OREGON'S EXPOSITION

is Getting Into Shape and the Space is Rapidly Being Taken.
WILL OPEN AT PORTLAND OCT. 5TH
Litigation Commenced on an Estate, Pague's Weekly Record--A Business Change.
The Exposition.
No less than a dozen counties have already secured space for special exhibits at the Exposition that will open in Portland October 5th. The department of state and county exhibits will be twice as large as in any previous Exposition, and will make the finest showing of the products and resources of this region ever brought together.
Arrangements are being made to have the entire Spokane Fruit Fair present. There will be the finest display of fruit ever seen. In variety and quality of fruit nothing has been exhibited before that will compare with it.
Special rates have been made on all lines. The Southern Pacific gives a round trip rate of one and one-third fare. The Northern Pacific and O. R. & N. Co. make the rate one and one-fifth fare. The steamers make it three-quarter cent a mile. Besides this, there will be special excursions on all lines, at which times the rates will be much lower. An opportunity will be given for every person who wants to visit the city and see the Exposition to do so at small expense.
There seems to be much more interest taken in the fair than in former years and this is no doubt due to the fact that it is an enterprise conducted solely for the general good, and is being handled in such a way as to benefit the entire section and not merely the city in which it is held. It is not a money-making scheme, and the price of admission has been put at half that of former years, the possible loss by doing so being provided for by popular subscription.
Visitors will see more of interest than in former years. Nearly every exhibit will have something going on to instruct or interest those who see it. Especially will the manufacturing exhibits have such special attractions. Machinery will be at work and machines will display their skill. It will be an industrial bazaar. It will be impossible in one visit to see everything contained in the huge building and enjoy the music and other entertainment offered. Washington county should be there with its exhibit of various products.
Litigation on Estate.
The heirs of the Edward Constable estate are commencing to litigate their respective issues. Some of the heirs had an administratrix appointed who has given bonds. The appraisers have been appointed to take an inventory of the estate. It now transpires that a will had been left in the county clerk's office immediately after Constable's demise, but the probatory fee was not advanced hence it was not a matter of record for legal action. On the morning of Aug. 21st, the fee was paid to have the will probated. On the same day, and an hour or so later, Judge Cornelius made an order appointing an administratrix, and appraisers. The attorneys for the heirs who support the administration claim that they should be cited for hearing on the will case before they relinquish the administrative powers, and the attorneys for those who desire the will probated deny this, taking their position that their legal status in the matter is secure, inasmuch as their filing has the priority. The county judge does not deny that the will was filed prior to the appointment of the administratrix but held Saturday last that counsel for those maintaining the validity of the will should cite the opposition to appear and show cause why letters administrative should not be revoked, which holding was by them pronounced in error and not tenable. The case will doubtless go to the circuit court for hearing.
The appraisers report on property to the extent of over \$4000, a large part of which, it is stated, is now standing in deed to a party, who has not advanced the consideration named as payment.
Pague's Report.
WESTERN OREGON.
Cooler weather with showers prevailed the fore part of the week, while the latter part was fair and warmer. The maximum temperature for the week ranged from 60 to 78 degrees. Thursday and Friday mornings were the coolest so far this season, and light frosts occurred in the more exposed and elevated locations. The showers were general throughout the valley and the atmosphere has been entirely cleared of smoke.
CROPS.
The rain delayed hop picking somewhat but no material damage was done. The grain harvest is

entirely over and most of the sacked grain has been put under cover. The cutting of the third crop of alfalfa is in progress in the irrigated districts, and in sections of the coast counties the second crop of clover is being cut.
FRUIT.
Fruit drying continues. The fruit is ripening nicely and is in excellent condition for drying. Peaches, pears and plums continue to be shipped in train-load lots. The current weather is extremely favorable to the development of the latter varieties of fruit. The rains were beneficial to grass and corn but of slight benefit to potatoes. Many farmers are now awaiting the coming of the rain in order to commence their fall plowing. The atmospheric conditions are gradually assuming their winter type, and though a period of fair weather is now probable, yet frequent showery conditions are possible.
Pythian Resolutions.
In consideration of the death of Sir Knight Wm. Beamish, a member of Phoenix No. 34, Knights of Pythias, Hillsboro, Oregon, the Sir Knights thereof, in Castle Hall assembled, do resolve:
I. That, while the Supreme Ruler has ordained that Sir Knight Beamish shall be by death from us divided, we shall ever revere him as having been a true Pythian Knight.
II. That this order in his Grand Domain, has lost a strong, willing and efficient worker, and that his absence in our councils can only be consoled by memory of what he hath in the past been to us.
III. That his life of sobriety and industry, and interest in Pythian tenets made him to us doubly dear, and his loss inestimable, and that we commend his life as worthy of emulation.
IV. That we sincerely regret and deplore his untimely demise, and to his parents, relatives, and all those to whom he was dear and beloved, we extend our heartfelt sympathy and condolence.
V. That these resolutions be recorded and published and copies distributed; one to the parents and relatives who live in this city, and one to the Grand Keeper of Records and Seal, Domain, Oregon.
(R. H. GREER, Committee.)
L. A. LONG.
D. W. DOBBINS.

J. W. SEWELL.
A Change.
Mr. C. E. Deichman, well and favorably known throughout Washington county has purchased W. A. Laidlaw's interest in the Bryan-Laidlaw Mercantile business, and will hereafter give the store his undivided personal attention. Mr. Deichman has served several years as county assessor and has a wide and extensive acquaintance which will not tend to militate against building up a fine trade. The new firm will doubtless get and hold their share of business.
Nearly Over.
Hop picking is nearly through with in this vicinity with the exception of one or two yards. Robt. Inbric will not be through yet for about 8 or 10 days unless bad weather is discontinued. The yard of Zina Wood would have been finished today but for the rain of yesterday. Wm. Bagley has commenced on his first crop and will be through in a few days. The city has been almost deserted since picking began and things will look up a little when the hundreds of dollars being now circulated in the various yards gets into action.
Commissioners' Court.
SEPT. TERM, 1895.

See the exposition display in another column.
J. D. Sullivan, a resident of Cedar Mill, was in the city this morning greeting his old friends for the first time in many months. Mr. Sullivan has been engaged in mining at Butte City, Montana, and he states that hard times are almost unknown in that section. He is at present taking an enforced rest, having been accidentally injured in the leg by a pick in the hands of a fellow miner.
Mrs. R. H. Greer returned last evening from the Yamhill colony and reports the Hillsboro colons in good spirits.
FREE COINAGE OF SILVER.
The free and unlimited coinage of silver, the product of American mines, at the old ratio of 16 of silver to 1 of gold, is the only solution of and remedy for the disturbed and unsatisfactory condition of trade, manufacture and general business of the country. The surreptitious act of 1873, divorcing silver and gold in our monetary system, was a crime of untold magnitude. It was the rankest kind of class legislation in favor of the wealthy against the producers of wealth, and hostile to the prosperity of the United States. It was an act of treason because done at the instance of a European syndicate and for bribe money, "giving aid and comfort to our country's enemies." To shield the guilty parties, the well authenticated facts, often published, have been vigorously denied.
The Enquirer will continue to expose this unpardonable crime until right and justice are done the people by the full restoration of silver to its old companionship with gold. We need the assistance of the people in disseminating the truth, to which end we invite all in your selection of papers for the coming season to include the Enquirer, that costs only \$1.00 a year. (Issued twice a week.)
