BODY IS NOT RECOVERED

Accident Occurs in Early Morning, While Government Official Is Attempting to Board Ship Henry Villard-Waterfront Notes.

W. L. Jedon, an occasional Inspector of Customs, was drowned in the Willamette River yesterday morning at 6:50 o'clock, while endeavoring to board the American ship Henry Villard, which is in the stream at the lower end of the city. Up to a late hour last night the body had not been recovered. Jodon was 25 years old and unmarried. He leaves an aged mother and two brothers and three sis-

How the accident happened is unknown, as no one saw Joden fall into the water. The Henry Villard is anchored in the stream and on the outside are a coal barge and a donkey scow. Outside of e again is a gravel scow containing ballust which was destined to go into the after hatch. Jodon came down in a launch and as the current was too strong for him to land alongside the vessel the boatman put him off on the gravel barge. From this he went to the donkey woow. where he spoke with the engineer. The latter sent for a ladder to permit the Inspector to board the ship. While he was engaged in placing the ladder there was a splash and nothing more was seen of

The Custom-House was immediately notified and Inspector Off sent to the scene. His report to Captain Giese shed no new light on the case. The un-fortunate man's friends were notified and Hugh Brady was engaged to drag for the body. Chances for the recovery of the remains are slim, as the river is high and there is considerable current. For quite a stretch there are no eddles where a body would lie.

Jodon had been in the custom service for five years. He was regarded as one of the most valuable of the local office employes and had worked up from sixth to first place on the occasional list.

ADVOCATES MOORING BUOYS

Captain Smith Comments on Their

Absence in Portland Harbor. Captain Smith, marine superintendent of the Standard Oil Company, is in Port-land in connection with the repairing of the American bank Acme, which arrived

river, November 28, from Hiogo, erippled condition. Anderson & Crowe have the contract for the refitting

Captain Smith is an oldtime navigator and first came to the Columbia river in 1872. On looking over the waterfront yesterday his greatest objection was the ack of mooring buoys. Captain Speier, Harbormaster, has specifications prepared which are being gone over by the Council

Boatswain Dies From Typhoid.

Henry Berninger, boatswaln of the British ship Miltonburn, died at Good Samaritan Hospital of typhold fever, and was buried yesterday afternoon from Finley's Chapel. Berninger had been ill three weeks. The steward and two apprentices of the same versel are in the hospital with the same disease. Chaplain A. E. Bernays, of the Seamen's Institute, preached the funeral

Captain Crawford, Mr. Booth, Mr. Wil-, second and third officers and 18 of crew of the ship were present, together with the following ladies connected with the Seamen's Institute: Mrs. and Mhs Gladys Bussell, Mrs. St. Martin, Mrs. Paul Henderson and Miss Bennett

Several hymns were sung with much feeling, including two at the graveside in Riverview Cometery. A chaplet of flowers was sent from the Seamen's Institute, in-scribed "With heartlest sympathy."

Alliance Salls for Coos Bay.

The steamship Alliance sailed for Coos Bay last night with 700 tons of treight and a good-sized passenger list. This is the first trip of the Al-liance this month. She has been undergoing repairs on account of the dam tes she received on Thanksgiving by while crossing the Coos Bay Bar, new rudder has been placed in position and a new propeller set. Among the passengers on the outward trip were Frank Davis, of Marshfield, who was one of those who made the voyage from Coos Bay when the Alliance got into a mixup.

Arabia Delayed by Storms.

Officials of the Portland & Asiatio Steamship Company have received advices to the effect that the German steamship Arabia, now due off the Columbia River, has been stormlound at Hakodate and will not be able to leave that port until December 23. This will bring her into Portland about January 10, and will again put the schedule out of joint. The Arabia called at Hakodate to take on sulphur and was held

Breakwater Is Again Delayed.

The steamship Breakwater did not sail for Coos Bay last night, as she was scheduled. Delay was experienced in discharging her coal cargo. She will leave for the South this evening. Chief Officer Owens, of the Breakwater, has left the ship and his berth has been taken by P. Peterson, formerly of the steamship F. A.

Marine Notes.

