"An old man's life can be a happy one if he is well, and I have been just as sctive and strong up to a few years ago as I was during the war in the South. My family and friends are all gone, but I am cheerful and hope to live some time yet. I was born in what is now Unity Corners, N. H., in 1797.

"I have been pretty well all my life, but when I began to grow weak my doctor told me it was old age and gave me Duify's Pure Mait Whiskey. I am taking that medicine now and it is both medicine and nourishment to me. I cannot eat a hearty meal the way I used to, but Duify's keeps me up and going. I would not be alive without it."

Grissip hurled from the moving train after having been beaten and badly wounded by the robbers. The State Department approves Mr. Fulton's idea, but believes better re-Fulton's idea, but believes better results could be obtained through treaties with the various countries, including Japan. The department believes that under treaty agreements it would be easy to break up the work of immigration companies, as some countries would then be obliged to see as the intention of the administration is

that none of their citizens are allowed to leave under such circumstances. Department officials think treaties could be negotiated in a short time. Mr. Fulton has no objection to treaties instead of a bill in Congress, and will work for whichever plan meets with most favor. He is after results.

When at the White House today Mr. Fulton told the President he did not believe Consul-General H. B. Miller had made the statements attributed to him in the alleged San Francisco interview. Before he left Oregon the Senator talked with Mr. Miller at length on the talked with Mr. Miller at length on the Japanese situation, and Mr. Miller's sentiments then expressed were the direct opposite of what is charged against him by the press dispatches. However, to satisfy the department, Mr. Miller has been called on to explain and, if he declares the interview was false, that will end the matter.

Japan No Longer Agitated About California Schools.

WASHINGTON, Dec. 1.-"Japan has every confidence that President Roosevelt will adjust the Japanese California school controversy entirely to the satisfaction of both nations. Feeling this confidence, Japan has ceased to be agitated over the situation. The Japanese newspapers are emphatically moderate in all their notices of the affair and, so far as the Japanese Nation is concerned, there is absolutely no reason for the revival of

the newspaper notoriety in this country The Associated Press was today authorized to quote the Japanese Embassy as above. It was further said that there were no new developments in the situation of any character; that the matter was in the hands of President Roosevelt and his willingness and ability to act was entirely relied upon.

NO CONCESSIONS TO JAPAN

Separate School Question Arouses Coast and Southern Senators.

CHICAGO. Dec. 1.—A dispatch to the Tribune from Washington says:

If President Roosevelt and Secretary Root persist in the position they seem inclined to take regarding the right of the Federal Government to make treatles which will bind states and municipalities in the conduct of their local affairs, haif a dozen able-bodied hornet's nests in the Senate will break loose early in the Senate will break loose early in the

session.

Senator Flint and Benjamin Ide Wheeler, of California, both called at the White House yesterday to see the President and to advise him from different points of view that any interference by the Federal Government or any assumption of a right to interfere with the school system of San Francisco or any other city would provoke a riot.

provoke a riot.

Senator Flint declared that the Federal Government would make a great mistake, because there was a disposition in San Francisco to pass a local ordinance limiting the age at which pupils will be received in the public schools. This would do away with most of the complaint, because a great majority of the Japanese students are adults, with whom white parents are not willing to have their

oung children associate. Secretary Metcalf has come back from the Coast, intimating that any attempt by the United States Government by treaty or otherwise to regulate the schools of any city on the Pacific Coast would be resented instantly, and could be en-forced only by the use of troops.

To complicate matters, Southern Sena-tors are arriving in Washington in a per-

that none of their citizens are allowed tirely mistaken, because the President and Secretary Root have nothing more in view than the maintenance of friendly relations with Japan, a nation with which we have traditional ties of friendship, and which is just now particularly valuable to us in a commercial way.

While the administration is th theories to the negro question, it none the less is true that the situations are so closely concerned that if the Japanese closely concerned that if the Japanese by the power of the United States can be put in the public schools in San Fran-cisco in spite of the local law, a full-blooded negro, with a certificate of citi-zenship from France or Germany or Great Britain—and there are thousands of such—could be forced into the white schools of Washington, Charleston, Atlanta or New Orleans. The result is that the Southern and Pacific Coast Senators are rapidly getting together. They will defeat any measure in the future which gives the allen citizens the right to attend local public schools in spite of local laws.

FRENCH TALK WILDLY OF WAR

Predictions Japan Will Fight America Denied by Diplomat.

