Big Electric Dispatch Trucks and Large Moving Vans in Addition to the Several Big Dray Wagons of Eilers Pinco House, Were Necessary to Deliver Instruments Sold Last Week. Oredit Certificates Presented by the Score. Each and Certificate Represents Every Actual Cash.

The three big delivery wagons of Eilers Plano House were totally inadequate to meet the demands made upon them last week in order to deliver instruments that were sold to the fortunate winners of Prize Credit Certificates. The big electric trucks of the Oregon Disputch Company were called into serv-ice, and even with this addition it was necessary to engage several large mov-ing wans in order to keep things moving.

Refrigerators Less! If you need a Refrigerator you shou tal sale here all this week. We handle

# The Old Reliable "Alaska" Refrigerator

The old reliable Alaska has been sold in Portland for over-15 years, and is more popular than ever. No Refrigerator made is its squal. With the "Alaska" there is no waste of ice-just sufficient to operate successfully. Some of the oldest and best homes in Portland have the Alaska. We can say without fear of successful contradiction that THE "ALASKA" IS THE BEST REFRIGERATOR SOLD IN PORTLAND.

Investigation will convince you of this fact. Besides, it costs no more than the cheaply-constructed kind. For the coming week we offer special inducements and easy terms of \$1.00 down and \$1.00 a week for any refrigerator in the stock.

CHARCOAL The "Alaska" Construction The "Alaska," by its perfect system of warm and cold-air flues, allows na-

ture's principles-that warm air rises and cold air falls-to work in a more perfect manner than any other refrigerator built. The air circulates in the direction represented by the arrows. The ice rests on a corrugated galvanized iron rack, which is so constructed as to leave an air passage under the iron. The warm air in the provision chamber rises through the flues at each end of the ice chamber, comes in contact with the ice at the central opening in the lid flue, becomes colder and drops under the ice rack, where all moisture is condensed, and falls through the central opening under the ice into the provision chamber, cold and dry. No other system keeps the air so long in contact with the ice as the ALASKA does, consequently the Alaska does its work more thoroughly than any other refrigerator. HIGHEST AWARDS AT THE WORLD'S COLUMBIAN EXPOSITION.

If you intend buying a refrigerator you want the very beat obtainable for the money. Do not he misled into taking one of cheap and "shoddy" construction. Investigate before buying, and you will take the "Alaska."

# Lost Count of His Children.

Lost Count of His Children. Exchange. A certain learned professor in New York has a wife and family, but, pro-fessorilke, his thoughts are slways with his books. One evening his wife, who had been out for some hours, returned to find the house remarkably quiet. She had left the chil-dren playing about, but now they were nowhere to be seen. She demanded to be told what had be-come of them, and the professor ex-plained that, as they had made a good deal of noise, he had put them to bed without waiting for her or calling a maid. "I hope they gave you no trouble." she said.

said. "No." replied the professor. "with the exception of the one in the cot here. He objected a good deal to my undreasing him and putting him to bed." The wife went to inspect the cot "Why," she exclaimed, "that's little Johnny Green, from next door!"

New York Press. "I can always tell when people are look-ing at me," said a blind man. "Indeed, nearly all blind persons can tell when people are looking at them. "I have always about me a soft golden slow of light. When people whom I like come into my presence this glow becomes paler, loveller. When those I dislike are about the glow is darkened and be-smirched.
