## NEW GROPWHEAT IN

First Car From Interior Sent From Morgan.

WEIGHS IN 601-2 POUNDS

Indications of Heavy Product and Good Yield Proved by Initial Shipment Which Attracts Favorable Comment.

New-crop wheat is beginning to appear in this market, and before many days shipments will be coming in regularly, unless there is a repetition of last year's experience with car shortage. Everything points to a fine quality of wheat this season, and the first car to arrive from the interior, received by the Pacific Coast Elevator Com pany July 24, is reported to be of excellent weight and condition.

This first car of wheat to arrive in Portland this selson was shipped from Morgan on the Heppner branch of the O. R. & N. and is of very fine quality Walla Walla, weighing 6014 pounds to the bushel. Walla Walla usually runs somewhat heavier than Valley, the standard last year being 58 fo the latter, but 60% is considered by the trade as indicating a much heavier product than early estimates predicted.

As flour stocks have run low, the appear ance of new-crop wheat will be welcom by millers, who will soon begin operations on a large scale, after running in a handto-mouth way for some time past. Flour leaving for the Orient today on the steams Alesia, the manifest calling for 34,874 bar-rels. This shipment is not up to the amount estimated a few weeks ago, and up to yesterday space had not been fully taken for flour on the next steamer, the Nicomedia. As she is not to sail until about the middle of next month, additional space may be reserved between now and

### BETTER FRUIT IN SIGHT. Week Opens With Improvement in Quality of Consignments.

Front street was pretty well cleaned up yesterday of vegetables and most lines of fruits. A car of Turlock cants, expected for two days past, arrived in good condition and will be on sale Monday at \$3.25 for ponies and \$3.75 for standard craiss. A car of Crawford peaches will be offered tomorrow also, having been due for delivery last evening. They will be priced at \$1.25 a crate. The peaches so fur have not been quite up to the mark, but the fruit from the Lodi section is expected to meet requirements of fancy retail trade. The first lot of Thompson seedless grapes from Californta is due to arrive tomorrow, will be offered at \$1.75 per crate. Crabap ples grown in The Dailes country are in the market and bring 75c a box. Only one ouse on the street had bananas yesterday, having sent to the Sound for a small lot to tide over until Monday, when a reg-ular shipment is due. A good many inferior peach plums were reported among the recent receipts of the street. The same wa areported with reference to some lot of tomatoes from The Dalles, which were badly sorted and poorly crated and which made a bad showing when compared to best quality shown from other localities. Lo-cally-grown Lambert cherries will be done early next week, but when they are fin-

## ENGLISH HOP REPORTS VARY.

Annes will be in to piece out the sensor

Some Sections Complain of Unfavorable In the last issue of the Kentish Observe

to be received there appear the following reports from various sections in England devoted to hop growing: Canterbury—The continued unfavorable weather is causing growers much uneasiness. The bins grows slowly, but there is a great deal of headway to made up, and it is feared that mould will be serious if the dull, damp weather lasts much longer. The season has been most unpropitious and prospects are worse than for many years need.

Farnham-Owing to the continued unkind-

Farsham—Owing to the continued unkindly weather, showery days, cold alghts and bolsterous winds, the bine has made very little progress during the last five or six days, and the outlook is not at all cheering. The strong pieces are looking fairly well, but they will not grow a large crop unless the conditions speedily change for the better. The backward bine has done practically nothing for a week. There is a little vermin about, but very little washing is in progress.

Harbledown—The hops here present a most unkindly appearance, and the effect of the low temperature on the growth of the bine is now only too obvious. With 24 hours sunshine burr will be found in the Bramilings, in a few gardens the bine might be called "up," but the majority of the hops in this parish will require a few days' forcing weather to put them there. Vermin has been kept in check, so far, with very little trouble. Warmer weather is badly needed to encourage the growth of the Bramilings to be sanything but light.

Cable dispatches, however, received of much later date indicate that the English erop conditions improved rapidly and that erop conditions improved rapidly and that

## SEND COWS TO CHINA.

Stocking Up Dairy Farms Near Hongkong Through Portland Buyer. some time past shipments of milch cows have been made on the Oriental steamers, a bunch leaving today on the

Alesia, consigned to Hongkong, These animais are keeping up herds on dairy farms near that city and for improving breeds. They are selected animals picked up by E. I. Lindsay, of the East Side, who has been handling the order for some months past. In the local livestock market yesterday the receipts of cattle amounted to 127 head of rather inferior grade, and as a con sequence trade was slow. Hogs were in a little better demand, and market reported strong, as but 52 head came in. Receipts of sheep amounted to \$20 head and market kept steady. Quotations given elsewhere remained unchanged for the day.

