

LONDON OUTLOOK FOR BOXING GOOD

Jack Dempsey Likely to Go
Abroad Soon.

WILLS MATCH IS TABOO

Promoters Alleged to Fear That
Bout Would Queer Game
in Many States.

BY SPARROW MCGANN.
(Copyright 1922, by The Oregonian.)
NEW YORK, Sept. 16.—(Special.)—With the heavyweight situation in this country looking like a 3-year-old derby hat, the eyes of a lot of folks, including Jack Dempsey and his dapper manager, Jack Kearns, are turning toward dear old London, where the fall and winter situation promises some business.

It seems to be a cinch that the two Jacks will wander overseas before long. In view of this, what with the impending battle between Joe Beckett and Frank Moran, and decided activities of promoters in trying to fix things so that Jack Bloomfield and Roy McCormick will find it to their interest to get together, and not forgetting Carpenter, the English outlook is very bright.

Ted Lewis Active.
Ted Lewis has already begun his autumn activities, having been touring the provinces all summer with Sid Burns, the first man who ever fought Carpenter in England, Curly Watson and Jack Sharp—all English second-raters of worse. Lewis, by the way, was recently in Germany and says there is a lot of interest being taken there in boxing.

The German battlers go at each other like tigers, he says, and stand all sorts of punishment. They have a lot to learn about the game but this will come in time and then, he predicts, there will be some real championship contenders coming out of the Rhineland.

Carpenter is looking caste even in his own country as a result of his successive postponements of the projected fight with Battling Siki. It was first set for late August, then at Carpenter's demand it was postponed until September 1, and now the date has been changed to late this month. Whether he intends to meet the Senegalese or not is a question no one can answer.

While waiting for Carpenter, Siki has turned down at least two good offers to meet negro fighters. Siki himself is pretty nearly as dark as a bar of Italian chocolate, but he says that he is a Senegalese, therefore not a negro and he draws the color line. Can you beat it?

So far as anyone knows, Carpenter's agreement to meet Dempsey in England this year still stands. It looks certain that if Dempsey fights anywhere in the near future it will be abroad. The public is not fired up on the proposed Willard-Dempsey bout, although Rickard says he will promote it, and Brennan, Mike, and the rest of the heavies are not seriously regarded as opponents for the champion.

Dempsey-Willis Bout Feared.
Talk as you will, no promoter seriously wants to stage a Dempsey-Harry Willis bout. This chiefly because, despite all that you read, such a bout is not regarded by fight lovers as good medicine. They believe it will ruin the game in many states where fighting is now permitted. Besides, the idea that Willis is a wide-water, not considerable of a shock as a result of Willis' meeting with Tut Jackson and the best critics believe the negro would not last a great while in the ring with the champion.

If there were a demand for the fight and if money could be seen in it, conditions would long ago been created whereby it would have been impossible for Dempsey not to sign for a battle with Willis. As it is, while there is plenty of talk no one has shown Dempsey how a great deal of money can be made out of the bout.

IDAHO COACHES MAKE HIT

R. L. MATHEWS IS NEW DIRECTOR OF ATHLETICS.

Work at Willamette Noteworthy;
McMillan's Spurs Won With Vandal Basketeers.

UNIVERSITY OF IDAHO, Moscow, Sept. 16.—(Special.)—The University of Idaho is well pleased with the coaching staff that will guide the Vandal athletic teams through this first full season of coast conference athletics.

R. L. Mathews, athletic director and head football coach, is a remarkable developer of coast athletes and a man in coast athletics for many years. Mathews' work at Willamette, strengthened by his work with the Washington freshman team last year, has won wide recognition. Idaho has been congratulated many times on the wise choice of a successor to Tom Kelley.

David MacMillan won his spurs by his work with the Idaho basketeers last year. MacMillan has coached the Idaho freshmen two seasons in football. Although essentially a basketball mentor, he gets results in football.

As assistants Mathews and MacMillan will have Albert Knudson, an ex-Idaho man, and Ray E. Neidig. Knudson will be graduate manager of athletics, succeeding Fred E. Graf. He is a four-year letter man and since his varsity football days has been coaching high school football with good results. Neidig is a professor in the college of agriculture, but his knowledge of football makes him a valuable member of the staff.

YOST COACH FOR 21 YEARS

Still Another Season Is to Be Started at Michigan.

