# PROVIDES FUNDS FOR EXTENSIONS

St. Paul Road Finally Increases Capital Stock by \$150,000,000.

#### MONEY FOR PACIFIC LINE

Amendment to Articles Filed in Wisconsin-Officials Preserve Usual Secrecy, but Purpose of New Stock Is Evident.

CHICAGO, Dec. I.-(Special.)-The St. Paul Railway has provided funds for its extension to the Pacific Coast. At Madison, Wis., the St. Paul has filed amend-ments to its articles of incorporation in-creasing its capital stock \$150,000.000-or from \$107,838,360 to \$257,838,300. One-half of the new issue is specified as preferred stock, while the remainder is common. No statement as to the price asked for the stock, or intimation as to the purpose of the railroad company in voting the increase is given in the papers filed with the Secretary of State at Madison. Unofficially it was stated that the money was to be used in "building extensions," "making improvements" and "buying such equipment and real estate as the officials deem advisable."

#### Will Pay for Extension.

This was taken to mean that the new issue of stock is to be applied to the cost of constructing the extension from Glen-ham, S. D., to Seattle, A. J. Earling, president of the railroad, is absent from the city and other officials deny any knowledge of the increase in the capital stock. At the annual meeting of the stockholders on September 19 last, 759,887 of the 1,078,383 shares of stock were voted In favor of increasing the capital to \$250,000,000, which, it was said, was to be expended on the extension of the proposed line to the Pacific Coast. At this time the board of directors was authorized to place the stock on the market in such amounts as was deemed advisable, and it is assumed the reported issue to-day will be disposed of in that manner.

#### Maintain Same Old Secrecy.

The same secrecy that has characterized every move in the projected extension of the system to the Pacific Coast was maintained at the general offices of the rallroad today. All officials who would be supposed to have intimate knowledge of the proceedings refused to throw any light on the slutation. It is said, how-ever, in well-informed circles, that the increase is to be used in the construc-tion of the transcontinental line, which is the direct outgrowth of a quarrel over the traffic in the Northwest between James J. Hill and the Standard Oil crowd that controls the destinies of the

Sailor Tries to Blow Up Cruiser Fire in Dynamite Cargo.

VICTORIA, B. C., Dec. 1.-Advices were received by the steamer Ceylon Maru from Yokohama of an attempt to blow up the Japanese cruiser Iwate by a sailor, who was a prisoner on board. The seaman, while walking with guards, suddenly seized a lighted piece of rope and rushed to the six-inch magazine, which was in course of repair. The guards, was in course of repair. The guarus, rightened, stepped back and the sailor was breaking a powder case to apply the light when workmen seized him and dragged him from the magazine. The admiralty reports the cruiser narrowly escaped being destroyed by the man, who

has been imprisoned at Sasebo.

From Tokio news was received that the steamers Nippon Maru, America Maru and Hongkong Maru, now running to San Francisco from Japan, will transfer to the Japan-South American service to Chili, when the three 12,000-ton steamers now under construction are completed to take their place on the San Francisco route. Steamer Baron Ardrossan, which arrived at Yokohama from Antwerp with general rargo, had a narrow escape from destruction by fire when four days out from lingapore. Smoke poured from a hatch where some hundreds of tons of fish manure was stored with 40 tons of dyna-mite. The crew worked heroically, shiftmg the bags, though overcome often by suffocating smoke, Finally the fire was ncovered and the bucket brigade worked bke Trojans extinguishing the fire after to hours' hard work.

# DRAWS LINE AT ASSASSINS

Governor in Cuba Resigns Rather Than Reinstate Them

HAVANA, Dec. 1 .- General Aleman, the Moderate Governor of Santa Clara Prov-ince, in a letter in which he declared it was impossible for him to continue rein-stating Liberal Mayors and members of the city councils ousted by the Moderates in July, 1995, today tendered his resigna-tion to Governor Magoon.

He says that the elements now demand-ing office are identical with those guilty of many outrages and assassinations in 1903 and predicts that their restoration to power will result in grave disorders, even intimating that he himself may be in dan-

ger of assassination. General Aleman warns Governor Magoon that the former insurgents now seeking office constitute only a minority of the Province and urges him not to yield to

Governor Magoon accepted the resignation, but expressed regret that General Aleman had seen fit to resign rather than assist in securing the restoration of the city governments of the province, as he had agreed to. He points out General Aleman's inconsistency in acknowledging the justice of restoring the Liberals in certain towns and omitting to take the action for their restoration. General Aleman's successor has not been decided

# GETTING IN LINE FOR SENATOR

Low Pays Back Taxes and Makes racial fight. Government circles, however, hope to overcome resistance to the measure there.

NEW YORK, Dec. 1 .- (Special.)-It was announced at the Controller's office today that ex-Mayor Seth Low had paid to the city \$27,397.28 for taxes, which he had discovered that he should have paid in 1901, 1902 and 1903. Low's check was sent to the Controller by Edward M. Shepard, who, in 1901, advised Low as to his tax matters. Shepard, in a letter to Low, expressed sincere admiration for his highminded course.

Some politicians, when they learned that Low had paid back taxes for which he was only technically liable, and could easily have avoided, said he must be a candidate for something. The only office they could think of that Low might aspire to was that of United States Senator. But there has been no suggestion that Low desires to go to the Senate.

# ALL MEN TO VOTE IN AUSTRIA

Lower House Passes Universal Suffrage, to Socialists' Joy.

