"BIG THREE" JOIN TO DOMINATE TACOMA

Fawcett, Drake and Atkins senger station and the freight depot to Control New Council in All Vital Matters.

RECALL TO BE REVIVED

Discharged Employes Scatter Many Petitions Against Woods and Mills and Plan to File Them May 5 or 6.

TACOMA, Wash., April 25 .- (Special.) As a result of Tuesday's city election that put back into the Mayor's chair Angelo Vance Fawcett, who was Tacoma's first commission Mayor and was recalled about the same time Se-attle recalled Hi Gill, there are likely to be some lively times around the City Hall during the month of May. With "A. V." or "the old man," by either of which titles Fawcett delights to be called, there were elected as Commis-sioners James C. Drake and Charles sioners James C. Drake and Charles D. Atkins. This means an entire new slignment of the City Commission, as Fawcett, Drake and Atkins have already made it plain they are standing together on all matters and the three constitute a clear majority.

Commissioner of Public Safety A. U. Mills has already had it shown to him that he is going to have trouble on his hands. He has two years more to

hands. He has two years more to serve, as has also Commissioner of Public Works Owen Woods, who was elected with the installation of the commission plan and has held office ever since, being re-elected by the largest vote of any candidate two years ago. In March ex-city employes launched a recall campaign against Mills and Woods and this has been allowed to rest during the city cam-paign. Now it is announced that it is going to be revived and that recall petitions with the necessary 5000 signatures will be filed about May 5 or 6. tures will be filed about May 5 or 6.
Chief George McAlevy, of the fire department, and Chief of Police A. P. Loomis are the main causes of all the disturbance and recall agitation.

disturbance and recall agitation.

Commissioner-elect Drake, who will be assigned to the department of light and water, will have the most plums to distribute. Rumor has it from good authority that Hamliton F. Gronen, defeated candidate for Commissioner at the primary, and who worked hard for Fawcett and Drake and against Lawson, will have the position of engineer in the city water department. A. L. Thorn, another defeated primary candidate, is said to be slated for electrical superintendent to succeed B. W. Col-lins. There will be many other good

lins. There will be many other good positions at Drake's disposal.

Mayor Fawcett has not many plums to give out. They are confined to the city health department and allied branches, largely under civil service. The municipal dock was under the Mayor's department until this week, when the outgoing Council by ordinance transferred it to the Commissioner of Public Works. There is, however, no law to prevent the new Council transferring it back the same way, which will give the Mayor a few eral years ago largely on Atkins' rec-

Mayor-elect Fawcett has gone on a fishing trip for a few days and de-clined to make any statement about his future plans, except that he will en-force the laws, which is taken by some Halibut from the Grays persons to mean that he will revive and inforce his dead-letter anti-treating ordinance that caused his undoing three years ago. He is more than delighted with his "vindication," as it pleases him

'I have told Fire Chief McAlevy that I wanted a man as chief who was boss," he said. There has been too much dis-sension lately in the fire department. I haven't decided what I will do about my own appointments and I won't de-cide until later. I want to size up the situation first."

W. W. Seymour, well-known capi-talist, who retires from the office of

Mayor on May 5, was elected three years ago when Fawcett was recalled and is completing the term for which Fawcett was originally elected. nour was not a candidate for re-ele tion, saying he wanted no more of the job in his.

FORESTRY TALKS BILLED

FEDERAL, STATE AND ASSOCIATION OFFICIALS TO CONVENE.

Two-day Programme Will Include Illus. trated Lecture by C. H. Flory Depicting Fighting of Fires.

SALEM, Or., .-pril 22.—(Special.)— An interesting feature of the meeting of the Federal Government, state and association officials interested in for-est fire prevention to be held in Salem, May 1 and 2, will be an hiustrated lecture in the Senate chamber by C. H. Flory, United States Forest Service, the Flory, United States Forest Service, the evening of May 1. Mr. Flory has films showing many fires in various sections of the country and how they were fought. The programme of the meeting, which was announced by State Forester Elliott today, is as follows:

ing, which was announced by State Forester Elliott today, is as follows:
Friday—Purpose of meeting, importance and responsibility of work, need for close co-operation, etc. F. A. Elliot; use of forms, daily reports, payrolls required by both state and associations, E. O. Siecke and H. P. Henry: relation of timber interests, state and Federal Government, C. S. Chapman: trall-building, laying out of system of tralls, location of individual trails, tools, should work he done by patrolmen, day labor or contract? costs, etc. C. V. Oglesby and C. R. Seltz: telephone line construction, material to use for different lines, cost of work connecting with farmer lines, etc., W. D. DeVarney and J. W. Ferguson, Jr. Illustrated lecture on forestry, C. H. Flory, United States Forest Service.