The British ship Claverdon is lined and ready for cargo. The steamship Strathendrick will finish wheat Thursday and will leave down Fri-

The steamship Costa Rico is due to arrive late this evening from San Fran-The French bark Europe shifted from Columbia dock No. 1 to the Irving dock

The German bark Schurbek moved into a berth at the Greenwich. She will take wheat in the morning.

SCOTS DO NOT INFRINGE

In reply to the statement of the president of the Associated Charities, I ask Rubber-Core Golf Balls Made in Glasgow Held to Be of Prior with a large family, a man who cannot Use and Manufacture ort his ramily?
In the Winter of 1895, I lived in Brooklyn, N. Y., the city of the churches. My wife was sick, my youngest child fighting with death, and I was out of work There May Go On.

GLASGOW, Dec. 21.—(Special.)—The louse of Lords has delivered the final judgment in the Haskell golf-ball case, which has excited so much interest throughout the golfing world. The appeal was taken to the House of Lords by the Haskell Golf Ball Company, of Cleveland, O., against the decision of the Court of Appeal in England affirming the judgment of Justice Buckley, to the effect that the respondents, Robert Hutchinson and John Main. Glasgow, manufacturers of the "Springvale Eagle," "The Hawk" and the "Kite" golf balls had infringed the letters patent of the Haskell Company, if valid; but that the patent was invalid by reason of prior use and publication; and that the action by the Haskell company should be dismissed. judgment in the Haskell golf-ball case be dismissed.

The golfing world may now breathe freely once more. The dread of a monopoly in the production of rubber-cored balls which has been hovering on the horizon for nearly two years has thus been removed. The House of Lords decreed as the lower courts did that the decreed, as the lower courts did, that the Haskell Company's invention was an-ticipated by prior use. To every golfer the decision is of moment, and to the ball-making industry, which, by the way, has developed probably its greatest pro-portions in Glasgow and neighborhood, it

The golf-ball industry involves millions of money. The Americans staked their all on the chance of pocketing the ga-gantic royalties that would have accrued to them had judgment established their patent rights, and also of securing one of the most profitable monopolies that could well be conceived. But, instead of that, they were faced by defeat and the loss of the enormous sum involved in fighting the case in the three most ex-pensive courts in this country.

JOIN PEERAGE AND STAGE

Son of Egnlish Duke to Marry a Young Actress.

LONDON, Dec. 21.-(Special.)-Much interest has been displayed in the report the announcement may shortly be ex pected of the engagement of a young actress bearing a name prominent on the English stage to the elder son of a Duke. If this report comes true, and the pre-dictions on the subject are very positive. It will be the first time that an actress has become a Duchess in England, will also be a notable connection betw the peerage and the stage, as the young lady referred to is an actress in the "legitimate." Hitherto the British aristocracy have never been attracted by really distinguished actresses, but have succumbed to the fascinations of "show" girls and chorus girls

VALUES MUCH SHRUNKEN

Non-Authorized French Religious Orders Have Little Left.

PARIS Dec 21 - (Special 1-M Guyat Dessaigne. Minister of Justice, has fin-ished his report on the liquidation of the property of the religious orders. In it oldders outside departmental or municipal communities, one cause being the oppo-sition offered by the friends of the re-

igious orders, M. Waldeck-Rousseau, in his speech at M. Waldeck-Rousseau, in his speech at a free employment bureau to be con-ducted by the city? I voted for it, but everything is as silent as the grave about it, while the owners of employ-ment offices are still allowed to grow Toulouse seven years ago, had estimated the value of the house property owned by them at more than \$200,000,000, but M. Guyot Dassaigne argues that this calculation included them all, whereas the laws of 1901 and 1904 only suppressed the non-authorized religious orders and those which devoted themselves to education. The value of the property of the authorized orders was set down at \$155.-600,000, that of the non-authorized ones at \$33,000,000. Now, he adds, the religious orders which had been suppressed sent early the whole of their fortune abr

easures taken against a number of orders are alike disappointed at the ma-terial result. Whether this report will be regarded as a sufficient explanation has

NO RACE FRICTION EXISTS

Shows That Portland's Swedes and Norwegians Live in Unity.

