

WE HAD TO WAIT  
YEARS FOR PATENTS

Homesteaders Find Only Blue  
Or Book in Present  
Congress.

NO LAND LAWS REVISION

President's Suspension Order on  
Entries Will Not Be Supported  
by Appropriation to Rush  
Special Agents' Work.

OREGONIAN NEWS BUREAU, Wash- ington, Feb. 2.—There will be no revision of land laws this session, neither will Congress pass Senator Carter's resolution overturning President Roosevelt's order suspending all public land entries until they can be examined on the ground by special agents. At the same time, the Senate will refuse to increase the appropriations for special agents to facilitate these entries. The consequence will be that there will be unprecedented congestion in the General Land Office and Interior Department and entries pending may not be patented for years, unless some relief is offered by the next Congress. The President's order was intended to force Congress to so modify the land laws as to minimize chances for fraud but the House Public Lands Committee reported against this proposition, making legislation impossible. The settlers will suffer in consequence of this deadlock. Senator Hays brought today into effect a bill providing that hereafter homesteaders shall not be required to live on their lands during December, January, February or March. The bill stipulates that their absence from the land during those months shall not be deducted from their period of residence.

ALASKA DELEGATION FIGHTING  
Waskey and Cale Hint Governor

Hoggatt Is Plutocrats' Tool.

OREGONIAN NEWS BUREAU, Wash- ington, Feb. 2.—The Interstate Commerce Commission constrains the railroad rate law as giving it jurisdiction over the railroads of Alaska when handling freight from the states or freight into or from the Yukon over the White Pass road. The commission is not absolutely certain it has jurisdiction but it wishes to exercise such power unless the courts rule otherwise. Delegates Waskey and Cale of Alaska, have taken up arms against Governor Hoggatt of their territory and have become entangled in such a bitter fight that all Alaska legislation is likely to be lost in the shuffle. The Governor, who has the president behind him, vigorously opposes the proposition to give Alaska territorial government, while the delegates are insisting that Alaska be governed as Arizona and New Mexico. In their bitterness the delegates pointedly intimated that Hoggatt is standing in with the J. P. Morgan and Guggenheim interests, who now are the Secretary of the copper regions of Alaska and are opposed to territorial government, as it would impose heavy taxes upon them which they now avoid.

Proposed Body to Handle Indian  
Holdings Includes President.

WASHINGTON, Feb. 2.—The creation of a new corporation to take charge of the operation of mineral and oil lands of the Choctaw and Chickasaw Nations, with the President of the United States as the ex-officio head is the object of a bill introduced today by Senator Champ. This is in line with suggestions made by Indian Commissioner Leupp in his annual report and the plan has been approved unofficially by Secretary Hitchcock. It is proposed that the corporation shall be known as the Choctaw, Chickasaw Oil, Coal & Asphalt Land Company and that it shall have the right to dispose of coal, oil and asphalt lands and deposits in the Choctaw and Chickasaw Nations for the use of the persons whose names appear on the citizenship rolls of these Indian tribes. It is provided that in addition to the President of the United States as ex-officio president of the corporation, the Secretary of the Interior, the state treasurer and transfer agent, and the Commissioner of Indian Affairs the ex-officio secretary, and that these officials shall be members of the board of directors. In addition, there shall be one member of Choctaw and one of Chickasaw blood, elected by the tribes. The principal officers of the corporation would be in the office of the Secretary of the Interior.

WANT COAL AREA KEPT OPEN

Public Lands Senators Oppose Arbitrary Royalty System.

WASHINGTON, Feb. 2.—A majority of the Senate committee on public lands does not approve the President's plan of holding on to the remaining public coal lands, permitting their development only under the leasing or royalty system. Early next week a special sub-committee will confer with the President and the members of the Public Lands Commission, in the hope of agreeing on a compromise that will put a stop to the coal land abuses and yet permit legitimate interests to acquire title to the lands. Secretary Garfield is not wedded to the leasing idea, but is anxious to secure some change in the law that will prevent a monopoly of Western coal lands and prohibit the present owners from cornering the market and unreasonably boosting prices.

PLAYS POLITICS  
WITH TRACTION

Mayor Dunne Blocks Way to  
Settlement of Chicago  
Troubles.

TOO VALUABLE AS ASSET

Refuses Assent to Amicable Agree-  
ment Made by Council and In-  
sists on Referendum—Pre-  
fers Endless Litigation.

CHICAGO, Feb. 2.—(Special.)—Chicago's struggle for better streetcar service met its hardest blow today, when Mayor Dunne practically declared that he would not support any settlement traction ordinance, but would throw all his efforts in the direction of condemnation of proceedings. The Mayor said flatly that he would not support any kind of a settlement ordinance, no matter how satisfactory to him it might be, until after it had been acted upon by the City Council. It was whispered that after a conference yesterday with several of his radical advisors the executive had concluded that his successful political course lay in "sticking out" for extreme measures. While the Mayor declined to say out and out today that he would seek to prosecute condemnation proceedings, he expressed the confident opinion that the question would not only be placed on the little ballot, but also would be carried safely at the April election. His attention was called to the fact that nearly two years ago he promised municipal ownership of the traction lines before the "snow flies," but he answered: "My record speaks for itself. I have not been a politician since I was a political asset to be settled satisfactorily."

