## 100 Smart Tailored Suits Vals. to \$50 at \$19.85

There are just 100 of these suits—perhaps the most sensational suit bargain we have offered in 57 years so early in the season. They represent the sample suits of a great New York manufacturer, who is through using them for exhibition purposes, and this gives the women of Portland the greatest suit bargain of the year. We feel assured that such handsome suits will not be offered again this season at such a price, and as the styles are fixed, you can select with perfect confidence. We might dwell indefinitely on these wonderful values, but we prefer to let the garments speak for themselves.

The suits come in chevots, broadcloths, novelty serge, panama cloth, tweed and melton cloths. Colors—black, gray, navy, red, brown, green, dark garnet, checks and the modish stripes. Everyone of the season's diverse styles is represented—long or short coats, tight-fitting cutaways, pony effects, etc. Long and three-quarter sleeves.

See window display. Better still, be very early Monday morning and see the suits. We can not guarantee to have any suits left in the afternoon **\$19.85**

## Corset Facts With Reference to "La Vida"

The present Corset style might in truth be called the most artistic we have ever known, and credit for this is due fully as much to the demand of women who know how to dress as to the work of the corset fraternity. It is really surprising the number of times a new customer whom we have fitted will say:

"Just what I have wanted since the present vogue of dress came in fashion, but have never been able to make any one understand what I was talking about."

Consequently we realize that the spontaneous appreciation accorded our individual corset methods is in many instances due to the fact that the purchaser can find here just what she wants, and not that we have had to teach anything. The more critical we find a customer the more pleasure we take in serving her. We show our most critical customers the superb "La Vida" Corsets, made by hand, stayed with genuine whalebone.

This may at first reading seem a very pleasing disposition on our part, but on second thought you will find "method in our madness"—with our intimate study of all things corsetical every intelligent criticism means something to us.

Accompanying picture, taken from life, we pronounce the most perfect corset in existence for the figure to whom we would give it. Note that it is designed for an extremely long waist with full bust and large hips.

More decidedly than ever before has the correct poising of the figure been accomplished in this model. The combined firm suppression and support of the abdomen is gradually eased from the very bottom of the corset, thereby swaying the figure in the greatly desired poise. The very round tapered waist effect is secured by the abrupt side waist curve. The cut truly shows how the hips are swayed backward. Then the extreme length at the back gracefully cares for the flesh. The bust is firmly held forward without being raised. Made of the fancy coutille. Price \$5.50. Made in America, saving the 60 per cent duty that you would otherwise pay.

Many new ideas in the famous W. B. Corsets are attracting favorable comment. Even as low as \$1.00 we have some specially good things.
