

Girlhood, Womanhood, Motherhood. No Man Stronger Than His Stomach.

THE first lesson that the young girl has of womanhood is usually a painful one. She learns to know what headache means, and backache, and sometimes is badly borne down by this new experience of life.

All the pain and misery which young girls commonly experience at such a time may, in almost every instance, be entirely prevented or cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity. It tones up the general health, and cures headache, backache, nervousness, chorea, or St. Vitus's dance, and other consequences of womanly weakness or disease.

MOTHER OF THE FAMILY.

The anxious mother of the family oftentimes carries the whole burden of responsibility so far as the home medication of common ailments of the girls or boys is concerned. The cost of the doctor's visits are very often much too great. At such times the mother is invited to write to Dr. R. V. Pierce, of Buffalo, N. Y., for medical advice, which is given free. Correspondence is held sacredly confidential.

IT STANDS ALONE.

"Favorite Prescription" is the only medicine for women the makers of which are not afraid to print just what it is made of on every bottle-wrapper. It is the only medicine for women every ingredient of which has the unanimous endorsement of all the leading medical writers of this country, recommending it for the cure of the very same diseases for which this "Prescription" is advised.

A MOTHER'S LOVE.

A mother's love is so divine that the roughest man cannot help but appreciate it as the crown of womanhood. However, motherhood is often looked forward to with feelings of great dread by most women. At such times a woman is nervous, dyspeptic, irritable, and she is in need of a uterine tonic and nerve, a strength-builder to fit her for the ordeal. No matter how healthy or strong a woman may be she cannot but be benefited by taking Dr. Pierce's Favorite Prescription to prepare for the event. It makes childbirth easy and often almost painless.

DR. PIERCE'S FAVORITE PRESCRIPTION

is a powerful, invigorating tonic. It imparts strength to the whole system and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

A STRENGTHENING NERVINE.

"Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic

disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

A SCIENTIFIC MEDICINE.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate organism. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness or nausea, weak stomach, indigestion, dyspepsia and kindred symptoms, its use will prove very beneficial.

CURES OBSTINATE CASES.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhoea, excessive flowing, painful menstruation, unnatural suppressions and irregularities, prolapsus or falling of the womb, weak back, "female weakness," ante-version, retro-version, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness of the ovaries, accompanied with "internal heat."

HOW TO LOOK BEAUTIFUL.

Young women or matrons should not allow themselves to look sallow and wrinkled because of those pains and weaknesses which become chronic and are the result of colds, tight lacing, and the imprudent care of the womanly system. Many a woman would look beautiful, have healthy color and bright eyes if it were not for those drains on her strength and those weaknesses which come all too frequently and make her life miserable. There is a ready-to-use Prescription, used a great many years by Dr. R. V. Pierce in his large practice as a Specialist in woman's diseases, which is not like the many "patent medicines" on the market, as it contains neither alcohol nor any narcotic, or other harmful drug. It is purely vegetable. It is known as Dr. Pierce's Favorite Prescription and is sold by druggists.

DR. PIERCE'S PLEASANT PELLETS

cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Persons subjected to any of these troubles should never be without a vial of the "Pleasant Pellets" at hand. In proof of their superior excellence it can truthfully be said that they are always adopted as a household remedy after the first trial.

One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels. As a "dinner pill," to promote digestion, take one each day. To relieve the distress arising from overeating, nothing equals one of these little "Pellets." They're tiny, sugar-coated, anti-bilious granules, scarcely larger than mustard seeds.

HEALTH AND HAPPINESS.

How to live in health and happiness, is the general theme of Dr. Pierce's Common Sense Medical Adviser. This great work on medicine and hygiene, containing over 1000 pages and more than 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

THE celebrated Dr. Abernethy of London was firmly of the opinion that disorders of the stomach were the most prolific source of human ailments in general. A recent medical writer says, "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly. It is the vital center of the body * * * * *". He continues, "so we may be said to live by (and he might well have said through) the stomach." He goes on to show that the stomach is the vital center of the body. He says, "the function of digestion in its several stages is to prepare the food in forms which are suitable to be added to the structure," meaning the structure of our bodies. He continues, "every physical action from simple breathing, thinking and circulating of the blood to the most active bodily exertion wears out portions of the structure (of our bodies) and they become dead and so require to be taken away speedily. Much of the food which we take, and especially when unwholesome or in excess, adds to the waste material, and when it has undergone chemical changes it is still more mischievous." Then he goes on to the effect that the nervous system prompts every part of the circulating system. He says, "it gives its message every moment to the infinite number of glands and follicles to unload themselves of waste material so that the current of blood may carry it away."

