UNSELFISH MOTIVE SEEN

Consul in San Francisco Says General Had Mind to Give Pause to Younger Generation—Act Judged by Itself.

SAN FRANCISCO, Sept. 14.—(Special.)—"I believe that General Nogai was prompted to take his life, not alone because of his great love for the late Emperor, as a last tribute of affection, but also to give pause to the younger generation of Japanese who are pushing the nation ahead rapidly in many lines of progress...

"General Nogai was of the old order; with him the ancient traditions of our country were very dear and very much alive. We of the younger generation can hardly understand them."

"There was in his breast more of humanity and gentleness than of the warrior spirit. We regarded him as one of the great gentlemen of the age, and all his acts bore out that characterization."

"So, because of these things, his act cannot be measured by the ordinary standards of our new code. When several soldiers committed harikiri, following the Emperor's death, there was general criticism of their deed."

"The younger generation regards it as better that its distinguished and valuable men of the nation should not sacrifice themselves, that they can serve their country better by living than by death. But, again, I say General Nogai cannot be criticized by the common standard."

GLOBE THEATER OPENS

HUNDREDS ATTEND PERFORMANCE AT NEW HOUSE. Fireproof Structure Will Accommodate 800 Persons—Fine Organ Is Notable Feature.

To the hundreds who visited the Globe Motion Picture Theater at its opening performance last night, it seemed as though the management had not spared expense in looking after the comfort of the audience and in making a beautiful theater. What is more, films truly wonderful in character and of a remarkable clarity were presented, interspersed with songs and selections on the organ.

Entering the theater, the first the observer will notice is the spaciousness and the freedom with which the spectator is able to walk to his seat. This is due to the sacrifice of more than 100 seats by the management, with the purpose of doing away with the cramped feeling so common in some theaters.

As announced by J. L. Cohen, the idea of the proprietors is to supply the highest form of entertainment, coupled with education. Films of the latter nature will be shown at every performance. In connection with their desire to present only films fit for all, a strict personal censorship is placed upon the films before they are shown here, in addition to the National Board of Censorship.

In addition to the moving pictures, an especial attraction is the wonderful organ that has been erected. It was built for the theater, and the manufacturers sent an employe to measure the hall and to test its acoustics. It has taken almost six months to build the instrument, which was completed just before the opening performance. It is supplemented by an echo organ and by chimes.

The building is fireproof, and has far more exits than is legally necessary, while the space devoted to aisles and between the seats is more than sufficient.

The theater is a daylight one. In other words, films can be shown equally as well in the day time as at night, and to avoid delays every worker is duplicated.

Last night's programme contained some humorous pictures, an educational reel and a reproduction of a ship and beloved pioneers. Mr. Perkins first came to Baker in 1852, having crossed the plains in a prairie schooner from Missouri, where he was born in 1822. Soon after arriving in Baker he went to the Willamette Valley and did not finally settle in this vicinity until he had crossed the plains twice more.

He married Mary Henry and chose Wingville as his home here. About 35 years ago he moved to Baker. He is survived by five children, two daughters and three sons.

Captain Hansen to Be Buried. MARSHFIELD, Or., Sept. 14.—(Spe-

cial.)—The body of Captain Alfred Hansen, mate on the steamer Newport, who died suddenly of heart disease in this city, will be taken to Eureka on the next vessel bound for that port.

Mr. Hansen held captain papers, but was serving as mate on the Newport. It is said that he recently had been abroad to receive medical treatment. He was about 45 years old and leaves a widow and family, and is reported to be well known here. He owned a ranch in Humboldt County, California. A few days before his death he was actively engaged with his duties upon the vessel.

2 OF LAND 'GANG' CAUGHT

C. M. HURLBURT AND PEARL SNYDER ACCUSED OF SWINDLE.

Realty Board to Press Charges Following Complaint of Woman Who Traded House.

Two of an alleged "gang" of three who are said to have inveigled Mollie E. Wright, of 170 Sixteenth street, North, into a real estate deal by which she conveyed a lodging-house, valued at \$700, to C. M. Hurlburt, alias F. C. Bryant, alias Wilson, for two lots which she found on a rocky plateau seven miles from Prosser, Wash., were arrested yesterday by the police, on warrants.

Hurlburt was arrested by Detectives Hyde and Day and Pearl Snyder by Detectives Maloney and Swennes. He is charged with obtaining property under false pretenses and the Snyder woman with larceny.

The arrests were made at the instance of E. F. Cannon, chairman of the license committee of the Realty Board. F. Reardon, alias Pat Reardon, believed to be the third member of the party, will be arrested if the grand jury returns an indictment against him Monday. Other persons who have been bilked of property by real estate agents have been requested to file their complaints with the board, and similar action will be taken.

Reports handed to the Realty Board show that the two, with Mrs. Snyder as intermediary, induced Mrs. Wright to trade her business in the lodging-house to Mr. Hurlburt for two lots. These lots, she says, were represented by Hurlburt as being in the city limits of Prosser, Wash. The deal was made last Tuesday, and when Mrs. Wright went to see her lots she found them seven miles from where she had been given to understand they were. She accordingly reported to the Realty Board through J. A. Rosen, who represented Attorney A. B. Ferrera.

Hurlburt denies all wrong-doing in connection with the deal. He says that he offered to trade two lots in Yakutat, near Prosser, to Mrs. Wright for her lodging-house business. He says that in the contract made between them there is a clause which restores to her the lodging-house or its value if she is not satisfied with the lots.

Proceedings before the Realty Board Friday revealed the fact that a number of curbstone real estate men, who represented that they were connected with commercial bodies, but who in reality were not, had been swindling many persons during the summer. Mrs. Wright's case was declared to be one of these.

CHALMERS MOTOR CARS 1913 Made in Chalmers Shops

Read what Hugh Chalmers says about Chalmers 1913 Cars

As automobile dealers we are proud to sell Chalmers Cars—proud of the Chalmers organization—the following extract from a talk made by Mr. Chalmers in introducing the 1913 line to the dealers we believe is worth your reading. It tells more about what is behind Chalmers Cars than pages of specifications.

WE are in business not merely to make money, but also to make good. We are in business to stay. The Chalmers Motor Company can only continue permanently by building cars which offer the highest possible values at their prices.

For 1913 we have directed our energies to the development of Chalmers Cars along the lines of Comfort, Convenience and Appearance. Mechanically, our cars have been right from the beginning. Their records in scores of contests and in the hands of 27,000 buyers prove this. Yet we have refined and improved them mechanically from year to year. For 1913, however, we have directed our attention principally to making our cars more luxurious, easier to handle, and more beautiful. We believe that we have accomplished what we set out to do. We feel that we do not have to make wordy claims for our cars. We merely submit the Chalmers line for 1913 as the best evidence of what we have done—as the best proof of the high dollar-for-dollar value of our product. The cars themselves are more eloquent than a volume of claims. HUGH CHALMERS.

Come to our showrooms and see the cars themselves. "Thirty-Six" (four cylinders).....\$1950 "Six," 5-passenger.....\$2400 "Six," 7-passenger.....\$2600 (Prices include full equipment.)
