TEXT OF THE PLATFORM

Republicans of Multnomah County Favor Several Radical Reforms. Following is the platform adopted

Following is the platform adopted by the platform committee:

"We, Republicans of Multnemah County, in convention assembled, amnounce our adherence to the following statement of principles:

The record and achievement of our party are a source of gratification and inspiration to every citizen. For the greater part of 50 years it has been in control of the affairs of our Government, and during that period, under the wise counsels of Republican statesmen and the beneficant operation of Republican principles, the material, moral and intellectual growth, prosperity and expansion of our Nation have been the wonder and grey of the world, while its influence in the cause of international justice and peace has grown in potency and scope until it is now the dominating force in the world's chancellories.

"Second—it may be confidently asserted."

chancellories.
"Second-li may be confidently asserted that, whatever abuses have sprung up that, whatever abuses have sprung up in connection with our great material growth and commercial expansion have been and will be hereafter dealt with by the Republican party, to the end that law may be vindicated and justice secured to the people. We believe that unpunished violation of law opens his door to anarchy, and that civic corruption is a curse and a menace to free institutions. We believe that no man or institution is too powerful to be amenable to the law and no man so noor or lowly but that he should be able to look with confidence to the law for protection, and a Republican law for protection, and a Republican President, assisted by Republican ad-visors, and aided by Republican law-makers, has vindicated those truths and has given to this nation an exhibition of courage and wisdom in the orrection of industrial abuses and the fearless enforcement of law, which is an inspiration to every loyal American

"Fifth-We favor the supremacy of Republican principles, and believe that no man should seek in the primaries of our party a nomination for public office unless he deems the success of Republican principles of more importance than the suchievement of personal ambition or the trailineation of personal enuity. WASHINGTON. Feb. 29.—There was a suggestion of "graft" in the House today in considering a puragraph in the Army appropriation bill appropriating \$250,000 for the purchase of 6000 acres of land near Washington, D. C., for a target range. Mann (Hilnois) opposed the proposition and ridicaled the idea of paying 1800 are so for such property when he

Patrons of Thirteenth-Street Carline Protest to Company.

A protest signed by nearly 100 patrons of the Portland Rallway, Light & Power Company and protesting against the unsatisfactory service on the company's Thirteenth-street branch has been presented to the officers of the corporation. The men who were active in circulating the petition explain that the complaint against open doors on cars was heeded before the petition was filed. The document is as follows:

chest. Thomas Walker, for many years a prominent contractor of this city, filed Wednesday morning at 9 o'clock at his home, 354 Montgomery street. A native of Leeds, England, Mr. Walker went to Canada in 1857, coming to Portland in 1875. He crossed the continent nine times before he decided to make his home in this city. He had been of the firm of Langford & Walker for the past six years, the two men being staunch friends as well. Although he never took an active part in political affairs, he ever held the best interests of the city and Nation at heart, and was always Nation at heart, and was always ailied on the side of good, clean government. A true son of his adopted country, he never forgot his native land. Mr. Walker is survived by his wife, soven sons and two daughters — Horatio Walker, New York: Sidney Walker, George Walker, San Francisco, Neison Walker, John Ryder Walker, Thomas Ryder Walker, Fortland; William Ryder Walker, San Francisco; Mrs. Jean Collins, Seattle; Mrs. Fred McBroom, Spokane.

by Young (Michigan), who said that the money would be expended by an honest Secretary of War and a great Depart-ment of the Government. After the provision had been further

debated, it was stricken out on a point of order by Mann. As the consideration of the bill pro ceeded, there was considerable discussion over an amendment by Tawney (Minnesota) providing 'that during the period between May I and October I of each year it shall be lawful for laborers and mechanics employed upon public works in the United States and the District of Alaska to work and receive componsa-

tion for work in excess of eight hours a day." The amendment was ruled out point of order, but not until Delegate Cale, of Alaska, had an opportunity to oppose it. He said that the southment of the Alaskans and of the workmen was

of order by Mann. A new provision was inserted, appropriating \$25.000 for the purchase of books of instruction, rangefinders, equipment, etc., for state coast artillery organiza-

The last paragraph of the bill also met attacked the proposition it involved of giving the Chief of Ordnance discretion in purchasing ordnance supplies without publicly divulging their ingredients, and the provision went out on a point of

order.

The bill then was passed, carrying a total appropriation of \$84,757,596.
