

PORTUGAL REBEL BY CONSPIRACY

Rebellion Rampant in Army and Navy and Martial Law Reigns.

PRISONERS ARE DEPORTED

Carried Away on Cruiser Whose Officers Are Said to Be Rebels—The Government Denies All Stories of Impending Riot.

LISBON, Nov. 23.—The City of Lisbon now practically under martial law. Three generals are known to have been relieved of their commands and, according to reports, some 200 political prisoners have been placed on board of a cruiser, which left this port immediately afterward.

Their version of the rumor is that the officers of the cruiser were disaffected. Rebellion is said to be rampant in the Navy.

An official statement given out by the Government tonight declares that the situation in Portugal has been grossly misrepresented. It says:

"The fantastic rumors concerning members of the royal family, the attitude of the military forces and the political leaders as well as the stories of an outbreak against order are absolutely without foundation."

WANTS PRETTY BOMBTHROWER

Russia Seeks Extradition of Terrorist From Austria.

VIENNA, Nov. 22.—Wanda Dobrodzińska, the woman who threw a bomb at General Skalon, Governor-General of Warsaw, and, aided by confederates, disappeared, has been brought from Cracow to Vienna, where her trial on the demand of the Russian government for extradition will take place. The prisoner is a strikingly pretty woman and is as intelligent as she is beautiful. After her crime Wanda fled to Cracow. There her beauty attracted many admirers, one of whom, an Austrian, she married.

It was not long, however, before the secret police of Russia trailed her and her arrest followed, despite a plea that by marriage she had become an Austrian subject. Dr. Lieberman, Socialist leader, will defend the woman before the Vienna Landgericht, by which the Supreme Court decided she must be tried. If the decision is against her she will lose both her husband and her life.

Princess Deserts Her Husband.

VIENNA, Nov. 23.—A Brussels dispatch, published in the newspaper Die Zeit, reports that Princess Elizabeth has left for Cracow, Prince Albert of Belgium, heir to the throne, and will not return to Belgium. She is said to be with her parents in Munich.

Prince Albert, who is the son of King Leopold's brother, the last Philippe, Count of Flanders, was married to Princess Elizabeth of Bavaria in 1900. They have three children.

Kaiser to Undergo Operation.

NEW YORK, Nov. 23.—A London dispatch to the Sun states that the Kaiser, who is to undergo an operation for the removal of a gall stone, will be in England after the termination of his state visit to the British court, in preparation for an operation, which will take place within a few days.

According to the dispatch, the operation will be through the ear, affecting the throat. It touches the Katschal, or original trouble there which is referred to as hereditary, but it is added, the operation is not a serious one.

Harden Will Be Tried Again.

BERLIN, Nov. 23.—The judicial authorities have decided to try Maximilian Harden, editor of Die Zukunft, on the charge of having criminally libeled Count Kuno von Moltke, former military Governor of Berlin. Von Moltke recently sued Harden for defamation of character, but lost his case. The forthcoming trial is a sequel of the recent trial. Harden will be tried by five judges. The date of the hearing has not yet been fixed.

GREAT LAKE IS LOWERING

Vast Area Will be Added Reclamation Work in Klamath.

KLAMATH FALLS, Or., Nov. 23.—(Special.)—Nature is performing one of the most extensive portions of the reclamation project in the Klamath project, and also one of the most expensive parts included in the estimate, which is the drainage of Tule Lake. Reports received by telephone today from J. Frank Adams, of Tule Lake, bring intelligence that the water of the lake is rapidly falling, and a tremendous whirlpool has formed just off Scorpion Point, through which the water is passing with a deafening roar that can be heard a great distance. Below it apparently a great channel underground through which the waters find outlet beneath the Modoc lava beds and thence through the drainage of Fall River to Pitkin, and finally on to the ocean through the Sacramento and San Francisco Bay.

It has long been held by geologists that Tule Lake has an underground outlet, and that Fall River, which bursts from a gushing spring in Modoc County, Cal., is the vent. Last spring the lake water reached a higher level than has ever been known since the country was settled, and bordering farms were inundated. For several days the water has been receding and investigation revealed the true outlet. Should the vent entirely drain the body of the lake, it will add 50,000 acres of irrigable land to the project and at a saving of hundreds of thousands of dollars to the people of the Klamath Basin, as the intended diversion of Lost River will be rendered unnecessary.

WARRANT FOR MRS. WARNER

Wholesale Arrests Follow Search of Bank for Missing Will.

PENDLETON, Or., Nov. 23.—(Special.)—Late this evening warrants of arrest were issued at the instance of the district attorney for Mrs. Mabel Young Warner, her husband, Sherman F. Warner, and their detective, Craddock. The charge is that they unjustly and maliciously procured search warrants for the Farmers Bank of Weston, the Phillips and Rogers homes in the same city, Friday. At least one suit for damages is also sure

to come as a result of the searching of the Phillips home for the alleged missing will to the Young estate.

