Department Investigators Say Strikers Were Wounded and Workmen Terrorized.

COMPANY DENIES CHARGE

Court Records of Conviction for Intimidation Regarded as Refutation-Enormous Profits Are Thing of the Past.

WASHINGTON, Jan. 10 .- A tale of Tabor oppression and large dividends in the Michigan copper district, is told in the report of the department of labor's investigation of the strike there, which was given out today.

The report says that strikebreakers were imported into the copper region by misrepresentations; that some were

taken to the mines at the point of pistols; that strikers were wounded by firearms in the hands of armed guards; out that no evidence was found of of-icers being injured by the strikers. With an authorized capital of \$2,500,-000, of which \$1,200,000 was paid in, the report declares that since 1871 the husband, were sent back to Russia to Calumet & Hecla has paid \$121,050,000 answer charges of murdering Bokowin dividends and reinvested \$75,000,000 cawa.

CALUMET, Mich., Jan. 10.—Counsel for the Calumet & Hecla Mining Company said today that the charge made in the Department of Labor report on the strike situation could be disproved. Guards accompanied the men from the trains," he said, "but this was nec-sary to protect them from the strikers forcing the men to work.

Seventeen convictions of strikers have been obtained in the Circuit Court at Lansing within the last week. The greater portion of these trials have ended with pleas of guilty to such offenses as intimidation, resisting officers and carrying concealed weapons. This court record simply wipes out the charges.

District Court, decided that he had no jurisdiction in the case. Although Mr. James feels confident that he has a legal and a moral right to present "Sapho," he does not want to oppose the policy of the city authorities who recently passed an emergency ordinance for the admitted purpose of preventing the production of these "Sapho" pictures.

"While the picture has been passed upon favorably by the National board of censorship," said Mr. James last night, "I do not want to enter into a controversy with the Mayor or other city officials. I do not want to display

The ordinance recently passed makes the Chief of Police the official censor of all moving picture films in Portland. Heretofore Portland has had no official censorship.

OLD BURGHERS IN ARMS

Johannesburg Has Appearance of Besieged City-Martial Law to Be Declared Throughout Rand Region Tomorrow.

PRETORIA, South Africa, Jan. 10 .-Not since the Boers laid down their arms to the Britons, in 1502, has the Rand been as near a state of war as it is tonight. Martial law will be declared tomorrow. Some of those who predicted failure of the strike have become so alarmed that they are pleading for white unity to prevent the orrors of a native uprising.

Johannesburg has the appearance of a besieged city. The calling out of the burghers has resulted in the gathering of 10,000 of the old Free State burghers, who have sprung to arms with the same amerity as in the days of a native uprising or when the British invaded the veldt. This force is under command of Jacobus H. de la Rey, the veteran Boer general.

The proposed mass meeting of the Trades Federation has not yet been prohibited, but the proclamation of martial law probably means that an attempt will be made to prevent a demonstration, which in the present temper of the strikers, who are inconsed by the arrest of their leaders, may result in an even more tragic affray than that which happened on July 4 last, when rioters were fired on by the troops. Further Trouble Expected.
