

HARDING ACCUSED OF FLOPPING 12 TIMES

Governor Cox Renews Attack on Republican Nominee.

OHIO CAMPAIGN CLOSED

Statement of Taft, Root and Others Said to Be a Flag of Truce for Senator Harding.

CLEVELAND, Oct. 16.—More charges against Senator Harding of vacillation of the league—"of somersaulting, wiggling and wobbling"—were made by Governor Cox in a statement issued tonight and in five speeches closing his three days' Ohio campaign.

Senator Harding's address yesterday at Indianapolis was the basis of Governor Cox's renewed assault. The governor declared it was the senator's "flag of truce" on the league issue and he charged his opponent with "attempting to wiggle himself into the presidency."

That the senator's Indianapolis speech was a plea to Cox's advocates, after "rejection" of the league in his Des Moines address, was asserted by Governor Cox, who pictured the senator as leaving "his dugout" and crying "kamerad, kamerad" to the hosts of peace.

"A great principle has been vindicated in the hearts of the American people," said the governor's statement. "They are for the league of nations."

Wiggling Called Pathetic. "When the senatorial oligarchy wrote the republican platform it was deliberately made meaningless and vague. It was the vehicle which was to enable the senatorial candidate to ride through the campaign assuming the attitude of a victor over all people. To Johnson followers he said what they desired to hear; to the friends of Taft and Root and Wickensham his speech was veiled innuendo and implication. In the face of the greatest issue in all history it was unfortunate that a great political party did not take a more definite stand. It was pathetic to see its candidate attempting to wiggle himself into the presidency."

"I was convinced, when I left the great western coast, that the issue of protest and indignation was growing. It is here, and Senator Harding is helpless in No Man's Land, bereft of public confidence.

Statement Called Truce. "Within a week Judge Taft sent forward a flag of truce from Vancouver, stating his candidate had seen the light. Yesterday Judge Root and 30 associates in New York came forward with another flag of truce. This morning Senator Harding leaves the dugout and comes to the hosts of peace, with his hands to high heaven, crying 'kamerad, kamerad.' The senator has heard this cry before, and has found that it came from those who could not be trusted, even after they surrendered. Speaking plainly, Senator Harding deserves his present plight. No man, who in the midst of grave conditions exhibits such cowardly words and then more words, which mean nothing, deserves the confidence of the people."

"I felicitate the friends of peace," the governor concluded. "The new order in the world is assured. It has been a great fight, not for the democratic party, but for humanity. The jury has the evidence and it calmly but happily awaits the hour to render the verdict."

Governor is Cheered. Governor Cox's attack on his opponent and his league preachments were cheered by all his audiences, especially at an afternoon gathering of women here.

At Elyria the governor, discussing pro-Germanism, declared "every mother's son of the enemies of America during the war will vote for Senator Harding."

Questions invited by the governor and asked by several, with women unusually prominent in the quizzing, drew amplified statements on Japanese immigration from the candidate. He stated his opinion that the Japanese land dispute in California was "a California question."

Women Appealed to. "My judgment is," he said, "that the federal government should accept the decision of California. Adding that the land and Japanese immigration questions were "internal affairs" of the government, said that the league, with the "HIT" and reservations would have no jurisdiction over them.

"When Japan is so greatly interested" as woman asked, "every mother's son certainly," he replied. "This is a white man's country, not a yellow man's country."

To his women audience Governor Cox declared that through woman suffrage American women could "come to the front in time to save civilization of the world."

EX-WIFE SUED FOR \$1500 Walter P. Meyer Alleges Alleged Partner Failed to Divide.

Walter P. Meyer yesterday filed suit against Hulda Meyer to recover \$1500 he alleges he invested in a drug store in which he says the pair were partners. He charges that the defendant failed to share profits according to agreement.

The couple have twice been married and just recently Mrs. Meyer received her second decree of divorce. She was proprietor of the drug store and had been in need of a pharmacist at a time when her ex-husband was out of work. He obtained employment in the store and later re-married his ex-wife.

COOLIDGE SEES VICTORY People Want Change and Have No Use for Wilson League, Is View.

WASHINGTON, Oct. 16.—Conviction that the people desire a change and that republican victory in November is assured was expressed here today by Governor Coolidge.

It was evident, he said, that the people did not favor the covenant of the league of nations as President Wilson brought it back from Paris, but in reply to a question he added that in his opinion the high cost of living question probably concerned the people more intimately than any other.

DANIELS TAKES ACTION

Investigation of Alleged Indiscriminate Executions of Natives by Marines Is to Start.

WASHINGTON, Oct. 16.—Substitution of Major-General W. C. Nevill, marine corps, for Brigadier-General J. H. Pendleton on the board which will begin here next week investigation of charges of illegal executions by marines in Haiti was announced today by Secretary Daniels.

General Pendleton, the secretary said, had served in Haiti, and the investigation should be by men "detached from Haitian affairs."

Doubt as to jurisdiction for court-martial should ex-members of the corps be implicated by evidence which was cleared, Mr. Daniels said, adding that an opinion had been requested from the judge advocate-general.

Ex-Marines Are Named. A number of ex-marines named in testimony taken by Major-General John A. Lejeune, commandant of the corps in his investigation in Haiti are being sought. In several cases of men still in the service, where sufficient evidence has been found, court-martial proceedings will be instituted, Secretary Daniels added.

Original Sent Headquarters. "But there might have been reasons that persons implicated would have wished to destroy the report," he added.

The original of the document, as shown by a copy made public yesterday, was dispatched to marine corps headquarters here under date of March 19, but never reached the official file.

Referring to General Barnett's reference to "indiscriminate killing" of Haitians by marines in his "personal and confidential letter" to Colonel Russell, Secretary Daniels reiterated that he believed the officer "could not have intended that phrase as descriptive of the general condition in Haiti."

MONTAVILLE FLOWERS TALKS ON DEMOCRATIC FAILURES.

Bulging Warehouses and Lack of Markets for Wool Are Pointed to in Attack on Wilson.

LA GRANDE, Or., Oct. 16.—(Special.)—The opening gun for the republican campaign in Union county was fired last night when Montaville Flowers of Los Angeles, Walter L. Foote of Salem and Representative Sinnott, who happened into La Grande while on his way to Wallawa, spoke to a large crowd at the Methodist church.

Mr. Flowers held the closest attention of the audience for two hours and a half, during which time he talked of government in general, of the league of nations and the tariffs which, during the present administration, have brought such hard times for the farmer, that at the present time in Union county, wool is stored in the warehouses, unable to find a market, while cattlemen are not able to sell their stock for what it cost to keep them through the winter.

One of the most effective arguments used by Mr. Flowers against the league of nations was that during the whole seven months that it was being composed, not one prayer was offered in its behalf because there were many gods represented. "If the Americans had offered prayer, it would not have satisfied the Japanese who worship Buddha nor the Mohammedans, nor the many other religious people who have gods of their own, so not being able to pray without a row, the prayers were dispensed with. And yet, President Wilson asks this nation to ratify and become a party to an international agreement that was adopted at a conference where the name of the deity was not mentioned and no prayer was offered to the higher power than mere man."

The speaker made the league proposition so clear that none failed to understand his message.

7000 Members Red Cross Goal. SALEM, Or., Oct. 16.—(Special.)—Seven thousand members is the goal of the local chapter of the Red Cross, which will start a membership campaign armistice day, November 11, and end Thanksgiving. Practically every section of Marion county will be covered in the drive.

Smolen Island, near Kristiansund, Norway, is a flat spot of land possessed of numerous areas of peat bog. It is doubtful whether there is anywhere a better location for the production of peat in large quantities.
