Distinguished Guests Attend 101st Annual Banquet of New England Society-Bishop Lawrence Delivers an Address.

NEW YORK, Dec. 22.-With three Gov ernors, two college presidents, an Admiral of the United States Navy, a bishop and a distinguished explorer as its principal guests, the New England Society o New York tonight celebrated its loist an niversary at a banquet at the Waldor Astoria. Among the guests were John McLane, Governor of New Hampshire; Henry Roberts, Governor of Connecticut; William T. Cobb, Governor of Maine; Dr Edwin A. Alderman, president of the University of Virgina; Right Rev. Dr. Willresity of Virgina; Right Rev. Dr. Whit-iam Lawrence, bishop of Massachusetts; Robert E. Peary and Rear-Admiral Joseph B. Coghlan, United States Navy. The toast, "Forefathers" Day," was responded to by Bishop Lawrence. "Sec-tionalism and Nationality" was the topic property of the National Pears. assigned to Dr. Alderman, Captain Peary told of the "Farthest North."

Church and State in America. Bishop Lawrence said:

Religion is in the hearts and lives of the people and in the churches. The state has nothing to fear and everything to gain by the recognition and protection of religion

the recognition and protection of religion in the people.

What the people and the state have to stand for is this: There shall be no meddling by prelate, priest, minister or layman, whether from Bome or Boston or Washington, whether Protestant or Romanist or Mormon, with the policy, efficers, taxes, schools or legislation of villages, city, state or Nation. And as our President has restated, there shall be no meddling by city, state or National officials, nor any inducements for meddling, with the work, policy or faith of any church whose teachings are not injurious to the morals of the people.

sity of popular government is again cogag-ing the thought of this republic, because mightler forces than war are vitalizing this cid issue under new form. Those who under, stand it best and love it dearest and live it fight for it longest are those who live in the state where devotion to it once had power to separate them from a country they power to separate them from a country they had fought to found. There is nothing stranger or more interesting in political history than the recurrence of this hest-loved dogma of the South as necessary to Federal union and human freedom. If, as Mr. Root thinks, the struggle is on between the growing power of the Federal Government and the decreasing authority of the states, you can count on the Southerner to be on the side of maintaining the just balance, for no American sees more clearly than he just what is the vital spot in the liberty of a state. I interpret Mr. Root's speech as a prophecy and a warning rather than as a piece for centralization. The drift that way is unquestioned. Will the states let the drift continue?

Race Problem in South.

en race riot occurs, there are outerle heart. I dare to say that the people of the South are handling the problem of the African as wisely as any people could hope to do in the first generation of American freedom and in a time of human ferment and struggle in all lands. Upon the South rests the burden of the African and the problem of the integrity of the race, as upon New England rests the burden of assimilating the discontented and aspiring of all lands. Will the age-long antagonism between New England and the South ever end? They are people of long memories, of ediff necks, and perhaps will never its down in lion-and-lamb-like fashion, nor is that necessary or desirable for the stability of the republic or the grandeur of its ideals. Fate once drove them to war for their ideals of Americanheart. I dare to may that the people of the them to war for their ideals of American

BURGLAR WOUNDS WATCHMAN IN LEG AND FLEES.

Caught in Act of Breaking Into Seller's Store, He Fires and Me-Mullin Drops.

Henry McMuilin, a Pinkerton detective, acting as private watchman for the wholesale crockery store of M. Seller & Co., at Fifth and Pine streets, surprised a trio of burglars attempting to break into the establishment at I o'clock this

morning and was shot in the left leg as the thieves made their escape.

McMullin was making his customary rounds and came upon the men at their work. They shot without warning. Three shots were fired before McMullin could set his arm into action and one of the get his gun into action and one of the bullets lodged in the fleshy portion of his left leg about six linches above the knee. He fell and the three men leaped over his body and dashed toward Sixth street. Special Policeman Jack Houre, who was standing at Sixth and Burnside, caught sight of a man in full flight and called upon him to halt and as the fugitive gave the command no heed, he fired a shot, the command no heed, he fired a shot, which served to bring the man up and the warning proved effectual. The man proved to be Barney Lanahan, and easily proved that he had no connection with the affair and was allowed to go.