BUYING UNCLE SAM'S CLOTH

Seattle Tailor's Peculations Said to Have Reached \$60,000.

SEATTLE, Wash., Nov. 23.—(Special.)—Louis Tagholm, a Seattle tailor, is under arrest here charged with purchasing cloth stolen from the Puget Sound Navy-yard and worth \$60,000. The peculations are alleged to have extended over a period of seven years. Other arrests are expected. Secret Service operative Thomas B. Foster directed the arrest of Tagholm and claims the Seattle tailor has been buying cloth from sailors and marines at the yard regularly. The secret service operative claims he has twice trapped Tagholm and demonstrated that the men at the yards have been disposing of Federal uniform materials in Seattle. When Tagholm was arrested he is said to have promised to supply all the navy uniform materials needed by an alleged purchaser and

AN OREGON PIONEER OF 1852 PASSES AWAY.

The Late Mrs. Jane Elliott. Mrs. Jane Elliott, one of Oregon's pioneers, died November 16 at the home of her daughter, Mrs. Oliver Johns, at Sellwood. Mrs. Elliott was born in Illinois, December 18, 1850. She crossed the plains with her father and mother when but a year old. In 1868 she was married at Salem to Lorenzo Elliott. Before her marriage she was Miss Jane Evans. She leaves an aged mother and father, Mr. and Mrs. J. Evans, of Milwaukie, Or., and three sisters—Mrs. M. Myers, Mrs. S. David and Mrs. Anna Matlock, all of Portland. Besides these she leaves a brother, J. Evans, of Alaska. Mrs. Elliott was the mother of 10 children, of whom those living are: Mrs. E. Woodruff and Mrs. O. Johns, of Portland; Edward Lawrence and Alice Elliott, of Rainier, and Mrs. O. Johnson, of West Port, Or.

to have admitted that he was a fence through which navy-yard thieves have been marketing clothes from the yards.

CRACK SAFE AND GET \$300

Yogmen Do Neat Stunt in New Goose Saloon at Rainier.

RAINIER, Or., Nov. 23.—(Special.)—The safe in the New Goose saloon was cracked at the early hour this morning and about \$300 secured. The burglars effected an entrance through the back door. The money was contained in a small fireproof safe. The robbers drilled through the top, introduced some nitroglycerine, wrapped the safe in a canvas, lit the fuse and withdrew to a safe distance. The explosion blew the safe door from its hinges and threw it nearly across the room, scattering the money over the floor.

The burglars then returned and humbly picked up the greater portion of the money, leaving a few dollars in small change upon the floor. It is believed they then went to the wharf and crossed to the Washington side of the Columbia River as a half dollar, stained by the explosion was found on the wharf. A peculiar feature of the robbery is that a tin box containing \$40 in currency was overlooked. Two certificates of deposit on the First National Bank of Portland were taken. The money found on the floor after the robbery was badly discolored and unless the robbers are disclosed enough not to attempt to dispose of it for some time, this fact may aid in their detection.

Still Thrashing in Gilliam.

CONDON, Or., Nov. 23.—(Special.)—A great amount of thrashing is still to be done in this county. One crew in Canyon has 25 men working about the farm. They are hampered a great deal by the fact that the threshers will take nothing in payment except gold coin, and this is hard to get. The bad weather of the past week has also hindered them in hauling their produce to market, and a large amount of grain will remain to be hauled in the Spring.

Will Load Barley Here.

TACOMA, Wash., Nov. 23.—(Special.)—The steamship Hydrex, now loading tea for San Francisco, has been ordered to get the quickest dispatch possible, and when this trip is completed to proceed to Portland to receive a cargo of barley for New York. When the barley cargo is discharged at New York they will proceed to Newport News and get a full cargo of coal for the United States Government.

Building Material Cheaper.

TACOMA, Wash., Nov. 23.—(Special.)—Building material is now enough cheaper that a saving of fully 20 per cent in cost of construction can be made over that of three months ago. Lumber was offered for a building today at \$9 a thousand as against \$18 three months ago. Other materials used in building are also down, and a person can put up a building 20 per cent less than in August and September.

New Bank for Astoria.

ASTORIA, Or., Nov. 23.—(Special.)—The Scandinavian-American Bank, which was recently organized in this city, will open for business on next Monday morning. The bank has a capital stock of \$50,000, and its officers are: Gust Holmes, president; C. G. Palmberg, vice-president; J. M. Anderson, cashier; John Nordstrom, assistant cashier.

THE SALE OF TICKETS

For the Multnomah-Oregon football game Thanksgiving day will open Monday morning at 10 o'clock. Reserved seats at Estes and Powers' drug store. General admission tickets at Rowe & Martin's drug store and Schiller's cigar store, 4th and Washington streets.