PORTLAND, Dec. 21 .- (To the Editor.) -in Thursday's issue of a Portland news-paper, appears a letter of criticism over a news article in The Oregonian of the same date, regarding the memorial services in honor of the late King Oscar of Sweden. The news article in The Oregonian states that the committee in charge of the arrangements for the local memorial services held in the First Presbyterian Church consisted of mem-Norwegian local societies and churches. The writer in the other newspaper evidently endeavored to give the impres-sion that he acted as spokesman for the Swedish population of this city by signing the article as, "Edward J. Grahs, secretary Swedish - American National League," and he is correct so far as his explanation goes, that no Norwegian organization had any part in the arrangements for the said memorial serorganization, had any part in the arrangements for the said memorial services. Continuing, the writer referred to states that "the loyal Swgdish-Americans have seen fit to not at least insult the memory of the deceased King by allowing any Norwegians to directly partake in memorial."

The erroneousness of the last statement is as much in evidence as is the writer's authority from the Swedish-American National League to make such an antago-nistic statement, and the undersigned takes the liberty to question the authority which Mr. Grahs has assumed as sec retary for the local Swedish organization It is deplorable that misconstruction of facts by antagonistic individuals in this manner often tends to mislead public

The late King Oscar succeeded his brother Charles XV, as King of Sweden, September 18, 1872. Under the treaty of Kiel, January 14, 1814, Norway became united to Sweden, this being later confirmed by the Congress of Powers at Vienna, June 9, 1815. Under this treaty, Oscar II became at the same time also King for Norway, and continued as ruler for Norway until June 7, 1905, when through an act of the Norwegian Storthing, that country declared itself separated from Sweden, in consequence of King Oscar vetoing Norway's bill for separate consular service May 21, 1905. During the union between the two countries, the best of feeling always existed between Norweginns and Swedes, and King Oscar was especially favored by his loyal Norwe-gian subjects, a fact which the late King

always was proud of.

The commerce of the two countries differs in nature and the joint consular service had always a tendency to be of disadvantage to Norway's trade. Norway's
rights and independence were therefore
freely admitted in the Swedish "Riksdag," and October 27, 1905, the treaty was finally signed in Stockholm, providing for full separation and for a neutral zone between the two countries. As the separa-tion was effected mutually on those grounds, no stain has ever been east by any intelligent Norwegian upon the good name of King Oscar II, neither at home nor abroad. When the death knell was sounded that King Oscar was no more

In spite of the insolence heaped upon them, a multitude of Norwegians at-tended the local memorial services arranged by the Swedes, last Thursday night. No doubt the majority of intel-ligent Swedes have taken exceptions to Mr. Grahs' letter to the press. The time is rapidly coming neurer when such ill agitation on either side, not only in this ity and state but elsewhere in this coun-

try, will find no approval.

The population of the three Scandinavian countries originally formed one race, and as an adopted race in this country is classed among the best citizens. Disclassed among the best citizens. Dis-tinction and race hatred is unqualified between Norwegians and Swedes. The true sentiment of brotherhood was voiced and exemplified by the late King, and will as time moves on prove to be an inwill as time moves on prove to be an inwill as time moves on prove to be an inwilling at the law, has sentenced the girl. Consequently the judge, as the upfor his people; "Broderfolkenes

PRINCESS GROWS PRETTY King Edward's Niece May Marry

Ere Long. LONDON, Dec. 21.—(Special.)—It was more than once remarked during the recent gathering of royalities at Windsor that Princess Patricia of Connaught is growing into an extremely pretty woman,

and that her charms never fall to make an impression upon those who meet her. There is a rumor current that her en-gagement may be announced at no distant date. leaving their house property heavily weighted. At the present moment a good deal of litigation is still going on, and it seems clear enough at any rate, that promoters and supporters of the drastic guma, allays pain, colic and diarrheea.

A TREACHEROUS TROUBLE

The headaches and dizzy feelings that trouble so many persons, are often but symptoms of kidney complaint.

Kidney diseases are very treacherous. They come on stiently, gain ground rapidly, and cause thousands of deaths that could have been prevented by treatment in the beginning.

Nature gives early warnings of every disease, if you would but note and heed them. Backache, twinges of pain when stooping or lifting, headaches, faint spells and urinary disorders are among the first warnings of kidney trouble.

