UTOPIAN DREAMS OF LISA THE FOX

Story of Polish Revolutionist Reads Like Romance of Old Times.

GREAT CAREER AS OUTLAW

Wrecks Troop Train, Kills Police, Creates Reign of Terror in Warsaw and Is Captured Only With Artillery.

BERLIN, June 8.—(Special).—Among the intrepid fighters for freedom in Russia none is more daring or well-known in his own country, Poland, than "Lisa, the Fox," now lying at the point of death in the prison of Lublin, after a terrific fight with the police, in which he, single-handed and armed with a cheap Belgian revolver, defied the horse, foot and artillery sent out to capture him.

In the 14th century the Peruzzi were the Rothschilds of Europe, and financed Kings and Princes for their wars. The English Kings, Edward I, II and III, borrowed largely from their bank to provide for their constant wars with France and Scotland. In 1338 the financial condition of England was so bad that Edward III issued a royal proclamation suspending the payment of all state loans.

This ruined the Peruzzi bank, the head of the firm dying in London broken-hearted after an ineffectual attempt to secure a settlement.

Since then the Peruzzi family has, at intervals, reminded the British government of this ancient debt, and this circumstance, the present claimant believes, may interfere with his claim being disallowed under the statute of limitations. He himself has written to King Edward VII on the subject.

ITALIAN UTOPIA A FAILURE

Duke Pompeo Littis Finds Human Nature Against Socialism.

ROME, June 8.—(Special).—An experiment in Socialism, undertaken by Duke Pompeo Littis in Lombardy, has proved that the Italian peasant is not ripe for Utopian schemes for his betterment.

After eight years of Socialism, the Duke is applying to the court to regain possession of his land, which he had let in small lots at a nominal rent to 137 peasant families.

Who was successful, and the peasants reform he had imbibed socialist ideas from Bebe and the other German Socialists. Their teachings he put in practice on his return to the ancient estate. He dispensed the large tenants of his holdings and divided them up to 137 families of the peasants for cultivation. At first the scheme was successful, and the peasants prospered, but recently they became indolent and abandoning their crops, began to cut down the woods, which the Duke had stipulated should be left untouched.

The peasants were also tampered with by Socialist delegates, who urged them to claim ownership and refuse to work. The scheme was successful, and the peasants are still hopeful, however.

DOCTOR ROASTS THE DOCTORS

Says Success Is Gained by Fraud—Hard on Specialists.

LONDON, June 8.—(Special).—Following the lead of Blumack's physician, who recently published a denunciation of doctors, an English doctor, John Shaw, M. D., has written a book called "Medical Pricedraft: A National Danger." The medical profession in England, he says, is rotten to the core; the most prominent doctors have gained their position by fraud and hypocrisy, having systematically victimized the public; and the hospitals are run mainly for experimental operations. Dr. Shaw declares that he has had bitter experiences through exposing the abuses of the profession.

SPREADS TERROR IN WARSAW

He returned to Warsaw, posing as a soldier, returned inviolated from the war, he collected around him the hooligans and desperadoes who infest the districts of the Vistula bridge. Warsaw was in a state of civil war. Scores of officials, policemen and soldiers were shot down in the streets by the flying squads of the revolution. The whole forces of the law were arrayed against the assassins. Lisa took advantage of this to plunder the city. In one night he sacked five houses in the rich Marzalkowski street. When the revolution fury subsided, and the authorities became lax, he returned to his home. He killed a soldier, who had offended him, in the sight of a squadron of dragoons, and after emptying his revolver in their midst, got safely away.

LEADS PEASANTS IN BATTLE

Supplied with ample funds, Lisa forsook Warsaw and turned his attention to semi-revolutionary, semi-predatory enterprises in Moscow. For several months he posed as a fanatic socialist, spent his money in semi-religious orgies and finally ran away with the daughter and money of a prosperous tanner. The tanner informed the police, who recognized the bandit's description. But both Lisa and the girl had disappeared. The girl has never since been seen. But Lisa duly reappeared.

TAKES ARMY TO CAPTURE HIM

At last at Slavlin village, near Lublin, Lisa was brought to bay. Surrounded by Cossacks and infantry, he took refuge in a smoky, dark hole, and his family fled, leaving behind a young child. The fox threw the child through the window

to a place of safety and began to shoot. The besiegers drew dangerously near. Two of them fell. They retreated, poured in a dozen volleys and disappeared. The fox brought down a third. Artillery was sent for. In three hours from Lublin arrived a quick-firing gun. The house was riddled with shrapnel. But after each shot Lisa reappeared unhurt. The tenth shell blew out the wall and, when the soldiers rushed in, they found Lisa pinned under stones and, vainly attempting to load his revolver for a final shot.

CLAIMS DEBT 569 YEARS OLD

Descendant of Italian Banker Wants Britain to Pay \$250,000,000.

ROME, June 8.—(Special).—The biggest claim for debt ever made is that which is to be brought against the British government by the Marquis Vincenza Peruzzi, who claims the staggering amount of \$250,000,000 due to him as the representative of the Peruzzi family, Italian financiers of the Middle Ages.

WRECKED TROOP TRAIN IN SIBERIA

Half-way across Siberia, he broke from his prison train. Two days later a troop train packed with soldiers from the Japanese war was mysteriously derailed and seven soldiers killed. It was Lisa's first act of vengeance. He devoted himself to fomenting the government's mobilization plans. He tapped or cut the telegraph wires, delayed the trains by false signals, and was finally tracked to the Volga. On the day of his arrival an attempt was made to blow up the only bridge by which Russia could send troops to the scene of the battle.

A year later Lisa appeared among the terrorists of Odessa, and volunteered to assassinate a departmental collector who had made him a terror to the revolution. Disguised as a policeman, he penetrated to the officer's study and shot him dead. A few months later he was captured in a German colonist's house. In the train to Odessa he made his captors drunk, threw them through the car window onto the track, and got away.

SPREADS TERROR IN WARSAW

At Kharkoff, where the fox next appeared, he found worse foes than the police. The terrorists believed that the police had connived at his escape for information. They condemned him to death, and in order to make it seem that the death was an accident, bound him—another escapee—to a trolley and sent it flying down an inclined track which ended in a water-filled quarry. The trolley smashed at the first obstacle, rolled over and hurled itself and its contents into the water. Lisa, kicked himself ashore with one leg—the other was broken. After that he limped, and was known as "the fox with the broken leg."

LEADS PEASANTS IN BATTLE

Supplied with ample funds, Lisa forsook Warsaw and turned his attention to semi-revolutionary, semi-predatory enterprises in Moscow. For several months he posed as a fanatic socialist, spent his money in semi-religious orgies and finally ran away with the daughter and money of a prosperous tanner. The tanner informed the police, who recognized the bandit's description. But both Lisa and the girl had disappeared. The girl has never since been seen. But Lisa duly reappeared.