Saturday—Patrolmen, kind of men required for work, should they be local men or outsiders, supervision of their work, need for acquaintance with public, distribution of educational material, co-operation between patrolmen of different agencies, etc., W. J. Lander and Neison F. MacDuff; lookouts, their connection with patrol, how they should be equipped, etc., T. H. Sherrard and Karl Mealey; slash-burning, burning along rights of way, logging camps, attitude toward ranchers, issuing permits, etc., John McDonald and M. L. Erickson; fire prevention and fire-fighting plans, F. A. Elliot; miscellaneous matters; luncheon, Marjon Hotel. Short talks by timber owners and E. T. Allen, Western Forestry and Conservation Association.

ROAD TO ADD TO SHOPS Many Improvements Soon to Start at La Grande.

LA GRANDE, Or., April 24.—(Special.)—In an interview this morning,

J. P. O'Brien, vice-president and general manager of the O.-W. R. & N. Company, announced that improvements and new building to the extent of \$50,or \$60,000 will be under way in a short time in La Grande. The contemplated new buildings are an emergency hosital, where minor injuries will be Astronomers Find Hitherto Unreated by a trained nurse, added stalls to the roundhouse, a footway running from a point between the railroad pas-

the machine shops and roundhouse, and the completion of the Second-street ELECTRIC STREAM FOUND subway leading to the Rivers School. Bids have been submitted and work will be under way in the course of a month. It will cost \$5000 when com-pleted. It will not contain beds, but is intended strictly as a station where mashed fingers and tess, small bruises and uts and burns can 'dressed with-out the assistance of the railroad phys-icians.

The stalls to the roundhouse are added storing space for engines when not in use and are to be of brick. The footpath is being erected for the

purpose of minimizing the probability and possibility of accident to railroad men when coming from or going to the shops.

cial.)-The discovery of the hitherto unknown cause of gravitation, as well The subway was begun last Summer, as a new theory of the nature of light ut Winter and water overtook the which upsets all the accepted ideas on xcavators and the work was post-the subject, is the announcement of loned until this Spring. OREGON STUDENTS NAMED REV. O. S. BARNUM HEADS COLUM-

National Honorary Agricultural Fraternity Elects Members.

OREGON AGRICULTURAL COLLEGE Corvallis, April 25 .- (Special.) - Gamma Sigma Delta, the National honorary agricultural fraternity with a chapter at the Oregon Agricultural College, has announced the election of eight members of the junior class of this col-lege to membership. These men are George Hardman, of Ontario; C. E. Hill, tendance. Rev. O. S. Barnum, of

ASHLAND PASTOR INSTALLED IN NEW FIELD OF LABOR.

Rev. H. A. Carnahan.
ASHLAND, Or., April 25.—(Special.)—Rev. H. A. Carnahan, D. D., was formally installed as paster of the First Presbyterian Church of Ashland at a meeting of the Southern Oregon Presbytery, which was held in this city April 21 and 22.

He is a native of Illinois and is a graduate of the Omaha Theological Seminary. Before coming here, he filled pastorates at Central City, Neb.; Anaconda, Mont..., and Spokane, Wash.

months will enable school children to and astronomer in charge of the Naval go to and come from school without fear of accident. Other improvements are contemplated.

These are some startling claims made by Professor See:

Gravitation is due to bombardment of tiny particles hurled through space in electric streams.

known Gravitation Idea.

Old Wave-Light Belief Is Thrown

Into Rubbish Heap-Atoms From

Sun Bombard the Earth

Through Space.

SAN FRANCISCO, April 25 .- (Spe-

These particles shoot through space in all directions at the incredible speed of 185,000 miles a second, traversing of 185,000 miles a second, traversing the distance between the sun and the earth in eight minutes.

By the impact of their striking they drive bodies together, producing the effect hitherto called "attractive" force of gravitation.

Their source is in the millions of giant suns which stud the heavens as stars.

Light consists of still smaller egg-shaped particles of matter, bearing an electrical charge on the smaller end. traveling at the same speed as elec-tricity and the particles which cause gravitation. The old wave theory of light, with its assumption of an all-pervading ether, goes on the scientific rubbish

eap. According to Professor Sece, it was the impact of a multitude of tiny par-ticles, borne on swift electric streams, that drove the apple down upon Sir Isaac's head, and it is the same im-pact that holds the earth in its course

Previously, the halibut supply has come from Alaskan waters and the fish are from one week to several weeks old before they reach the market.

To it.

Professor See says he has absolutely proved his theory by a mathematical application of it to known facts of the universe. It involves recent discoveries that electric currents carry solid matter with them.

BIA PRESBYTERY.

Other Officers Elected at Meeting at Kelso and Women's Organization Also Chooses Leaders.