If these signals are unheeded, there comes a steady, dull, heavy aching in the back and loins, a noticeable weakness and loss of flesh, rheumatic attacks, weakening of the sight, irregular heart action, languor, attacks of gravel, irregular passages of the kidney secretions, sediment, painful, scald-

ing sensation, dropsical bloating, etc. But there is no need to suffer long. Doan's Kidney Pills cure all kidney troubles. This remedy has made a reputation for quick relief and lasting cures. It is a simple compound of pure roots and herbs that have a direct action on the kidneys. It was the se-

cret 76 years ago of an old Quaker lady, . It was given to the public by James Doan, a druggist, and is now known and recommended the whole world over.

Home cures prove the value of

Doan's Kidney Pills to our readers. Mrs. A. M. Hobblaugh, of 328 Grant St., Portland, Oregon, says: "My faith in Doan's Kidney Pills is stronger today than who I gave a statement for publication a few years ago in the city papers. The years that have elapsed since I first used Doan's Kidney Pills with gratifying results have only increased my appreciation for them. 4 have found them to be thoroughly reliable in every way. I had suffered from kidney disorder, backache and severe pains in my loins. My chief source of trouble was with my kidneys, which were very irregular in action. Doan's Kidney Pills promptly relieved me of all my troubles, banished my backache, corrected the action of my kidneys and helped me in every way. I think just as highly of this remedy today as when I gave a public statement some years ago."

WHOLESALE CONTEMPT COURT IN SPAIN.

Jilted Young Woman Kills Recreant Suitor and in Prison Finds Hosts of Sympathizers.

MADRID, Dec. 21.-In Bilbao 10,000 women have failen within the clutches of the law for expressing their sympathy with a girl who, under stress of passion caused by slighted love, killed her lover, for which crime she was sentenced to nine years' imprisonment. Senorita Putana, the daughter of a

nine years' imprisonment.

Senorita Pujana, the daughter of a well-to-do middle class family of Bilbao, a preity glrl, 20 years of age, had been courted in the orthodox Spanish fashion by the son of a wealthy local family. At length he gave her to understand that he could not marry her. Jilling is a rare occurrence in Spain, and for that reason is looked upon as a henious reason is looked upon as a henious offense. The girl was rendered desperate, and repeatedly sought interviews with the object of inducing him to fulfill his

After several rebuffs, the distraught girl made a final appeal to his honor manhood. But he was obdurate, and, maddened by despair, the girl shot him through the heart. She was, of course, arrested, tried, and, despite the strong public feeling in her favor, was sentenced to nine years' imprisonment. The sentence created the greatest indignation throughout the Biscayan provinces and among the cigarette girls of Bilbao. The "cigareras" or Bilbao, 12,000 in num-

her, took up the case of Senorita Pujana, and as a best means of securing a re-duction, presented a petition to all the women of Bilhao and the district, canvassing among the lower, middle, and upper classes alike. By this means they abtained 10,000 signatures, and at length the petition was presented to the Audiencia, a local administrative body.

holder of the dignity of the law, has caused action to be taken against all the signatories of the petition and 10,000 sum-

of course, it is unlikely that the legal action will be carried to its logical conclusion, for the court of Bilbao would be totally unable to deal with such an undertaking as the trial for contempt of 10,000 women, but the situation is a curious one, and the authorities will need great inct to extricate themselves from it without loss of dignity.

The upshot of the affair will probably be that Senorita Pujana will be pardoned after she has spent a year or 18 months

Dealt in Stolen Curios.

GENEVA, Dec. 21 .- A Swiss curio dealer has been arrested at Lugano on the charge of theft. On his house being searched a number of pictures, said to be priceless, were found, which had been cut from their frames. There were also discovered on the premises

correspondence showing that the pris-oner was engaged in negotiations with American collectors for the sale of the articles.

Two French Deputies Exchange Modern Style Civilization.

