# STRIKE OF I. W. W. IN COOS IS CALLED

Order Follows Discharge of Members of Organization by Employers.

### ABOUT 100 MEN AFFECTED

Prosecution of Socialist Street Orators Ends When Officials of City and Party Reach Agreement. Test Is to Follow.

MARSHFIELD, Or., May 10,-(Special)-W. G. EMgworth, secretary of the local L. W. W. organization, announced this afternoon that the organization had called a strike all over Coos County, all the members in the logging camps, mills and railway work being

notified to go out.

Edgworth makes big assertions about the membership of the organization, but it is not believed that 100 men will respond to the strike order. He said that members were instructed to be peaceable during the strike and not to attempt to cause any disorder.

Owing to trouble with street orators Owing to trouble with street orators here during the last few days and rumors of a strike, some of the employers began weeding out the L. W. In their logging camps today, giving notice to all members of the organization to roll their blankets and leave. Edgworth says this was a lockout of his organization and caused the strike to be called. to be called.

Today is payday in the logging camps and many loggers are in town for their monthly celebration. It will not be known until Monday, or possibly later, just how many men the L. W. W. con-

Local street trouble was settled to-day by an agreement between the city authorities and the Socialists. The Socialists and their attorneys, Messrs. Stoll and Barclay, agreed, if the charges against the seven men arrested last week were dropped, they would not attempt to hold any more street meetings until the I. W. W. trouble was settled.

C. B. Ellis, the Socialist organizer of Portland, declared that he did not want to assist the L W. W. in any way, con-sequently the charges were dropped, and after the L W. W. trouble passes the Socialists will institute a test case to see whether the city can enforce the order prohibiting them from speaking on the streets. Meanwhile the Social-ists will meet in their hall.

HOQUIAM, May 10 .- (Special.) - Re ports coming in to President L. H. Brewer, of this city, during the past two days indicate that the quarterly congress of the Southwest Washing-

congress of the Southwest Washington Development Association, to be held at Kelso Thursday and Friday, May 22-23, will be one of the largest attended sessions of the organization. President Brewer bases this belief on the size of the delegations promised from the various commercial organizations, and on the interest in the double topic for the meeting—"I mmigration" and "Logged-Iand Development."

"I believe these two topics are the most important ones the Southwest as well as the entire Northwest, but Southwest Washington in particular, has to face at this time," declared Mr. Brewer today. They are very closely related, too, and especially so, when we consider the early opening of the Panama Canal and the great number of immigrants which will be brought to our doors, the Western doors of America, an entrance to the country heretofore not used by the immigrants from Europe.

"In the first place there is a class of

from Europe.

"In the first place there is a class of immigrants which we are glad to have, whether they come into the country with anything more than the clothes on their backs or not. Let it be emphasized also that there is a class of immigrants we do not want as matter."

sixed also that there is a class of immissrants we do not want, no matter if they should come here prepared to open large bank accounts.

"I believe the Southwest should see to it that it gets the class of immigrants from the countries that send good citizens. It means effort. It means expense, but it means development in the right way by people who come here to be Americans and not trouble makers. These people, the class we want, will develop the logged lands, make them productive. If we can settle the farm lands the cities will take care of themselves."