"When these two processes of nutrition and excretion are thus carried on with equal assiduity we are in health, but when this equilibrium does not exist there comes disease. The common form of such derangement is indigestion or dyspepsia. The function of nutrition is interrupted and all the operations which depend upon it go wrong. Under these conditions it has a way of appearing in other types of disorder. Many of these often mislead physicians. Other parts of the organism are likely to be involved, and we may find consumption, kidney complaint, hepatic (liver) disorders, hysteria and even mental alienation (derangement)." He says, "it may be observed that deranged persons have a woe-be-gone expression, offensive breath, irregular action of the bowels, hallucinations and other like conditions of dyspepsia."

The foregoing is no doubt a rational view of the sad havoc worked in the human system by indigestion and dyspepsia, torpid liver and kindred derangements, which are generally associated with or followed by many other diseases of diverse appearance, but all depending upon the weak and disordered stomach. Cure the stomach weakness and you cure all these diseases and derangements.

For weak stomachs and the consequent indigestion or dyspepsia, and the multitude of various diseases which result therefrom, no medicine can be better suited as a curative agent than Dr. Pierce's Golden Medical Discovery. The Golden Seal root, Stone root, Mandrake root and Black Cherrybark are all recommended by such eminent authorities as Dr. Bartholow, of Jefferson Medical College; Prof.

John King, author of the "American Dispensary"; Prof. John M. Scudder, late of Cincinnati; Dr. William Paine, author of Paine's Epitome of Medicine, Dr. Hobart A. Hare, of the University of Pa.; Prof. Laurence Johnson, M. D., Medical Department, University of New York; Prof. Edwin M. Hale, M. D., Professor of Materia Medica in the Hahnemann Medical College, Chicago, and many others, as remedies for indigestion and dyspepsia, torpid liver as well as for bronchial, throat and lung affections, as will be seen from reading a little booklet recently compiled by Dr. R. V. Pierce, of Buffalo, N. Y., who will send the same on request, by postal card or letter, to any address, free. This little booklet tells of what Dr. Pierce's celebrated medicines are made, and gives the properties and uses of each and every ingredient entering into their composition. Write Dr. Pierce, as above and receive it by return post.

Queen's root, or Stillinga, is an ingredient entering into the "Golden Medical Discovery" highly recommended by several of the above mentioned authorities for the cure of chronic or lingering bronchial, throat and lung affections, public speaker's sore throat attended with hoarseness, dry, rasping cough and kindred affections. Not only is Queen's root specific in its curative action in all these affections, but in "Golden Medical Discovery" it is greatly assisted by the combination with it of Golden Seal root, Stone root, Black Cherrybark and Bloodroot, with which it is blended in just the right proportion. Pure, triple-refined glycerine also greatly enhances the effectiveness of all these agents in the cure of chronic and lingering coughs, being a valuable demulcent, also antiseptic, and a nutritive of great value, especially useful in all wasting diseases, as in incipient consumption and other scrofulous affections. "Golden Medical Discovery" is a sovereign remedy in all catarrhal affections, whether affecting the nasal passages, the stomach, bowels or pelvic organs and the reason why will be learned by reading the little booklet noted above. Send for it now.

In chronic catarrh of the nasal passages, it is important that while taking the "Golden Medical Discovery" as the most effective constitutional treatment for this terribly distressing and most obstinate affection that the nasal passages should be cleansed two or three times a day by the free use of Dr. Sage's Catarrh Remedy, used according to the directions which accompany the same.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of the ingredients. The publication of the names of the ingredients on the wrapper of every bottle hereafter to be sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an "unknown remedy."

Every bottle of Dr. Pierce's Golden Medical Discovery bears the stamp of public approval. For the dealer to offer you something he claims is "just as good" is to insult your intelligence.

WILL HOLD REUNION

Pioneers Will Have Annual Celebration.

TAKES PLACE AT ARMORY

Seats for One Thousand Will Be Provided at the Banquet Table for Early Immigrants to the "Oregon Country."

Arrangements for the annual Pioneer celebration have been perfected, and June 14 selected as the day of reunion. While the order of the day does not differ in any way from that of other occasions, it is well for those who anticipate attending to bear in mind that they must provide themselves with badges beforehand, in order to be admitted to the Armory on the day of the gathering. Headquarters of the Pioneer Association will be in the rooms of the Oregon Historical Society, on the top floor of the City Hall, and applications for badges should be made there to George Himes, at any time between Monday, June 11, and 12 o'clock, June 14, the day of the banquet. Any one who was born in Oregon or came to the original Oregon Territory before 1869 is eligible to membership, no matter where he may reside at present. Special invitations will be issued to wives or husbands of pioneers on application, but no children will be admitted to the Armory on Pioneer day under any pretext. All the room is needed for the old folks on that day, and they are not to be crowded or bothered with the presence of outsiders.

Literary Programme Arranged.