KELSO, Wash., April 25 .- (Special.) -The sixth annual meeting of the Columbia River Presbytery in session George Hardman, of Ontario; C. E. Hill, of Springfield, Mass.; R. E. Miller, of Spokane, Wash.; O. B. Hayes, of Pasadena, Cal.; R. G. Fowler, of Portland; H. M. Currey, of Baker City; H. C. Belton, of Gardena, Cal., and John Flint, of San Diego Cal. ton, of Gardena, Cal., and John Filit, of San Diego Cal.

The neophytes were decorated at a recent convocation with the purple sash of the fraternity. This ceremony was conducted by Dean A. B. Cordley, dean of the School of Agriculture and director of the Oregon Experiment Station, and himself a member of Gamma, Sigma Delta. The initiation ceremonies will take place on Monday evening.

was chosen temporary secretary. Rev. J. T. MacMurray, who has been assigned to Ridgefield, and Rev. Samuel Forsythe, of the Goldendale church, were received into the Presbytery. Speakers at the meeting included Rev. H. S. Templeton, of Vancouver, who spoke on the subject of "For Us, or Not for Us," and Rev. Arthur L. Hutchemon, of Portland, on "The Supernatural and the Virgin Birth."

and the Virgin Birth."
Coincidental with the meeting of the Presbytery was the meeting of the Presbyterial, the woman's missionary organization. A large number were present at the meeting and interesting papers were read, discussions held, re-ports made and other business trans-

Officers elected for the year are: Mrs. H. McMaster, of Camas, president; Mrs. William T. Pottsmouth, of Ells-worth, vice-president; Mrs. O. Hylander, of Chehalls, recording secretary, Miss Jessie Snyder, of Kelso, Christian Endeavor and band secretary: Mrs. Riggs, of Vancouver, secretary of literature; Mrs. Flora D. Sunderland, of Vancouver, box secretary; Mrs. H. S. Clark, of Camas, treasurer,

JETTY BACKERS GO EAST

Aberdeen Committee to Present Arguments in Washington.

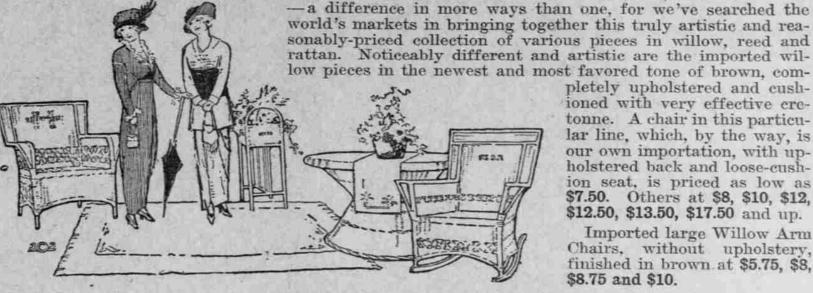

ABERDEEN, Wash., April 25 .- (Special.)—W. B. Mack and H. M. Delanty, Aberdeen members of the committee which will present arguments May 5 before the National rivers and harbors board, United States Engineers, for an extension of 5500 feet for the north jetty, will leave tomorrow for Washington, D. C. Frank M. Lamb, of Hoquiam, the third member of the committee, is in Seattle today, where he is

mittee, is in Scattle today, where he is consulting his physician, upon whose word will depend whether or not he will accompany the committee.

The arguments which will be submitted both to the Government Board of Engineers and to the Senate rivers and harbors committee will follow two distinct lines; first, that the improvement will result in permanently betment will result in permanently bet-tering the harbor, and second, that the expenditure will be fully recompensed for by the money which will be saved.

trict quite a sum by teaching classes for which it would have otherwise been necessary to hire extra teachers.

Chehalis School Troubles Settled.

CHEHALIS, Wash., April 26 .- (Speial.)-Chehalis' public schools will continue to the end of the school year, the board having amicably adjusted matters in connection with the finances of the district with the state board of accountancy. The local board has made cuts in the budget for next year's school expenditures to keep the current running expense within the 10-mill levy fixed by law, which also will make it possible to pay upwards of \$4900 on the debt of the district. The total number of teachers has been reduced from 37 to 27 and all possible expense that could be eliminated cut out. Salaries of teachers have been educed, janitors' wages cut and a general policy of retrenchment begun.

North Bend Mayor Plans Natatorium NORTH BEND, Or., April 25.—(Special.)—Mayor L. J. Simpson, who has a palatial country home on the ocean beach, about 15 miles from North Bend, MARSHFIE has let a contract for a natatorium of modern appointments. The building will be two stories and with a ballroom 70x27 feet above the natatorium. foundation will be of concrete through out and the swimming pool will be sur piled with tempered sea water. Mr. and Mrs. Simpson are very fond of entertaining, and Shore Acres is the cene of week-end parties through all

Seaside to Ask Bids Soon.
