tained a Marvelous Growth of New Hair by the Use of a Simple Home Remedy After Hair and Tonics Had All Falled.

I had what most people would call a beau-

tiful head of golden hair. I prized it most highly, as I considered it my chief attrac-tion. Suddenly it began to come out very rapidly and at times I had intense itahing rapidly and at times I had intense itoning of the scalp. Physicians and hair specialists said my case was one of dandruff germs, hair microbes, etc., but nothing that they gave me did the slightest good. On the contrary, my hair seemed to come out even faster, and I was now fearful lest I should become entirely hald. In my despair a gave me did the slightest good. On the contrary, my hair seemed to come out even faster, and I was now fearful lest I should become entirely bald. In my despair a friend told me of an Ecuador herb which he said would positively grow hair on any head where the hair roots were not entirely gone, and he said the natives of the country where it grew were famous for their beautiful long hair. Upon medical advice, I combined this herb with Bay Rum and Menthel Crystals and immediately began its use. In three applications it entirely stopped the intense itching of my scalp and in a very short time it not only stopped my falling hair, but I noticed an abundance of new hair coming in. In less than one menth my hair was longer, thicker and more beautiful than ever. All due to this marvelous hair-growing herb. A lady to whom I gave the formula used it on her daughter, and she said it made her hair grow five inches in less than a month. Doctors to whom I have shown it say it is the only thing which will actually grow new hair, therefore, I think the public ought to have it. At first I thought I would keep it a secret and sell the secret, but when I think how I suffered and how houdreds of others must need it, the same as I did, I feel I ought to give it to the world. Therefore, I authorize this paper to publish the formula, which he as follows: Bay Rum, six ounces; Lavona de Composee, two ounces; Menthol Crystals. My drachm. If you like it perfumed, add a few drops of To-Kalon Perfume, which mixes perfectly with the other ingredients. This, however, is not necessary.

Ask your druggist for an eight-ounce bottle of Lavona de Composee' let it stand six to sight hours and add the remainder of the Lavona de Composee' is it strength if unsealed. Apply the preparation night in sealed. Apply the preparation in the formula of the body where you do not want to produce hair.

## Comforts for the Sick