All members are requested to be at the Armory at 2 o'clock sharp on the date of the reunion, Thursday, June 14, to hear the literary programme. At the close of the programme, which will not be long, there will be a social hour for the renewal of old acquaintances and the exchange of experiences of bygone days. This hour is one of the most enjoyable features of the Pioneer day, for it is then that the men and women who made Oregon what it is today live over the joys and hardships of the early days and fight the Indians again.

George Himes has worked faithfully to make this year's meeting a success, and there is not the least doubt in the world that every detail will be perfectly carried out. The programme, which is arranged promises to be most interesting. There will be good music by a popular band, and Rev. A. J. Huntaker, 1647, will offer the prayer. Mayor Harry Lane, whose parents and grandparents were among the most prominent pioneers of the Oregon Country, will deliver an address of welcome, the response to be made by the president of the association, John Minto, 1848, Adam Weir, of Olympia, Wash., ex-president of the Pioneer Association of that state, will make the annual address.

Annual Banquet for Pioneers.

After this programme comes one of the most important features of the day, and that is the annual banquet. This has always proved one of the greatest sources of enjoyment and entertainment which is offered on the occasion of the gathering in Portland each year. The big drillroom of the Armory is used for the banquet hall, and seats provided for 2000 guests. Mrs. C. M. Cartwright, who has been president of the Women's Auxiliary

of the Pioneer Association, again fills that office, and, under her able management and loving care, the wants of the aged visitors who will sit at the board will be well attended to. A final meeting of the auxiliary will be held at Mrs. Cartwright's home June 7, after which committees will be announced, but she states that there will be very few changes from last year, only those who are away being replaced with others. The women of Portland and vicinity who give Mrs. Cartwright such able assistance in this big undertaking make it possible to record a brilliant success each year, and make the hour spent at the table one of the happiest of the day.

TO TALK ON NEW ZEALAND

G. Spencer Clapham Will Speak at the Y. M. C. A. Meeting.

At the Y. M. C. A., G. Spencer Clapham, lecturer from Wellington, New Zealand, will speak today on "The Political Revolution and Progress of New Zealand." Mr. Clapham is thoroughly conversant with what has been going on in his native land and tells, with intense interest, of the political situation and social condition of New Zealand, and its effect upon the people. President Campbell of the State University, says that the universal opinion of the student body there is that Mr. Clapham was one of the most interesting lecturers who has ever visited the university. The Association Glee Club will sing, and the orchestra will play. This meeting is held in the Association Auditorium, at Fourth and Yamhill streets, at 2 o'clock, and is free to all men.

PIANOLAS SACRIFICED ALSO

The genuine pianola, sold only by Ellers Piano House, is sold the world over for \$250. It is the only instrument employing the ingenious phrasing device called the metronome. Tomorrow we commence work in deadly earnest in the Aeolian department. Our contract with the makers prevents the quoting of an open cut price on these so wonderfully and deservingly popular instruments, but come in and see. Every pianola and pianola piano must find a home before the sale ends, and our present reduced prices will do it. Ellers Piano House, 33 Washington street.

BOTH WILL BUILD

Traction Lines Are Ready to Begin Work.

AWAIT MAYOR'S SIGNATURE

United Railways and Willamette Valley Traction Companies Announce Ability to Begin Construction at Once.

Just as soon as the front-street franchise question is definitely settled, work will go ahead on the two trolley projects that are interested in the situation. The backers of both the Willamette Valley Traction Company and the United Railways Company believe that the action of the Council last week has practically settled things, and both are making preparations to commence work at the earliest possible moment.

"If the Mayor signs the ordinance Monday, we shall go to work Tuesday," declared W. D. Larabee, general manager of the United Railways Company last night. "All preparations have been made and we are ready to commence to build the line on Front street. The beginning will probably be begun on Macadam Road in South Portland, so that we shall get things in full working order before we strike the paved streets."

Prepared to Begin Work.

The Willamette Valley Traction Company is equally prepared to begin operations on its Salem line as soon as the city authorities give the word, and will construct what they claim will be the best piece of track in the State of Oregon. Light grades, slight curvatures, heavy steel, well-ballasted roadbed, together with heavy electric locomotives, claimed to be the most modern motive power in America, will all contribute to make the Salem line the equal, if not the superior, of anything in railroads in the Northwest.

Secures Rights of Way.

The Willamette Valley Traction Company's line from Salem to the Willamette River has been finally located and the rights of way secured. A steam locomotive for construction purposes at this end of the line, with a steam shovel, automatic dump cars and all kinds of construction machinery, have been ordered and are on the way to Portland. They will be here by the time work is started. Plans for the Willamette River bridge near Butteville are now being drawn, and will be forwarded to the Secretary of War within ten days.

POSED WITH ACHING HEART

MRS. PENNOYER ATTENDANT TO THE QUEEN.

Deserted by Husband and With Infant to Support, Takes Part to Earn Money.