VIENNA, Dec. 1.—The lower house of Parliament this evening passed the sec-ond and third readings of the new uni-versal suffrage bill, which grants an equal franchise to every male Austrian over 24 years of age, who is able to read and write and has been a resident for at least a year in the place where an election is held. This entits the fight for uni-

tion is held. This ends the fight for universal suffrage initiated a year ago by the Social Democrats.

The Radical Germans made noisy protests at the bill, while the Socialists cheered loudly. The Liberals left the chamber before the division and there were no serious incidents.

In future the lower house of Parliament will consist of 516 members, among whom there will be 235 Germans, 107 Czeahs, 82 Poles, 33 Ruthenians, 24 Slavenians, 12 Serbe-Croatians, 19 Italians and 5 Roumanians.

5 Roumanians Universal suffrage deprives the great anded proprietors and chambers of commerce of privileges. The chief difficulty to be overcome was how to distribute the mandates among the various Austrian nationalities and the key was found finally by mutual concessions between the Germans and Czechs in Bohemia. It has been arranged that Bohemia shall elect been arranged that Bonemia snail elect 150 Deputies, of whom 55 shall be Ger-mans. It is expected that universal suf-frage will help to soften the national sen-sibilities and gradually transform the national parties into economic divisions.

The upper house is not inclined to accept the bill, the peers demanding two votes for all married men over 35 years of age. Rejection of the bill by the upper house will mean a renewal of the bitter

REDUCTIONS WILL PREVAIL BUT A FEW DAYS LONGER, FOR SALE MUST END WHEN NEW SALESROOMS ARE COMPLETED - FACTORY COST ON EVERY PI-ANO IN STOCK.

Radical Measures Adopted in Order to Keep Constantly Arriving New Stock Moving-Hundreds of Buyers Have Already Taken Advantage of the Unusual Inducements-Chickerings, Webers, Kimballs, and Many Other Equally Fine Makes Included. Saving of \$100, \$150, Yes, Even \$200, on Some of the Fine Instruments Now Possible-Comes at a Time Most Favorable for Christmas Purchasers-Sensational Selling Will Be Done in the Next Few Days. New Quarters Now in Hands of Plasterers, Painters and Decorators, and Will Soon Be Finished,

A glance at the new quarters of Ellers Piano House, at Park and Washington streets, as one passes the large new plate windows, shows that the work of remodeling is being accomplished with the greatest haste. A few days ago the carpenters had full sway, but these have practically completed their most important work and have given way to the plasterers, electricians, painters and decorators.

A better idea is now gained of the ex-tensivenes and completeness of the lim-

A better idea is now gained of the extensiveness and completchess of the improvements, as the work progresses. The elevatorshaft has reached a point in its construction where some conception is had of the size of the fine elevator which is to be installed, which will take the patrons of the store to the commodious second floor. This car will be as large as an ordinary room, of the latest and safest type, and up to the minute with every improvement in that line.

On all three floors—basement, first and second—the mechanics are now fast bringing order out of the chaos, and it will not be long before the firm will at last have its new quarters ready for entire occupancy, after months and months of delay and setbacks.

But the sale of pianos at factory cost will be continued only while this chaotic condition exists. There is not yet enough available space to house the new instruments arriving almost every day in carload lots from Eastern makers. These new planos were contracted for months ago, and there was, of course, nathing else to do but accept them and dispose of them to the best possible advantage. But one object has been aimed at in this sale, and that is to keep the planos moving. Realizing that piano buyers would not visit a store in such condition as has prevailed for the past couple of weeks in particular without unusual inducements, and appreciating that the arriving planos from the East are accumulating in large numbers, it was decided to cut out all profits and sell at absolute cost until present adverse conditions were overcome.

present adverse conditions were overcome.

Such bargains as are offered now come
but very few times in a lifetime. Now
and then, here and there, planes of somewhat uncertain reputation are sold at
apparently ridiculous prices, but it is not
often that one can visit the leading plano
house of the city and choose from an entire stock, selecting either down-town or
at the wholesale warehouse, any one of
a number of standard makes, and buy the
instrument at just what it cost at the
factory, plus the bare addition of freight,
and, further than that, buy it on practically any terms they wish to make.

Eilers Plano House during this emergency sale will grant almost anything in
the shape of terms—a few dollars down
and a few dollars a month—as low as \$
50° \$6° on some instruments, and as low as
\$10. \$12° or \$15° on some of the high-grade,
most desirable lines, and when it is remembered that these terms prevail on
prices which represent absolute factory Mo. \$12 or \$15 on some of the high-grade, most desirable lines, and when it is remembered that these terms prevall on prices which represent absolute factory cost, it can readily be seen that the opportunity is a most extraordinary one. Hundreds of pianos have been sold during the past week—many of them for Christmas presents—many to those who had not thought of purchasing for a year or more, but who could not resist the temptation to take advantage of these most remarkable inducements. And it is safe to predict that the next few days will witness even more sensational selling, for those who have already bought are telling their friends. But this is exactly what Eilers Piano House desires, for there is not room to house another instrument as the situation stands, and the constantly arriving shipments must be taken care of as they come along. So every prospective piano buyer should make it a point to drop in and see what a favorable chance this really is to secure a fine piano for little money. But do not delay. The sale will end the very day that the improvements are completed, and that day is fast drawing near. So, by all means be prompt. 353 Washington street, corner of Park, is the new number of the comine Birger, Better and Busier Eilers Piano House.