PARIS, Dec. 21.-(Special.)-While the Chamber of Deputies was calmly discussing business the other day two deputies, both from the same circumscription, had a duel with fists in the corridor. Their friends finally separated them, and of course the combat was at an end. Deputy number one explained afterwards that his antagonist had addressed him with an opprobrious term; to which he retorted by striking him in the face. Deputy number two, on his side, did not deny that he had been struck in the face, but was satisfied that his antagonist had been repaid with a kick which he had given him when his back was turned. Deputy number one, he alleged, was the first to use the term blackguardisin in the

abstract, and he, deputy number two, had only applied it in the concrete. The friends of deputy number two asked him. Note display of fitted suit cases and if he was to send his seconds with a bags at Harris Trunk Co., 182 6th.

few years have been stolen from Ital-lan churches. The police further found the present he considered the insult sufficiently avenged with the kick his an

FRANCE TO USE NICKELS REPAYS BLOW WITH KICK Propose to Retire Copper Coins for

Superior Metal.

PARIS, Dec. 21 .- (Special.) -- France has determined upon having a nickel coinage in place of the copper currency, but al-though nickel is already in use, some years are to clause before the last copper coin will have disappeared. The Government has resolved that the copper coins are to be entirely withdrawn, but, according to the latest announcement made by the Director of the French Mint, it will take six years before this can be accomplished, owing to the great value of the copper comage still in circulation Of the superiority of nickel as a

currency, nobody who has felt burden of a dozen coppers in his pocket can remain in doubt a single moment. The old difficulty about confusing the ten-centime piece with a franc and the five-centime piece with half a franc has been easily overcome in Belgium by per-

Don't Be Only Half A Man

MY DIRECT-METHOD TREATMENT WILL RESTORE YOU TO THE VIGOR AND STRENGTH OF PERFECT MANHOOD.

It will stop all unnatural wastes, revitalize your nervous system, put VIM into your every movement—in short, it will make a COMPLETE MAN of you and imbue you with the buoyancy that belongs to perfect health.

MAN of you and imbue you with the buoyancy that belongs to perfect health.

While you are weak and debilitated you are necessarily morose and depressed, lacking in ambition, worthless to yourself and to others. You feel that life is a failure; that there is nothing worth living for. Every thought is poisoned with a morbid sense of weariness. While in this condition you are unfit for either business or pleasure. You eat without relish. You sleep fitfully, if at all, and you awaken in the morning with a feeling of diseatisfaction, tired and listless. You are nervous and restless, feverish at times, your head aches and your eyes are hot and smart frequently. Struggling under the burden of disease, your chief desire is to be alone, to seclude yourself from both friends and strangers, and to hide yourself from the world completely.

Weakness-Its Cause and Cure

Over twenty-five years ago I discovered that WEAKNESS in menwas due to prostate or pelvic inflammation. I siso discovered that
there was no treatment known to medical practitioners that would
permanently cure this disease. I set to work thereupon to formulate
a treatment that would be effective. My present DIRECT METHOD
TREATMENT was the result of my efforts. During all these years this
method has never failed to cure any case that I accepted for treatment.

By this I do not mean to say that there are no incurable cases. I
DO mean to say, however, that no disease peculiar to men is incurable,
except in the last extremity of it. It is not the DISEASE that is incurable, but the CONDITION to which the disease has advanced. I have
demonstrated in hundreds of cases that had been pronounced incurable
by other doctors and specialists that my Special Treatment would perform a complete cure.

Men, Beware!

The incurable cases that come under my observation have been those of men who have neglected to seek treatment in time, or have tried to cure themselves with electric beits, patent nostrums, a drugstore treatment, or some other worthless means. Such treatments are far worse than none at all. They nearly invariably produce complications that are as hard to cure as the original disease. Sometimes they appear to benefit for a time, but as sure as Fate their after effects will prove harmful—many times fatal. BEWARE OF THEM. They cannot cure you, no matter how eloquentity they are advertised. Seek my scientific and sure Direct-Method Treatment, that will not fail to cure you. Do not delay until your case has advanced into the incurable state.

I Offer You Certain Cure

Don't fail to see me, therefore, even though you have been told that you were beyond medical aid. By other methods your case would doubtless be hopeless. By my treatment, however, you would probably be comparatively easy to cure. That is the difference between my treatment and other methods. My reputation and the invaluable and important discoveries I have made in medical practice have placed me in the front rank in the medical field in Western America.