NO FEAR TO WALK

Hawaiian Girls Have Trouble Returning From Juneau.

CHECKS DON'T BUY TICKETS

Steamship Company Refuses to Cash Seattle Paper—Convention Delegates Help the Party to Secure Funds.

SEATTLE, Wash., Nov. 23.—(Special.)—Mrs. Edyth Tozier Weathered and the nine Hawaiian girls who have been touring the Pacific Coast states, will leave next week for Victoria and Vancouver. Then they go home. The Hawaiian girls came down from Alaska the most popular excursion party that ever went north. There was a bit of trouble at Juneau over drafts and tickets, but it was a trouble shared by a score or more of delegates who attended the Juneau Republican Convention.

It all came up this way: The delegates prolonged the meeting of the Alaska convention beyond any reasonable length of time and found it necessary to return home on the steamer Jefferson, owned by the Alaska Steamship Company. The Humboldt, operated by the Pacific Coast Company, had taken the party north and waited 12 hours to take them back, but at the last moment the delegates and Hawaiian party decided to stay over.

Up to the time of departure there was no trouble in Juneau in cashing checks and drafts. But when boat time drew near delegates from the Hawaiian party were turned back and the steamship company would not take them. The story of the refusal of steamship officials to take the drafts of the Hawaiian party was cabled out from Juneau. What ought to have been added was that everybody home-bound was in the same predicament.

There was a furious scramble for funds before the Jefferson sailed and everyone with a friend in Juneau dragged him from bed to get the funds. It was a bohemian effort to get everybody equipped for the trip home along the shore line is one that no person but a suicide would attempt. It is a long enough trip by boat, and the walk home did not look good to anybody. At one time a threat was made that the delegates from the Hawaiian party would go aboard the boat, move into staterooms and negotiate later with the pursuer. This led to the story cabled generally from Juneau that the Hawaiian girls became figurative stowaways. It was a narrow escape for everybody, and but for a "last-minute" round-up a couple of scores would have been compelled to attempt that escape from Juneau.

The Hawaiian party had a genuine hairbreadth escape at Ketchikan. The returning delegates went ashore to hold a big meeting in that town whereat John W. Corson made a home-letted speech to nearly 500 persons, including all the school children of the town. Stores closed for the meeting and the Hawaiian girls sang several songs as a feature of the meeting.

Mrs. Edyth Tozier Weathered is ill and it is probable the Hawaiian girls will be detained in Seattle until the middle of next week. Mrs. Weathered is suffering from the effects of a severe fall in Juneau and nervous exhaustion. While her condition is not serious, it is impracticable for the chaperone to start home with her charges in her present condition. It may be the girls will defer their trip to Victoria and Vancouver, but Mrs. Weathered will make every effort to get up in time for that journey. The entire party is at the Butler Annex.

"GUN-SLING DAVE" PROMOTED

Noted Marksmen Becomes Ordnance Sergeant in Coast Artillery.

FORT STEVENS, Or., Nov. 23.—(Special.)—When the appointment of Sergeant Richard N. Davidson, Ninety-third Company Coast Artillery Corps, Fort Stevens, to the grade of ordnance sergeant, the line of the United States Army loses one of its best known characters. Sergeant Davidson, better known as "Gun-sling Dave," having derived this sobriquet from his wonderful ability in hitting the bull's-eye. Davidson was born in Frank- Tenn., May 20, 1863, and first entered the army March 17, 1888. He began his shooting career at Bellevue Rifle Range, near Oregan, where he won his first medal. In 1891, on the same range, he won the department gold medal. The year following he again won the gold medal, making 78 points out of a possible 80; a score which has never been beaten. This record was made with the old Springfield rifle, caliber .30. After winning these three authorized department medals, he was advanced to the class of "distinguished marksmen." The same year, at the army competition, at Fort Sheridan, Ill., he took second prize, being beaten for first place by only three points. For this he again received a gold medal. Immediately after the army meet, teams from the army, Wisconsin, Illinois and Iowa competed on the same range. As before, "Gun-sling" took away the medal.

In 1893 he won what is known as the Buffalo medal, it being the first prize in the class of distinguished marksmen. From 1892, until the Springfield rifle was exchanged for the Krag in 1895, he was the champion shot of the United States Army.

Owing to changes being made in competitions, rifles, etc., he did not participate in any more shooting contests until 1902, when he took third place at the army competition at Fort Sheridan, Ill. The next year an importance occurred in 1905, at Sea Girt, N. J. Teams of all the National Guard organizations, Army and Navy met to shoot for the National trophy. "Gun-sling Dave" led his team (the victorious Army Infantry team), making the remarkable score of 312 points out of a possible 350, at ranges running from 100 to 1000 yards, using both rapid fire and skirmish run. In 1907 he again was a member of the Army Infantry team, and as usual made an excellent score. At the time he has 13 medals now in army contests, six gold, two silver and five bronze. In addition to these medals he has a number which he has won in minor competitions. Sergeant Davidson is perhaps better

RIGHTS MUST BE RESPECTED

Judge Snell Makes Important Decision in Condemnation Suit.