MILLIONS BACK DELIVER

STRONG SYNDICATE FORMED  
FOR CANAL CONTRACT.

John B. McDonald Said to Be Mem-  
ber, Though Personnel Is De-  
clared Still Unsettled.

WASHINGTON, Feb. 2.—Announce- ment was made early this evening that William F. Oliver, of Knoxville, Tenn., the lowest bidder for the contract for digging the Panama Canal, had associated himself with a number of the most prominent contractors in the country, including John B. McDonald, of New York City, who constructed the Subway there. These names were given to the press as representing the association, which with Mr. Oliver, would undertake to do the work under Mr. Oliver's bid. Some time afterward Mr. Oliver received a telephone message from New York and left for that city, and his secretary issued a statement that the announcement made earlier in the evening was premature, and that the question of who would form the syndicate of contractors was still unsettled. The names of the contractors as originally furnished were as follows: John B. McDonald, of New York, who built the Portsmouth drydock, the Chicago and Washington Postoffice buildings and other Government work amounting to over \$50,000,000; W. H. Sayre, of the International Contracting Company, Washington, D. C.; John R. Garrihan, of the Excavating Company, Boston; and H. L. Walsh, of the Walsh Contracting Company, Davenport, Iowa. Frederick C. Stevens, of Albany, N. Y., and Washington, who has again undertaken the financial end of the deal, had an interview with Secretary Taft today, but neither the Secretary nor Mr. Stevens would announce the result.

NEW YORK, Feb. 2.—John B. McDona-  
ld, when shown tonight dispatches from  
Washington about his association with  
William F. Oliver on the Panama Canal  
contract, said:

"Mr. Pierce and I, according to the  
present plan, would be the general con-  
tractors on the work, associated of course  
with Mr. Oliver, of Knoxville. Mr. Mc-  
Donald and I are two men who have been  
checked by Mr. Oliver. I do not know  
what their part is to be. Messrs. Gerry  
and Sayre are designers and would have  
charge of that feature. I myself would  
spend as much time on the isthmus as  
might be necessary."

OFFERS ARMY OF LABORERS

Italian Contractor Would Furnish  
30,000 Men for Canal.

KINGSTON, Jamaica, Feb. 2.—Signor  
Gusman, a contractor of Milan, Italy,  
left here yesterday for Colon on the  
steamer Prinz Eitel Friedrich, Signor  
Gusman is said to have arranged con-  
tracts with 30,000 Italian and Spanish  
laborers to work on the isthmian canal  
at reasonable wages, and that he was  
prepared to land them on the isthmus  
within six months. He believes that the undertaking can  
be completed with the labor at his  
disposal. His object in visiting the  
isthmus is to offer to Chief Engineer  
Stevens this army of workmen.

Fever Cases Continue to Lessen.

CHICAGO, Feb. 2.—The scarlet fever  
epidemic is abating, the number of new  
cases today being 113, as compared with  
390 for several days past. The disease is  
still confined largely to the northwest  
section of the city.

MOB BENT ON VENGEANCE

Howls for Life of Negro Who Has  
Been Spirited Away.

GLOBE, Ariz., Feb. 2.—A mob of 1000  
people surrounds the Gila County Jail  
in this city, intent upon lynching Wil-  
ham Baldwin, the negro charged with the  
murder of Mrs. Morris and her  
child at Roosevelt. The prisoner has been spirited out  
of the jail and hidden by the Sheriff,  
who gave the keys to the leaders and  
allowed them to search the building. The mob dispersed about 1 o'clock this  
morning. The negroes in town, fearing  
race disturbances, have been arming  
themselves all day. One store is selling  
all its guns and ammunition to negroes.  
Next a negro is to be taken on the streets  
tonight. The preliminary hearing of  
Baldwin has been set for Monday.

CAMPAIN HARD ON DRYDEN

New Jersey Senator Made Ill by  
Fight for Re-election.

WASHINGTON, Feb. 2.—Senator John F.  
Dryden, of New Jersey, who has been  
made ill by the strain of the hard cam-  
paign he has conducted in the Sena-  
torial fight. Although his family physi-  
cian, Dr. Hill, was summoned by the  
family, it was announced tonight that  
Senator Dryden is not seriously sick.

Admiral Mead Will Retire.

WASHINGTON, Feb. 2.—Orders were is-  
sued from the Navy Department plac-  
ing Rear-Admiral W. W. Mead on the retired  
list February 8.

The Chinese, by mixing coal with the ore,  
make iron directly.

HE CHAFES AT DELAY

Harry Thaw Impatient to Have  
His Trial Over.