ANN ARBOR, Mich., Sept. 16.—Fleeting H. Yost, for more than two decades pilot of the Michigan football eleven, is about to start his twenty-second year as coach of the Wolverine grid warriors.

During these 21 years which are passed, while the veteran coach has guided Michigan's gridiron destinies, stars have twinkled, faded and some have been forgotten, but the "old man" enters each new campaign with all the enthusiasm of a more youthful coach.

During the 21 years Mr. Yost has coached at Michigan, the Wolverines have won 123 victories, tied nine

games and lost but 25. During this period he has seen his men roll up a total of 4773 points as against 681 points scored by the opposition.

Michigan's football record in the Western conference alone, of winning 55 games, tying four and losing but 22, is largely due to the Yost regime. Yost came to Michigan in 1901, and previous to that time he had coached one year each at Ohio Wesleyan, University of Nebraska, University of Kansas and Leland Stanford.

Last winter when the football coaches of the nation met in the east to amend certain rules and let loose a fusillade of shots at the shift play, credit was given to Major Charles Daly of West Point and to others of the eastern coaches for what was accomplished at that meeting, but the fact remains that Fielding Yost was among the most ardent backers of the rule from the first, and did everything within his power to have it adopted.

DICK WADE STAR CURLER

HARD-HITTING OUTFIELDER
GREAT STONE-HEAVER.

Each Winter West Duluth Youth
Plays in Annual Bonspiel and
Finishes Near Top.

DULUTH, Minn., Sept. 16.—(By the Associated Press.)—Dick Wade, hard-hitting outfielder of the Minneapolis American association team, recently sold to the Washington Americans, is regarded as one of the best curlers in North America. According to close friends of the West Duluth youngster, Wade owes his present position in professional baseball to his ability to heave stones in championship form.

Wade learned the curling game even before he had learned to bat. He reached his majority Dick shot the stones at a clip that caused many of the old-time curlers to wince with envy, but because of his youth did not get a great deal of encouragement at this "old man's" game.

When he was about ready to blossom forth as a contender for curling honors, he broke into the local commercial baseball league, and later went to the Michigan-Ontario league.

Meanwhile Dick returned home each winter to participate in the Northwestern Curling association's annual bonspiel, the premier event of its kind in North America. Competing with the best curlers in the United States and Canada, Dick always managed to finish around the top, although he never saw his rink win the grand aggregate prize, which went to the best players.

However, three years ago, Wade curled his way into the heart of Minneapolis baseball club, also president of the Northwestern Curling association. The Miller chief, after learning of the lad's diamond prowess, signed him.

Members of young Wade's West Duluth rink who wondered if their skip would have time for curling have been assured by his father that Dick will be on hand when the curling season opens. The elder Wade said Dick was just as fond of curling as he is of baseball.

GOLE BALL "FLOORS" FISH

Freak Shot Causes Argument Between Players.

A golf player was making his way over a course in which there was a stream between the twelfth and the thirteenth holes. Driving to cross the water he shot a low ball with great force. A playful fish which had been swimming peacefully against the current and on the surface, pushed his head up to take a look at the scenery, and just as he did so the golf ball came by and walloped him on the head. The fish gave one convulsive fling and withdrew from further activity in the universe, according to an exchange.

The theory was played the ball insisted that there was nothing in the rules providing for casual fish and maintained that he should not be penalized for that reason. He argued that a ball which hit a fish was entirely different from one which was lost in the water.

His partner held that as the fish was casual to the water it was secondary to casual water and therefore the penalty for casual water should be enforced irrespective of the hard luck which befell the fish. The other poor fish in the stream held a mass meeting at which resolutions were adopted decrying and censuring a game which had become so all-fired rough a fish didn't dare even to poke its head out of water for fear it would be brained by some idle human who had nothing better to do than knock a white ball over a meadow. The fish added golf balls to their list of other hazards, comprising hooks, seines and fish balls.

19th Hole in One Latest.

L. Alexander of Madison, Conn., and Philadelphia, made a freak drive recently on the Shenecossett links. He played from the eighteenth tee and the ball hit the clubhouse and bounced on the porch and ran into the locker room; from where it was impossible to play the second shot. Governor Lake of Connecticut, who witnessed the shot, said it was the first time in the history of golf that a nineteenth hole was driven in a single stroke.

Golf Facts Worth Knowing.

BY INNIS BROWN.