PARIS. Dec. 1.-Great interest is manifested here in the subject growing out of the exclusion of Japanese children from the public schools of San Francisco. Some of the French newspapers take an alarming view of the affair, owing to sensational statements cabled reporting recent arrivals from the Far East as saying that a clash between Japan and the United States is inevitable. The Japanese Legation today issued a reassuring note declaring that the paroxysm of popular anger as raging in Japan was greatly exaggerated, and saying:

"Naturally, it is a matter of national pride that our countrymen be permitted to enjoy the rights guaranteed by treaty, but we appreciate the local conditions, and have the fullest confidence in the ability of the Washington Government to arrange with California for a recognition of our rights. There is no thought of war. The best proof that the situation is not regarded in Japan as being grave is the fact that the Legation here has not received any cable messages on the subject. Had Tokio been preparing to make a demonstration or to do anything of international importance, the Legation would have received warning instruc-tions."

Germany First to Agree.

BERLIN. Dec. 1.—In answer to reports published abroad that Germany objected to the South American republics taking part in the peace conference at The Hague, it is officially stated that when President Roosevelt proposed to postpone the conference to 1907 because of the Pan-American Congress at Rio Janeiro, Germany was the first country to agree to this.

In Granting New Trial Under Sherman Law, He Holds Three Associations Combined to Restrain Trade.

PHILADELPHIA, Dec. 1 - On other ground that incompetent evidence had been allowed before the jury, Judge Arichibold, in the United States Court of Appeals, today ordered a new trial in the case of C. G. A. Loder, a druggist of this city, who secured a verdict of \$20,738 against the National Druggists' Association, the Philadelphia Wholesale Druggists' Association and the Philadelphia Retail Druggists' Association on the allegation that a conspiracy existed among the defendants to ruin his business in that they refused to sell him goods because he

Judge Archibold in his decision declared there was an understanding among the organizations involved to maintain prices and otherwise control the trade in violation of law. Continuing, Judge Archibold

"If co-operation and concerted action such as this does not make out a com such as this does not make out a com-bination and conspiracy in restraint of trade, it is difficult to see what would be effective to do so. The combination is clear and has been demonstrated. So also is the restraint of trade. That, in-deed, was the purpose of it. It is con-idently asserted by those having the right to speak that the cost to the coun-try of the triportite agreement, amounted ry of the tripartite agreement amounted to \$9,000,000 in six years. The general pub-lic, as usual, has thus been made to foot the bill. That this constitutes, in law as in fact, an unlawful combination in restraint of trade within the meaning of the act there can be no doubt."

Government Relieves Gurko From Care of Famine Fund and Quiets Clamor-Democrats Driven by Repression to Violence.

ST. PETERSBURG, Dec. 1.-Lidval, the contractor who is charged with fraud in connection with the purchase of grain for famine relief, and his register, the ostensible destination being Carrolton, Mo. By diverting the shipment at Kansas City he secured a agent, Sotskich, have arrived here to rate of 5 cents a hundred pounds less than should have been paid. terior Gurko, who is accused of complicity with Lidval, has at his own re-quest been relieved of his duties of Director of Supplies for the famine

Lidval will face the investigation in defiant mood. He declared to the Associated Press tonight that the con-tract was perfectly regular and that a thousand carloads of grain had already been delivered, valued at over \$200,000, the amount advanced to him. The delay in supplying the remainder, said, was due to the inefficiency of the

railroad arrangements. He gave no satisfactory explanation as to why Gurko was entrusted with a great contract without security for its

prompt performance.

The prompt suspension of Gurko and the appointment of a non-bureaucratic commission to investigate the case has had a reassuring effect on public opinlon.

With the approach of the elections the measures of the administration against the Constitutional Democrats are being sharpened. The party litera-ture is being confiscated and its com-mittees and other societies have been driven to underground activities, such as bomb-throwing. Leaders of the party claim that it is thriving under this repression, but it has lost conments, which are allied with the

Peaceful Regenerationists.

A conference of the Governors of provinces is sitting at St. Petersburg to discuss methods for controlling the parliamentary elections in the interest of the Moderate parties. The Congress of Nobles today passed a resolution that it is necessary to change the election laws to act as a basis and institute a Parliament of the model of the pre-revolutionary three estates of France.

Some of the natives they met had

never seen a white woman before, and were much astonished at the sight of Mme. Cabra. One chief said he never believed white women existed, and when he was asked how he imagined the race was propagated, he said, "I had not thought of that." Madame Cabra has now returned to Belgium after a journey that occupied 18 months.