TACOMA, Wash., Nov. 23.—(Special.)—Making one of the most important recent rulings in the Superior Court, Judge Snell today held that a corporation, whether it be a railroad or any other, cannot bring condemnation proceedings against an individual causing him expense, time and trouble, and then ask to have the case dismissed without first reimbursing the defendant. "A corporation has no right to tie up a man's property from the active real estate market, put him to a

KNOWN IN THE ARMY

known in the army than any other enlisted man and there will be no one but who will rejoice in his late advancement. While shooting at camp Perry, O., this Summer, Davidson met all of the members of the Oregon team, and they as well as the army know him better by his nickname, "Gun-sling."

PETITION READY FOR TRIAL

BOISE, Idaho, Nov. 23.—K. I. Perky, local counsel for George A. Pettibone, said today the trial would surely begin next Monday. He said Pettibone would consent to no further delays, and as the Adams case will be finished tonight there would be no good reason for the case not coming to trial. He said it was possible the case would go over till Tuesday or Wednesday, if Hawley and Darrow requested it, as they would not arrive from Ralidrum until Monday.

FRAC TICAL STUDY AT EUGENE

School Children Raise Crops and Learn Sewing.

EUGENE, Or., Nov. 23.—The interest which the pupils of the public schools are taking in the agricultural course offered for the first time this year, is greater than was anticipated by even its strongest advocates. The principal attention of the schools of the city has been directed to the raising of food stuffs and the propagation of trees, bushes and vines that will later bear fruit. Although there are a number of groups of children giving special attention to floral culture, and a civic improvement society will, no doubt, be the outgrowth of this work.

Special interest is being taken in the growing of roses and it is the plan of the children to see that many roses are raised in the different homes, and it is their hope, next year to have a great many plants along the streets of the city and in other public places.

While the boys of the schools, several hundred strong, are at work raising crops, the girls of the schools are being instructed in the art of sewing, principal attention being given to plain sewing at this time. While this department of domestic science has been in operation only a few weeks, many of the parents have stated to the teachers of the schools that their children had come to be very useful with the needle about home, and the interest of the girls at school in their sewing work is equal to that of the boys in agriculture.

Both the cost of conducting the experiments in agriculture and in domestic science is very slight and it is hoped before very long, through the co-operation of the people of Eugene, to establish a course of manual training in the schools as well as to improve the work already under way.

WE RECOMMEND

ADLER'S COLLESIAN CLOTHES

PIMPLES, BLACKHEADS—

Get Rid of All Your Face Troubles in a Few Days' Time With the Wonderful Stuart Calcium Wafers.

Trials Package Sent Free. You cannot have an attractive face or a beautiful complexion when your blood is in bad order and full of impurities. Impure blood means an impure face, always.

The most wonderful of all the most rapid blood cleansers is Stuart's Calcium Wafers. You use them for a few days, and the difference tells in your face right away.

Most blood purifiers and skin treatments are full of poison. Stuart's Calcium Wafers are guaranteed free from any poison, mercury, drug, or opiate. They are as harmless as water, but the results are astonishing.

The worst cases of skin diseases have been cured in a week by this quick-acting remedy. It contains the most effective working power of any purifier ever discovered—calcium sulphide. Most blood and skin treatments are terribly slow. Stuart's Calcium Wafers have cured boils in 3 days. Every particle of impurity is driven out of your system completely, never to return, and it is done without deranging your system in the slightest.

No matter what your trouble is, whether pimples, blotches, blackheads, rash, tetter, eczema, or scabby crusts, you can solemnly depend upon Stuart's Calcium Wafers as never-failing.

Don't be any longer humiliated by having a spotted face. Don't have strangers stare at you, or allow your friends to be ashamed of you because of your face.

Your blood makes you what you are. The men and women who forge ahead are those with pure blood and pure faces. Did you ever stop to think of that?

Stuart's Calcium Wafers are absolutely harmless, but the results—mighty satisfying to you even at the end of a week. They will make you happy because your face will be a welcome sight not only to yourself when you look in the glass, but to everybody else who knows you and talks with you.

We want to prove to you that Stuart's Calcium Wafers are beyond doubt the best and quickest blood and skin purifier in the world—so we will send you a free sample as well as we get your name and address. Send for it today, and then when you have tried the sample you will not rest contented until you have bought a 50c box at your druggist's.

Send us your name and address today and we will at once send you by mail a sample package, free. Address F. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich.