My Fee \$10

I Will Guarantee a Cure, and You Need Not Pay Until You Are Well

WHY MY TREATMENT CURES

There are several reasons why my treatment never fails to cure Weakness in men. The method I use is direct and positive, the medicine being applied locally. Its effects, so administered are almost immediate, since it is at once absorbed by the tissues, which are thus stimulated to healthy action, throwing off the poisonous secretions, overcoming inflammation and congestion and clearing the blood vessels and capillaries so that they can supply nutrition to the affected region. Weakness is usually due to early dissipation, but often is the result of an improperly treated contracted disorder. Occasionally it is caused by a strain; or it may have its origin in some inherent defect or abnormal condition. Whatever its origin, its consequences are just as direful and sure. Do not delay its treatment if you value your health and happiness. If neglected, it will certainly destroy you.

Come to my office today or at the earliest possible moment. It will cost you nothing to talk the matter over with me. I will give you expert advice.

I confine my practice to NERVOUS WEAKNESS, VARICOCELE.

expert advice.

I confine my practice to NERVOUS WEAKNESS, VARICOCELE, STRICTURE, CONTRACTED DISORDERS, CONTAGIOUS BLOOD POISON, BLADDER and KIDNEY DISORDERS.

CONSULTATION FREE — MY HONEST AND CANDID ADVICE COSTS YOU NOTHING. I cheerfully give you the very best opinion, guided by years of successful practice. Men out of town, in trouble, write if you cannot call, as many cases yield readily to proper home treatment and cure.

My offices are open all day from 9 A. M. to 9 P. M., and Sundays from 10 to 1.

The DR. TAYLOR Co.

CORNER MORRISON AND SECOND STREETS. Private Entrance 2341/2 Morrison Street, Portland, Or.

WE CURE MEN

Then Why Wait?

until your whole system is polluted with disease, or until your nervous system is tottering under the strain and you become a physical and mental wreck? With special diseases and weaknesses you can make no compromise. You must conquer them now by the right treatment, or they will fill your whole life with failure, misery and woe. Uncertain, improper or half-way treatment can only do harm. There is no cause productive of more sorrow, suffering and misery than neglected or improperly treated special disease.

Twenty years' successful practice as a specialist for men only is strong presumptive evidence that we are thoroughly competent and reliable. Our methods are safe and scientific and we charge for honest, skillful and successful services much less than other specialists charge for the other kind.

YOU PAY WHEN CURED

Consultation and Examination are Absolutely Free, and We Cordially Invite All Ailing Men to Call for a Friendly Talk.

Weakness

We were the first specialists in the United States to publicly announce Prostatic Diseases as the primary cause of Weakness. By our new, original and improved methods we have cured hundreds of cases pronounced incurable by other specialists. And today we are the only specialists curing Vital Weakness under an absolute guarantee. Prematureness, loss of power, are invariably due to local disorders and cannot be cured by internal medicine or electric appliances. Our treatment quickly removes all abnormal conditions in the organs involved and invariably results in complete restoration of functional activity.

Contracted Diseases

We cure these troublesome diseases quickly and painlessly by new and improved methods. Neglect, improper or harsh treatment may result in scrious and painful complications, entailing in some instances irreparable injury to the organs involved. Hence the wiedom of seeking the sympathetic aid of a reputable specialist at the very inciplency of the disease.

Consultation and advice free at office or by mail. If you cannot call, write for our self-examination blank.

Varicocele

One man in every four has some degree of varicoccle sapping his vital strength, but not one in a hundred knows how to distinguish a genuine successful specialist from a smooth advertising pretender. There is but one certain and infallible way to be sure, and that is to visit and personally talk with ho or 15 prominent business men who have been cured. We have been curing varicoccle for 20 years and are prepared to show cured patients by the dozen. Don't take any doctor's word, but be sure to see the men who have been cured before you pay one cent. If you will observe the above advice you will not use your time and remember that varicoccle never was and never can be cured by local application. Our treatment is absolutely painless and devoid of danger, and we never fall to obtain a perfect cure in one week.

Specific Blood Poison

Our treatment for this loathsome disease is precisely that used by the most celebrated physicians at the famous Hot Springs of Arkaness. It is mild, yet thoroughly effective and curative and under its benign influence every particle of virus is thorough eradicated. Beware of unskillful or harsh treatment. Improper treatment administered by inexperienced physicians and sair-styled specialists may do more harm and work more havor to the system than the disease.