Q. In a single match A and B both drive into the rough and they come up. A's caddy is standing beside a ball, which he tells A is his ball. B's ball is not found and he goes back and drives another. A reaches the green on his second stroke whereas B after playing four in a trap picks up. As they walk to the next green, B asks to see the ball that A is playing and learns that it is really his ball. Who wins the hole?

A. B wins the hole, because A played B's ball and failed to realize his mistake before B played another stroke.

Q. If a player looking for his ball in long grass accidentally steps on it, there is any penalty, and can the ball be lifted if it is found and he is in the hole?

A. There is a penalty of one stroke. The ball must be placed as it lies unless the player wants to avail himself of the rule for an unplayable lie.

Q. In a medal qualifying round, a player misses a short putt, loses his temper and kicks his ball several feet away. His competitor tries to quiet him, pitches the ball back to him and insists that he go ahead and hole out what he does, replacing the ball approximately where it lay when he kicked it. What is the penalty in such a case?

A. The player disqualifies himself. Q. In a three-ball match, A and B through mistake exchange balls, and the mistake is not discovered until A is holed out. How is the hole scored as between A and C and B and C?

A. C wins the hole from both of them.

Q. A player's ball in a single match stops on a steep slope short of the green. His opponent's ball strikes it and starts it rolling and it drops 30 feet or more away leaving him a blind shot for the green. Is he entitled to replace the ball if he chooses, or must he drop it as near as possible to where it originally lay and take a chance on its rolling down the hill again?

A. The rule provides that the ball be dropped, and does not permit replacing.

HOW STRONG ARE YOU?

EARLE E. LIEDERMAN
THE ACME OF PHYSICAL PERFECTION

THE illustrations appearing on this page are but a few of the many photographs appearing in my booklet, "MUSCULAR DEVELOPMENT." These are all photographs of my pupils showing the development which they have attained by faithfully following my instructions.

Chicago, Ill.
My Dear Mr. Liederman,
I received your last letter this morning and I thank you for the kind, friendly interest in my progress. I am now in a position to prove my condition better than I ever anticipated, and you will find me a L.W.A. & a glad and willing to recommend your course to any one.

Yours truly, DR. J. G.

Vancouver, B.C.
Dear Mr. Liederman,
You asked me to measure myself and I have done so. I am now happy to tell you that I have lost seven inches around my waist since taking your course and the fat around my hips and thighs is nearly all gone. I did not imagine when I enrolled with you that I could accomplish such splendid results. I think now, if I lose another 5 or 10 pounds I will weigh what I always wanted to.

Again accept my thanks. W.L.

Cleveland, Ohio.
My Dear Mr. Liederman,
I received your exercise this morning and it is everything you claim it to be. It surely is the greatest muscle builder I have had, and I am mighty glad I am one of your pupils, for I know you are going to make a real athlete out of me. Your letters are frank and straight from the shoulder.

I am going to send you a photograph of myself in a few weeks as soon as I have time to get one taken.

Wishing you success, I am
Most sincerely, J. McK.

Detroit, Mich.
My Dear Mr. Liederman,
I received my first lesson and you cannot imagine how pleased I am with the work you outlined for me for the first week. They certainly are real muscle building exercises, as you claimed they would be, and I know I am going to make rapid progress. I feel stronger and better already. Your pupil, E.C.

Philadelphia, Pa.
Mr. Liederman,
Dear Friend—Received your final lesson and have completed your course. I thank you very much for the fine training you gave me. You have made a real man of me and have enabled me to defeat many of my friends in strength. I am very much pleased with your course and thank you for all your kind letters and the help you gave me.

Wishing you luck and success in your life's work, I am
Your friend, A.C.

Cincinnati, Ohio.
My Dear Instructor,
I thought I would write you and let you know how I am getting along. I have been following your course three weeks now and my arms have gained over an inch. I have also gained three inches on my chest and one-half inch on my neck. Your course is certainly doing wonders for me.

Looking forward with interest to the next lesson,
Your faithful pupil, J.F.

Earle Liederman, 203 Broadway, New York City.

Dear Sir:

I have recently had occasion to thoroughly investigate your splendid course, and I believe that in departing from the old time-worn methods you have worked out a system which is excelled by none.

I have found several of your original exercises to be remarkably effective. There is no reason why anyone following your instructions should not rapidly attain perfect muscular development and abounding health.