Hoare was the first man to assist the injured Pinkerton and he soon received help from several officers sent to the scene by Captain Balley, who heard the firing at the police station, several blocks

PORTLAND SPORTS LAY BIG WAGERS ON GLADIATORS.

Event Pulled Off at "Twelve-Mile House," and Police Are Hoodwinked by Promoters.

The latest sensation in the Portland sporting world was a genuine old-fashioned cocking main which took place at "Twelve-Mile House" last night. During the past week invitations have been quietly sent out to various business men of Portland. So quietly was everything arranged that the police had no inkling of the proposed event. About midnight last night automo-

biles carrying large loads of men quietly left the city and soon the "honk! nonk!" of dozens of machines was startling the peaceful rural dis-tricts. Fully 150 sports had assem-bled at the designated spot, and a hundred game cocks were taken from the different cars.

Quickly a pit was formed for the occasion and the two birds listed for the preliminary bout were equipped with silver gaffs and the big event was on. The spectators, among whom many Portland professional men, gathered around the inclosure to witness the

The betting grew stronger as the deadly gaff laid low bird after bird. One of the feathery gladiators One of the feathery gladiators was pro-nounced dead three times, but revived each time and continued the battle till finally a lucky blow was delivered by him which caught his antagonist in the neck and killed him instantly. Twenty fights were pulled off, some of them being long-drawn-out affairs, while in other cases a chance stroke ended the career of one of the fighters. All the birds were imported for the main, but in spite of all this, very few were aware that the capit was to take place. In addition to of all this, very few were aware that the event was to take place. In addition to Portland professional and business men, a large number of farmers from the surrounding country were present to witness the novel spectacle.

Every precaution was taken to hoodwink the police, and the event went off exactly as planned. At the approach of daylight the crowd began to disperse and in the gray light of dawn the sportladen automobiles crept back to town.

FIREMEN GIVE WARNING

Refuse to Let Engineers Be Forced to Join Engineers' Brotherhood. Will Tie Up Harriman's Southern Line.

PEORIA, III., Dec. 22.-Grand Master John J. Hanrahan, of the Brotherhood of Locomotive Firemen and Engineers, night issued an ultimatum to E. H. Harriman, president of the executive commit-tee of the Southern Pacific Railroad, notifying him that the engineers and fire-men of that road will strike at 4 o'clock on Sunday afternoon. In his ultimatum Mr. Hanrahan Says:

"Eighty-five per cent of the switch engineers on the Sunset Route are members of this organization and a considerable number of engineers in the road service are also members, and they, with practically every locomotive fireman in the ser-vice, are determined that your company shall not force them to withdraw from this organization and join the Brother-hood of Locomotive Engineers, in order to have their grievances adjusted. Every of-ficial of the company is thoroughly famil. lar with all the details of this matter. and it may be that there is some ulterfor purpose on their part in bringing about this strike.

From information received by the grand odge officers of the Brotherhood here it is said that nearly 2000 men will be affect the order to strike, which was issued after the system had been polled and the Southern Pacific officials had refused to accept the offer of the Brotherhood to submit differences to arbitration

What Sulphur Does

For the Human Body in Health and Disease.

COSTS NOTHING TO TRY

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us our daily dose of sulphur and melasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and, mind you, this old-fahioned rem-edy was not without merit.

The idea was good, but the remedy was crude and unpalatable, and a large quantity had to be taken to get any Nowadays we get all the beneficial

effects of sulphur in a palatable, con-

centrated form, so that a single grain is far more effective than a table-spoonful of the crude sulphur. In recent years research and experiment have proven that the best sul-phur for medicinal use is that obtained from Calcium (Calcium Sulphide) and sold in drug stores under the name of Stuart's Calcium Wafers. They are small chocolate coated pellets and con-

Our grandmothers knew this when they dosed us with sulphur and molasses every spring and fall, but the crudity and impurity of ordinary flowers of sulphur were often werse than the disease, and cannot compare with the modern concentrated preparations of sulphur, of which Suart's Calcium of sulphur, of which Stuart's Calcium Wafers, is undoubtedly the best and