PORTLAND BOY HONORED

Julian Joseph Awarded Silver Snydam Medal in New York.

Julian Joseph, a young Portland boy, who has made an enviable record in the world of art, has lately won new distinction by being awarded the Silver Snydam Medal at the National Academy of Design in New York. The work for which he was given this medal was a painting from the nude. Mr. Joseph will be remembered by the many art-lovers who became familiar with his pictures hung in the fine arts exhibit at the Lewis and Clark Exposition last summer, his "Pitiless Winter" and "Close of Day" being much admired for their warmth of tone and expression and fine execution. Several well-done sketches by this young artist were also hung in this exhibit.

Mr. Joseph is only 22 years of age, and is a Portlander by birth, but has spent the past four years studying in New York. He is a pupil of Frank Vincent DuMont, who considers him unusually talented. The mother of this young artist still lives in Portland, her residence being The Manito.

HOSPITAL WORK DOUBLED

Mother Mary Theresa Writes of Conditions in Providence, Oakland.

M. G. Munly, of this city, has just received a letter from Mother Mary Theresa, of the Providence Hospital, in Oakland, telling of the work done by that institution during the recent San Francisco disaster. Mother Mary Theresa was at one time a resident of Portland, and is well known here. Among other things, she says: "Our usual number of sick has been doubled. As our help is not increased, you can understand how much we are obliged to do for so many under our care and attendance.

No Sorority Pictures in Annual.

The annual issue of the High School Cardinal will not this year, as heretofore, contain in a prominent place the individual and group pictures of the members of the fraternities and sororities. When the recent agitation against the secret societies was raised by the Woman's Club, three out of the four societies of the High School decided that it would be expedient not to publish their pictures in the annual which is now being prepared. One sorority, the Omega Nu, however, had already had its pictures taken, and it was determined to continue the former practice. Principal Davis, however, without having any knowledge of the action already taken by the three fraternities, several days ago requested all the organizations not to present their pictures to the Cardinal editor, as before for publication. So now the Omega Nu girls are out the money they invested in pictures. Principal Davis says they shall not appear in the school annual.

Your Druggist Will Tell You that Murine Eye Remedy Cures Ears, Makes Weak Eyes Strong, Doesn't Smart, Soothes Eye Pain, and Sells for 50 cents.

POSED WITH ACHING HEART

MRS. PENNOYER ATTENDANT TO THE QUEEN.

Deserted by Husband and With Infant to Support, Takes Part to Earn Money.

The thousands of interested spectators who saw the attendants of the queen during the industrial parade of the "Made in Oregon" Exposition little imagined that one of them was the mother of three children and that she took part in the procession solely for the purpose of earning sufficient money on which to support herself and baby for the next several days. Mrs. Mabel Pennoyer is the name of the mother who acted as one of the attendants of the queen and she is the woman who shortly before the San Francisco fire was deserted by her husband, who kidnaped two of the children leaving her penniless, with the care of a 6-months-old baby.

Mrs. Pennoyer received \$2 for her participation in the parade which was the first money she had for days. Kind friends have assisted her as much as possible but she is in destitute circumstances and is unable to secure suitable work. It being only five months since the birth of her child and owing to the strain to which she has been subjected because of the desertion of her husband she is not strong and can not do hard work. She was paid \$2 yesterday which was sufficient for her to obtain lodging at the Canyon Hotel, but as soon as this mere pittance is exhausted she is at a loss where to go or what to do.

Mrs. Pennoyer is a nice appearing woman and made a very acceptable attendant. She stood by the side of the queen, who was seated upon the throne. An attendant stood at each side of Miss Gertrude Woodruff, the queen, and Mrs. Pennoyer was the taller of the two. She exhibited great courage during the trying ordeal, despite the fact that her heart was nearly breaking from sorrow and anxiety for the future of herself and children she gave no outward indication of her great emotions. Friday morning Mrs. Pennoyer called upon S. H. Friedlander

with the request that she be given work. She explained her pitiful condition and Mr. Friedlander made arrangements for her to take part in the parade, which was the best he could do for her. All of the young ladies who participated in the procession, including the various queens, were remunerated for their services.

Mrs. Pennoyer has received word that her husband and two children are now at Fort Worth, Tex. As soon as she obtains the money she will endeavor to secure the return of the children who are very young and not capable of providing for themselves. Word regarding the whereabouts of Mr. Pennoyer was received from the Chief of Police at Fort Worth. Mrs. Pennoyer has a mother in Omaha whom she plans to join as soon as her means will permit.

Play Ball at Sunnyside.

The Meier & Frank baseball team of Mount Tabor defeated the Ben Selling team, of Sunnyside, yesterday afternoon in a game of ball at Sunnyside, by a score of 21 to 8. But five innings were played.

Scrofula is eradicated and all kindred diseases are cured by Hood's Sarsaparila.
