7 BLOCKS TO BE PAVED

Coquille Improvements This Year to Cost More Than \$14,000.

COQUILLE, Or., June 4—(Special.)—
The City Council last week advertised for bids for paving seven more blocks with concrete macadam, making a lotal of 14 blocks in the business district that will be improved this year, besides a number of blocks in the residence section. The city is also undertaking the rebuilding of a portion of its water system at a cost of approximately \$10,000, material for which is now on the ground.

The municipal improvements now under way and planned for this season will cost more than \$40,000. A new city hall has just been completed at a post of \$14,000, and a sewer system at the came to the city in 1861 from Placerville, Cal., having gone to that state from Germany. At one time