Accept my congratulations and my best wishes for well merited success. Very truly yours, TEX O'ROURKE.

There must be some value to my system of training when such famous men as Tex O'Rourke, who is one of the world's leading authorities on physical culture, and who is undoubtedly the foremost trainer of the world's champions, recommends it.

Can You Do These Things?

Lift 200 pounds or more overhead with one arm;
Bend and break a horseshoe;
Tear two decks of playing cards;
Bend spikes;
Chin yourself with one hand.

Can you do all or any of them? I can and many of my pupils can. It is remarkable the number of things a man really can do if he will actually make up his mind to be strong. ANY MAN. It is natural for the human body to be strong and virile. It is unnatural to be weak. One leading writer on physical culture says: "It is criminal to be weak." I have taken men who were ridiculed because of their frail make-up and developed them into the strongest men of their locality.

I WANT YOU FOR 90 DAYS

These are the days that call for speed. It once took four weeks to cross the ocean—now it takes less than one. In olden days it took years and years to develop a strong, healthy body. I can completely transform you in 90 days. Yes, make a complete change in your entire physical make-up. In just 90 days I guarantee to increase your blood one full inch. I also guarantee to increase your chest two full inches. But I don't quit there. I don't stop till you're a finished athlete—a real strong man.

ARE YOU SATISFIED WITH YOUR APPEARANCE?

You won't get rich breaking horseshoes—neither does chinning yourself with one hand get you anywhere. But an attractive appearance does. I will broaden your shoulders, deepen your chest, strengthen your neck. I will give you the arms and legs of a Hercules. I will put an armor-plate of muscle over your entire body. But with it come the strong, powerful lungs which enrich the blood, thus putting new life into your entire being. You will have the spring to your step and the flash to your eyes. You will be just bubbling over with strength, pep and vitality.

SUCCESS

Health, Wealth and Happiness await you. Success in both the social and the business world are yours. Did you ever notice the daily crowds shuffling along the street, dragging their feet after them and apparently taking no interest in life? Suddenly you see some one man come swinging into the crowd with a bounding step as though he were just filled with fire. His head is thrown back, his shoulders erect, his chest out and he has a spring to his step that makes him almost fly along. You, naturally, turn and look at him—yes, admire him, for he has the vim and pep that you yourself lack. Believe him to be a success. He is the man that does the big things in life. His body is full of power and his brain is keen and alert. And just as you admire him on the street, so he is treated in his social life. He's the life of the party—nobody wants a dead one—it's the live one that counts.

A DOCTOR WHO TAKES HIS OWN MEDICINE

Many say that any form of exercise is good, but this is not true. I have seen men working in the mills who literally killed themselves with exercise. They ruined their heart or other vital organs, ruptured themselves or killed off what little vitality they possessed. I was a frail weakling myself in search of health and vigor. I studied anatomy and physiology, and after analyzing my own defects to find what I needed. After many tests and experiments I discovered the secret of progressive exercising. I have increased my strength, increased my reason, increased my character and other parts of my body in proportion. I decided to become a public benefactor and impart this knowledge to others. Physicians and the highest authorities on physical culture have tested my system and pronounced it to be the surest means of acquiring perfect manhood.

AN ALL-AROUND DEVELOPMENT

I am showing herewith a few of my pupils and their personal letters stating what my course has meant to them. My files keep filling up every day with letters of this nature. How I wish I could meet you face to face—an inspiration to every red-headed man. I could easily collect a big price for a book of this kind, just as others are now doing, but I want every man and boy who is interested to just send the attached coupon and the book is his—absolutely free. I ask you to remember, this does not obligate you in any way. I want you to know that I am not a quack. Now don't delay one minute—this may be the turning point in your life today. So tear off the coupon and mail at once while it is on your mind.

Send for My Book "MUSCULAR DEVELOPMENT"

It is chock full of large-size photographs of both myself and my numerous pupils. Also contains a treatise on the human body and what can be done with it. This book is bound to interest you and thrill you. It will be an impetus—an inspiration to every red-headed man. I could easily collect a big price for a book of this kind, just as others are now doing, but I want every man and boy who is interested to just send the attached coupon and the book is his—absolutely free. I ask you to remember, this does not obligate you in any way. I want you to know that I am not a quack. Now don't delay one minute—this may be the turning point in your life today. So tear off the coupon and mail at once while it is on your mind.
