second-hand instruments, is almost limitless.