Dressed meats were in rather full supply all the past week, the only grade not meeting demands fully being fancy veal. Conelderable buil ment came in late in the week and met with very slow sale, in fact, some quarters were not disposed of at closing time yesterday.

## Dairy Products Slow Sale.

egg situation improved but slightly at the close of the week, in nearly all commission houses there being larger stocks than desired. In several places the accumulated stock has deteriorated until the stock of seconds is much heavier than dealers relish. Prices yesterday held fairly steady at quotation for fresh ranch stock, but increased receipts in the next few days will result in weakening the market again. Late arrivals of poultry yesterday had to be carried over, but dealers were not partleularly concerned, as there had been a good demand pretty much all week. More than amount of country butter appeared in several houses, but as city cream eries are pushed up with their orders, there

is no likelihood that the country stock will

## STOCK MARKET SLUGGISH

Bank Clearings Outside Reserve Cities Show \$65,000,000 Increase This Year, Indicating Wide Business Activity.

NEW YORK, July 27.—The sluggishness of the Harriman Pacifics which has been in evi-dence ever since the intended dividend rate on Southern Pacific was made definitely known,

on Southern Pacific was made definitely known, was a continued restraint on the market today, Prices fluctuated unevenly over a marrow range and trading at times was nearly idle.

The complexion of the bank statement was not liked, the growth in deposits through the heavy loan expansion offsetting practically all of the benefit to the surplus from gain in cash, which was nearly as large as anticipated.

Foreign exchange rates were fully held and the conviction was strengthened that next week will see a renewed outgo of gold to France. The demand of the Bank of France is not to be construed as a policy of accumulation of idle surplus, as its gold holdings are still \$22,372,505 less than in this week last year, while its coin issued and outstanding loans are many millions in excess of last year's figures.

Bank clearings for the week, show an expanelon over last year, and it is significant that while New York's clearings for five days are \$70,000 less than last year, those for all cities outside the seven leading reserve centers are \$85,000,000 greater than last year, thus reflecting the widespread distribution of the activity

The week's expansion of New York loans is attributed to a transfer of loans from trust companies to banks induced by the unprofitable companies to banks induced by the unprofitable rates for money on call.

There was some recovery in the railway issues from the recent weakness. Firmness in United States Steel was attributed to the expendation of a favorable report for the July quarter to be published next week. Cotton carriers and industrials showed some special strength. Changes at the end of the day were small and the tone irregular. Total sales of bonds nay value. none; Oregon exports, dry ealt, 13c; smoked,

Wheat Bulls Encouraged by Blight News.

## DAMAGE DONE IN DAKOTA

September Options Gain 1 3-4c on Day's Operations on Chicago Board of Trade-Corn Market Affected, Closing Firm.

CHICAGO, July 27.—The sharp advance in wheat prices followed a weak opening due to seilling brought out by lower prices at Liverpool and by decline in the price of wheat at Minneapolls. Favorable weather for the crop in this country also had a weakening tendency at the start. Sentiment in the pit, however, showed a buillish trend upon the receipt of news from Minneapolls, which claimed that black rust is steadily epreading throughout Dakota and Minneapolls. As the trading progressed the buying became more urgent and prices advanced rapidly. The market closed strong with prices at about the top. At the close September showed a net gain of fac. The corn market opened easy because of rain and cooler weather in the Southwest, but became firm on buying based upon the sharp CHICAGO, July 27 .- The sharp advance became firm on huying based upon the sharp necessary for our output cased upon the snarp advance in wheat. Trading was rather quist all day. The buying was chiefly by leading commission houses. The marget closed firm September opened unchanged to %a lower at \$314,651%,c. advanced to 53% and closed at

Deaths.

HOP PROSPECTS GLOOMY. Indications of Large Yield Reported Fron Salem District.

SALEM, Or., July 27.—(Special.)—Hop movements in this section were featureless the past week, the tone of the market weak and unsteady and little or no interest man-lfested by either buyers or sellers. The present condition of yards and weather indicate a heavy yield, which has a tendency ticate a neavy year, which has a tendency to cast a gloom over future prospects. It is reported here that John Carmichael hought last week about 800 bales around Silverton, Mt. Angel and Woodburn at 615 cents for London delivery.

Coffee and Sugar.
