## Story of Trip to Northern Part of

State Not Substantiated. HELENA, Mont., Dec. 26 .- In the Isaac Gravelle case today the defendant occupied the stand all day. His direct examination lasted about three hours, and when court adjourned he was still under cross-examination. Gravelle de-nied having been at any of the places where dynamite was exploded on the track and said he was never in Living-

ston, where the bridge was injured, and gave a detailed account of his movements in August and September, testifying that he was out of town when the explosions took place in the vicinity of Helena, 150 miles from the scene. He denied writing or sending any threatening letters, denied conversations

with witnesses who have testified to Gra-velle's confessions, and also denied having sent any threatening letters out of the jail. On cross-examination he stuck closely to this story, and he has so far avoided contradicting his original story. The only point brought out by the state in his examination is that he in his numerous alleged trips in the northern part of the state did not meet or talk to any

one who could substantiate his story of a visit to that section. LAWBREAKERS GET THE BIRDS

#### Man With Fractured Skull Dies in the Oakland Jall.

OAKLAND, Dec. 26 .- Despite the earnest appeal of an unknown nurse police to remove Richard urged the Sibrian to the receiving hospital, the latwas thrown into a patrol wagon, placed in a cell at the city prison, where he remained unconscious all night and was found dead about 6 o'clock this morning. The action of the police was in direct violation of the rules govern-ing the conduct of the department members and Chief of Police Hodgkins has decided that the matter be thoroughly investigated.

Among the motley throng gathered about the form of a young man was a young woman whose name could not be learned. She appealed to the policement to take him to the receiving hospital.

"This young woman claimed to be a nurse," said Sid Wilson, a deputy in City Treasurer Taylor's office. She pronounced the man injured and said that he ought to be taken to a hospital. She made a very carnest plea, but the officers seemed to pay little heed to her words. One of the men on the patrol wagon remarked

#### MRS. MARY WOOD, AGE 116 YEARS, AND HER DESCENDANTS.

HILLSBORO, Or., Dec. 26 .- (Special.)-The oldest woman on the Pacific Coast, the bell of East Tennessee a century ago, and at one hundred and sweet sixteen not a bad-looking elderly lady. Mrs. Mary Wood is enjoying her old age, surrounded by great-grandchildren, in her Hilsiboro home. A group picture, recently taken, shows the babies of the family in four generations-Mrs. Mary Ramsey Wood, born in Eastern Tennessee on May 20, 1787; Mrs. Catherine Wood Reynolds, born in Nashville, Tenn., October 14, 1880, the youngest daughter of Mrs. Wood; Mrs. Jennie Reynolds Olsen, born in Hillsboro, January 13, 1865, the granddaughter; and Miss Gertha Olsen, also born in Hillsboro on July 8, 1890, great-granddaughter, a family circle in which the youngest, a young lady, is over 100 years younger than its oldest member.

Until recently the centenarian really did not know how old she was, a reputedly feminic failing, in this instance owing to the family records having gone to the hottom of the river in rafting across a stream when she came to Oregon in 1849, but she believed herself to have been born six years later until cousin in Missouri found a Bible giving her birth entry, with the date May 20, 1787.

Fifty years and over ago, when Mrs. Wood kept the Washington House, Hillsboro's first hotel. It was remarked how active she was in riding horseback over the country for a person of her ago, and Henry Wehrung, now a white-haired old man, recalls in his boyhood having first met Grandma Wood, and that she then was grayhaired and venerable. The late Representative Tongue visited Knoxville, Tenn., on one of his trips to Congress, and there met several old people who remembered her, all as having been an old woman when they were children.

Here, indeed, is an exception to the Psalmist's limit of days to threescore and ten years, for she has prolonged hers past fourscore, beyond fivescore to nearly sixscore, nor are they apparently a sorrow, for she takes a lively interest in all passing around, daily with her cane exercises in walking, seeks to instill her great-grandchildren habits of thrift and economy, and in good health, with unimpaired hearing and fair memory, is not at all childish, but more active and vigorous than many 50 years younger. Her mother lived to be 103, and to Mrs. Wood it seems perfectly natural that she should be long-lived. So she looks forward to coming years, and it is not at all unlikely that she who as a young woman heard of Lewis and Clark's exploration of the Oregon Country will be present as one of the most interested spectators and interesting spectacles at the centennial anniversary of that important event.

## DEPOSITORY LAW NOT LEGAL.

#### Idaho Supreme Court Declares Re cent Act Unconstitutional.

BOISE Idaho Dec. 26-The State Supreme Court today handed down an opin-ion bolding the state depository law unconstitutional. The act was passed at the last session of the Legislature and provided that the balances carried by the State Treasurer should be deposited in banks designated by a State Board of Deposits, consisting of the Governor, Audi-tor and Attorney-General, such banks to give security and to pay interest on daily alances.

State Treasurer Coffin contested the law and has won the case. The court finds the title of the act is insufficient, no other point being passed on.
