Thomas Nelson of Astoria, member of
the state board of pilot commissioners,
is to be removed from office and the
members of the port of Astoria will be
asked to recommend his successor, according to announcement made here
today by Governor Ofcott. Charges
that Mr. Nelson had refused to discharge from his employ H. F. Huttula,
who had been denied citizenship by the
courts because of his disloyal tendencies were filed with the executive by SALEM, Or., Sept. 13 .- (Special.)cies were filed with the executive by Clatsop post, American Legion, a few days ago, and in a subsequent letter issued by the executive Mr. Nelson was asked either to refute the accusations

or tender his resignation.

In a letter received by the governor today Mr. Nelson refuses to relinquish his office and denies the charges made His letter follows:

His tetter follows.

I beg to acknowledge receipt of your communication of September 10. I have carefully neted the entire contents thereof, but before replying to the specific matters there in contained permit me to present to you first the following preliminary facts. Verdict of Jury Fallowed.

In 1917, to the best of my recollection, Huttula was arrested for a violation of the espionage act and was tried before a jury in the United States district court in Portland, who found nim not guilty. I am not now, and was not then, familiar with the details of the case, but understand that his prosecution arose dut of his application for cancellation of his citizenship papers in order to return to Finland. Having been found not guilty I had an absolute right to believe that he was in fact not guilty of any acts with which he was charged. He was tried before a jury of American citizens, by an American court, inder American laws, and as an American citizen it was not my duty, right nor privilege to question the action of the jury.

Huttula Placed in Class A1, Hattala Placed in Class AI.

The records will show that Huttala registered for the draft and was placed in class AI, but after the physical examination, which disclosed physical allments, he was placed in a lower class for limited service, as an accountant, but was never called for service. While Huttula was in our employ there was no charge of any kind against him and for that reason I had no reason to believe that he was objectionable to the government of the United States and the community at large.

ernment of the United States and the com-munity at large.

On August 12, I received a letter from the post of the American Legion requesting that the services of Eutrula be immediately dispensed with. In response thereto I vol-untarily appeared before the Legion and in-formed them, among other things, that Huttula was only temporarily simployed dur-ing the fishing season, that on account of his knowledge of our affairs it was prac-tically impossible to dispense with his serv-ices during the height of the season, and that on account of these reasons I felt that I could not, and would not, comply with their request.

Huttula No Longer Employed.

Conscience Held Guide.

The fishing season being over, Mr. Huttula is no longer in our employ, except that we may require his services for a few days later on in making up governmental reports to the federal trade commission concerning our business for the season of 1919.

Being solely repossible to the board of directors and stockholders of the institution of which I am the manager, for its successful operation and conduct, I must insist that I be allowed to run its affairs as my conscience dictates and my best business judgment directs.

The governor's letter to Mr. Nelson

This is to acknowledge receipt of your tter of September 12 in response to mine letter of September 12 in response to mine of recent date.

I have given every consideration to all that you say. I believe that the people of the sinte are properly appreciative of the service which you say you gave in various capacities during the war, as I believe they are appreciative of what services you have given in a public capacity.

The fact remains, however, that the alien to whom I referred in my recent communication has been in your employ and you refused to dispense with his services and now intimate you plan soon to re-employ him.

I note that you declins to resign. Under the circumstances I deem it necessary to advise you that steps will be taken at once toward the selection of your successor as a member of the board of pilot commissioners.

In answer to that it is my recollection having stated that no collection of individuals could do that which the government could not do.

On August 21, just four days before the close of the fishing season, I received another letter from the secretary of the post insisting that Huttula be discharged.

of the Portland bureau of the federal Immigration service, and Deputy In-spector Frank Watkins, on the tech-nical charge of having evaded the immigration inspection when he entered this country from Canada. He was held at the county jail until yesterday noon, when bail to the amount of \$500 was furnished by the local boilermakers union and he was released. Mrs. Svendsen has been serving as acting secretary of the Portland organization of the socialist party and has been an active assistant of Saunders.

The house in which they were living is in a secluded spot and a fence surrounding it bears the signs "Beware—Savage Dog." The precautions which Saunders and Svendsen took were sufficient to assure them secrecy until In-spectors Bonham and Watkins under-took to search the place. Mrs. Svendsen was arrested at this house. Saunders, however, was apprehended at the en-trance of the headquarters of the sovie council at 121 1/2 Second street, the of-fices of which are embellished by a sign showing a hand with a flaming red

The Portland activities of Saunders include participation in the formation and actions of the Workmen's, Soldiers' and Sallors' council, which, until the enforcement of the anti-syndical-ism act, held meetings in Arion hall at Second and Oak streets. Saunders and Harry M. Wicks were two of the leaders in the organization of the council and were strong advocate of overseas service and recently won the the "one big union." A resolution introduced in the Cen-BUSINESS MEN ORGANIZE trail Labor Council last Thursday night by Saunders drew upon him the disfavor of the conservative element of the council. The resolution called for the appointment of a committee of five representatives of the council to wait upon President Wilson upon his ar-rival here and to demand an explana-tion of the attitude of the United
