WARNING TO USERS OF HAIR REMOVERS

Don't Experiment With So-Called Superfluous Hair Removers.

If you use a simple toilet preparation and it proves to be worthless you only lose money. It is a very serious matter, however, when you use a doubtful hair remover, because it will either result in permanent disfigurement or cost you many dollars each month or possibly years to gain control of the growth after it has been stimulated by the use of such preparation.

It is a waste of time to use pastes and rub-ons. Preparation merely remove hair from the surface of the skin. To rob hair of its life sustaining force you must destroy the root. Nothing but DeMitracle, the original liquid depilatory, can accomplish this result.

Others are worthless imitations—refuse them.

DeMitracle is sold in \$1.00 and \$2.00 bottles. The larger size is the most economical for dermatologists and large users to buy. If you desire will not supply you, order direct from us. The truth about the treatment of superfluous hair mailed in plain sealed envelope on request. DeMitracle Chemical Company, Dept. E, Park Ave. and 129th St., New York—Adv.
