TOO MANY SHINGLES

Washington Mills Will Close Down for Two Months.

NEW MARKETS ARE NEEDED

Output of the State Increases Each Year, So That the Temporary Cessation Barely Keeps

Up the Prices.

SEATTLE, Wash., Dec. 1 .- (Special.) Practically all the shingle mills of this state have agreed to close down between December 15 and February 18 to prevent an overproduction of shingles and a consequent demoralization of the shingle market. A portion of the Oregon mills have offered to-units with the producers of this state and meetings are in progress with British Columbia manufacturers to get them into the combination. A confer-ence with combination mills, which have a big shingle output, will follow. which

On top of the car shortage that has prevalled throughout the year, the floods have tied up shingle shipments during November until the stocks piled up at all the mili plants are so large as to be a serious menace to the trade. One mill is said to have 40,000,000 shingles piled in the open, exposed to damage by the weather, and it is impossible now to estimate the total stored under cover.

Aside from the car shortage and flood menaces, the increase in the num-ber of mills and the gain in production is a danger to the market that neces-sitates some curtailment. With the insitates some curtailment. With the increased output during the past year it is estimated by shingle authorities that the mills of this state can, within seven months, turn out the cedar shingles that will be consumed in a year's time in all the markets that Washington manufacturers now reach. The annual closedowns are under-

stood as merely a temporary expedient and a hard fight will be made to exploit new markets. But in the meantime the menace of overproduction and a depreciation in prices is so serious that shingle manufacturers are skeptical as to whether the Winter

shutdown will be sufficient. increase of 15 per cent is estimated to have been made in the capacity of Washington shingle mills during the past year. The seriousness of this gain is shown by the fact that an increase of 8½ per cent in the output is equivalent to a month's production. In other words, without the opening of new markets, each 8½ per cent increase in output means another month's closedown to prevent the

four months of curtailment in the shingle manufacture. For two Winter months the mills were shut down absolutely on a closing agreement. Another two weeks were added in May. Then during the Summer followed the

consideration of a closedown, brokers have offered to take all the stocks on

side, but the forestry bureau reports Of the west side mills not to exceed 20 ship green shingles, or those sent to a town kiln to be dried for the local trade. Practically all the mills are factors in the

EVERY COUNTY PAID IN FULL

Oregon Is Out of Debt, and Will Be Until Early Next Year.

SALEM, Or., Dec. 1.—(Special.)—For the first time in the history of the state every county has paid its state taxes in full. In the last three or four years the payments have been prompt and only two or three counties were delinquent and only for comparatively small sums. Today, however, when the last half of the state tax from the several counties became delinquent, a balance of accounts was struck and not a deliar was found to be delined. not a dollar was found to be due the Until a few days ago one county had not paid, but the County Treasurer remitted before delinquency started the accumulation of interest.

Though the finances of the state are in excellent condition and the state has not a dollar of debt, it is apparent that the treasury will be deploted early in 1907, and that for some time war-rants must be indorsed for want of funds and the state must pay interest thereon. No more state taxes will be due until April.

TACOMA, Wash., Dec. 1 .- (Special.)-The Pierce County legislative delegation met today and discussed the Speakership question at considerable length. The delegation was unanimous in support of Representative George T. Reid, but Mr. Reid advised the delegation that he had deficitely decided not to be a candidate. This declination was reluctantly accepted as final, and then the question of other candidates was gone over and it was the unanimous decision of the delegation that Representative J. A. Falconer, of Snoho-mish County, should be supported by Pierce County, Mr. Reid also advised that this be done. The delegation will therefore support Falconer actively and ask no pledges or committee appoint-

Falconer happened to be in the city today and was invited to attend the meet-ing. He assured the delegation that he would not accept the speakership if to do so he had to tie himself up with prom-ises and piedges. The only piedge he would make in the canvass was to select for the various committees the men he believed were best fitted and would best serve the state.

The fight for the Speakership lay be-tween Reid and Falconer, and with Reid out of the way Falconer will probably be elected by acclamation. The delegation will fight earnestly for the direct pri-
