PENDLETON, Or., May 11.—(Special.)—Clarence McBroom, a well-known young rancher of this county, was shot and instantly killed by George Horseman, a neighboring rancher, at Gurdane schoolhouse, about 45 miles south of this city, at 11:39 this morning. which is cut and scratnes, with the eyes red from weeping, presents a haggard appearance.

The tragedy occurred at the close of a meeting of cuttlemen, and there were 10 or 12 witnesses to the shooting. District Attorney Phelps, Coroner Folsom, City Marshal Gurdane, who is a cousin of the deceased, and E. L. Mc-Broom, brother of the dead man and proprietor of the Golden Rule Hotel in this city, left this afternoon for the scene of the tragedy to make an investigation and bring in the remains. They will probably not reach Pendleton before late Sunday night.

This, is the third fatal shooting affray that has taken place in Umatilla County within the past eight months. Owing to the remoteness of the region in which the killing took place, it has been almost impossible to get accurate information concerning the details.

WINTER WHEAT IS SHORT

Cause of Excitement on Board of

CHICAGO, May 11.-Excitement such as has not been seen on the Board of Trade since the "Black rust" scare of 1994, existed today when wheat, which has been steadily advancing for several days. took another jump of more than 3 cents. Frantic efforts were made by the bears to get from under the advance, but they were met by a demand which came from all parts of the country and swept everything before it. The high mark for the July option was 91%, for September 93%, and for December 951/2. All options closed very close to the high mark and with the bullish feeling still unabated.

Winter wheat will show a big decrease as compared with that of 1906. Cold weather in the West and Northwest, freezing temperatures in the Canadian Northwest and

sult of a quarrel or several months standing.

From the best reports that can be obtained Horseman had received decidedly the worst of the fistic encounter and had gone to wash his face. The two men, were still swearing at each other, however, McBroom being 10 or 12 feet sway, when Horseman pulled the gun from his pocket and fired. The bullet entered the face just below the right eye, causing almost instant death. Horseman immediately started for Pendleton to give himself up, stopping on the way long enough to telephone to Sheriff Taylor that he was coming. The Sheriff then started to meet him, which he did about half way and the two arrived in Pendleton about 9:36 this evening.

Though Horseman now refuses to talk, he told the Sheriff on the way in that McBroom had jumped onto him and heat him and was coming at him again when he shot. He is hadry broken up over the affair and his face, which is cut and scratched, with the eyes red from weeping, presents a haggard appearance.

The largedy occurred at the close of the Taylor had been done in the Southwest by the green bug, aided the rush upward.

The local traders were of the opinion that wheat has been advancing to rapid the eximination was due. So many orders poured in from the country, however, that it was certain that the expected setback would not come until later in the day. Once trading was in full swing, the orders from the country came so fast and in such number that the local crowd was carried before it. Desperate efforts were made from time to time by the shorts to stem the advance and once they forced the price of the July option down to is cent. This was only temporary. The flood of buying odds continued and when the market closed the prices were close to the high mark of the day and the movement seemed to have lost no force.