NEW YORK, Feb. 2.—His trial having been adjourned over from yesterday to Monday, Harry K. Thaw sat impatiently in his cell at the Tombs today, regretting that some arrangement could not be made to avoid the week of trial in his battle for life and liberty. Thaw's attorneys were busy today rounding out the mass of testimony which the defense will put before the jury. None of them would venture a prediction as to how much of the evidence they will be required to present. They will be ready to proceed Monday, but were inclined to doubt that District Attorney Jerome would find it possible to introduce the direct testimony the state has to offer within the two hours and a half of the Monday morning session, as he said.

WILL COVER THREE WEEKS

Prosecution May Call May Macken-  
zie to Prove Threats—Defense  
Will Resist Efforts to  
Change Jury Again.

NEW YORK, Feb. 2.—The trial having been adjourned over from yesterday to Monday, Harry K. Thaw sat impatiently in his cell at the Tombs today, regretting that some arrangement could not be made to avoid the week of trial in his battle for life and liberty.

WIND AND ZERO TEMPERATURE

Chicago Gets Dose of What Prairie  
States Endure.

CHICAGO, Feb. 2.—With a gale that at times reached 50 miles an hour, and the mercury dropping steadily toward the zero mark, Chicago today experienced the most uncomfortable day of the winter. The wind whirled in gusts in the street and broke storm windows. At 5 o'clock the mercury registered 3 above zero and the wind was blowing 40 miles an hour.

Severe Storm in Prairie States.

ST. PAUL, Feb. 2.—Reports from all parts of the Northwest say that the wind and snow storm of last night was the most severe of the winter. A Winnipeg special says that the railroads are blocked, and only one trans-continental train has arrived. In St. Paul the weather is clear, with a strong wind. The temperature is 10 below zero. Drops of 40 to 50 degrees are reported from various parts of the Northwest.

Sudden Blizzard in Minnesota.

FERGUS FALLS, Minn., Feb. 2.—Fri- day, the finest day of the winter here, was followed last night by the worst blizzard of the season. The mercury fell 41 degrees. The wind was terrific and ordi- nary traffic is practically suspended, and trains from the West are indefinitely late.

High Water at Vicksburg.

VICKSBURG, Miss., Feb. 2.—The river gauge today marked 47.6, a rise of two-tenths of a foot in the last 24 hours. The weather is clear and cold, and less apprehension is felt for the safety of the levees. As a precaution, however, 150 convicts have been sent up the river to a point where they will most likely be needed in an emergency.

By utilizing its water power for electric energy Sweden may become a steel export- ing country.

MISS IDA FITCH DISAPPEARS

Mother Says She Is Willing to Testi-  
fy, but Spirits Her Away.

PITTSBURG, Feb. 2.—Miss Ida Fitch, who may be wanted in New York in connection with the Thaw case, left Pittsburgh suddenly tonight. The company of her mother. Where they have gone is not known. This afternoon Mrs. Fitch stated that while none of District Attorney Jerome's representa- tives had asked her to go to New York to testify against Thaw, she and her daughter would willingly appear if wanted. Former County Detective Robert G. Robinson, who investigated the Fitch-Robinson incident, is now in New York for the purpose, it is said, of refuting any testimony offered by the Fitch family in the event that they appear to testify.

Lawyer's Plans of Battle.

This statement was taken to indicate that the District Attorney intends to open the prosecution with the bald establish- ment of the fact that Thaw killed White, and the fixing of the time and place. It is thought that he will put on three or four witnesses, and that one or more of them, probably the policeman to whom Thaw surrendered and the Sergeant of the Tenderloin Station, who took Thaw's pedigree, will testify as to Thaw's apparent sanity.

JUROR STEELE FAMILY FRIEND

Prisoner's Father's Agent for Years  
in North Dakota.

MINNEAPOLIS, Feb. 2.—It has just been learned here that Wilbur P. Steele, one of the jurors in the Harry K. Thaw murder case in New York, was a close friend of the late Thaw's father.

PIMPLES, BLACKHEADS

Get Rid of All Your Face Troubles in a Few Days' Time With the Wonderful Stuart's Calcium Wafers.

Trials Package Sent Free. You cannot have an attractive face or a beautiful complexion when your blood is in bad order and full of impurities. Impure blood means an impure face, always. The most wonderful, drug or opiate, rapid blood cleanser is Stuart's Calcium Wafers. You use them for a few days, and the difference tells in your face right away.

Most blood purifiers and skin treat- ments are full of poison. Stuart's Calcium Wafers are guaranteed free from any poison, mercury, drug, or opiate. They are as harmless as water, but the results are astonishing. The worst cases of skin diseases have been cured in a week by this quick-acting remedy. It contains the most effective working power of any purifier ever discovered—calcium sulphide. Most blood and skin treatments are terribly slow. Stuart's Calcium Wafers have cured boils in three days. Every particle of im- purity is driven out of your system com- pletely, never to return, and it is done without disturbing your system in the slightest.

No matter what your trouble is, whether pimples, blotches, blackheads, runny noses, itching, or scabby crusts, you can safely depend upon Stuart's Calcium Wafers as never-failing.
